RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, June 12, 1875.

Financial and Commercial Affairs.

The ease in Money to responsible borrowers continues. The requirements of the commercial classes are on a moderate scale, and strictly prime to choice mercantile paper is scarce and readily taken up in the discount line at from 3½@5½ per cent on short date notes. The reports from England of failures, and the local instances of trouble in the same line, have not been deemed of sufficient importance to lead to any disturbance of the market. London advices are of an ample offering of Money there at 3½@3¾ per cent, with a steady, moderate gain of bullion on the part of the Bank of England. The speculative inquiry for aid here has been fairly active, but not equal to the absorption of the large floating balances, and call loans rates have been ruling low—generally 2@3 per cent to the leading Street houses. The City Banks show a further increase of net aggregate reserves, as against liabilities. The U. S. Sub Treasury lost slightly in its currency balance, and rather heavily in its specie board. The City banks last week augmented their reserve of legal tender notes $1,260,400, and their deposit item $533,200, while diminishing their specie average $827,400. They report an increase of $4,-700 in the loans and discounts, and a falling off of $130,300 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $47,440,042 against $47,453,602, the preceding week; and a coin board of $50,-991,672, against $53,086,967, on the previous return. The City bank exchanges in currency during the week, were $482,022,125, or a daily average of $96,404,425. The customs revenue of the port, during the week, was $1,582,000. The City banks reported their average of gold last week at $10,655,200, and their greenback average at $64,632,300. Their deposits stood at $238,-424,100. The loan item was $281,401,200. The circulation was $19,790,800.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $16,931,-475.

The aggregate of the outstanding U. S. currency, of all denominations, June 1, was $421,257,-541. The outstanding amount of legal tender notes is $377,064,000. The National bank circulation is now $350,780,279.

The U. S. Treasury balances on Tuesday were as follows: Currency, $4,880,221; special deposit of legal tenders for redemption of certificates of deposit, $57,030,000; coin, (including $19,863,600 in coin certificates,) $84,027,355.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $5,904,607.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been 104 millions, or equal to about 2 1-6 millions a week, which make the aggregate for the whole of the current fiscal year now drawing to a close, nearly 111 millions.

The specie exports from San Francisco, Jan. 1. to May 27, were $18,624,881, against $10,526,098 same time last year.

Gold has been further advanced, on a comparatively brisk speculative movement, stimulated, in good part, by the recent free specie exports. The customs inquiry has been light. The extremes of the week have been 116⅜@117⅛, closing on Wednesday at 116⅝ as against 116⅛ on Wednesday of the preceding week. The specie outflow last week was $4,418,423. The imports of specie at this port since Jan. 1, have been $6 871,657, against $2,344,576 same time last year. The customs demand for Gold last week averaged $316,-400 a day. Foreign Exchange has been in moderate demand and quoted firmer, with Bankers' sixty day bills on London quoted on Wednesday at $4 87@$4 87⅛; sight bills on London at $4 90@$4 90⅛ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,593,109.

Government Securities have been freely purchased on investment account, and have been again quoted higher. In State and Railway bonds business has been moderately active, with values quoted steadier for the more substantial loans. And in the line of Railway and Miscellaneous share property, the dealings have been on a restricted scale, at generally lower rates influenced by speculative manipulations, to further depress

values. The railway conflict has been used against the market, with much effect.

U. S sixes of 1881 closed on Wednesday of this week at 125¾@126; U. S. Five-Twenties of 1862, at 118¼@118⅛; U. S. Five-Twenties of 1864 at 118¾@119; U. S. Five-Twenties of 1865 122⅛@122¾; U. S. Five-Twenties of 1865 consolidated, 123⅞@124⅛; U. S. Five-Twenties of 1867, 125@125¼; U. S. Five-Twenties of 1868, 124¾@125; U. S. Ten-forties at 119¼@119⅛; U. S. Fives of 1881, (Funding Loan) 118@118¼; Six per cent. currency Sixes from 122½@122¾.

Free dealings in domestic produce, more especially in Breadstuffs, have been the feature of general business. Values, however, have been quite variable throughout. Grain closed stronger, on an active, export movement. Flour, Cotton, Provisions, Petroleum, Naval Stores, Hides and Leather, easier in price. Groceries held with more confidence. A limited trade has been noted in Hardware, Boots and Shoes, and Dry Goods. Metals have been very moderately sought after, and have been depressed in price. Eglinton Pig Iron quoted at $30; Glengarnock, $31@$32; Coltness, $30@$31; No. 1 American Pig at $25@$28; No. 2 do. at $23@$26; Forge, $21@$25; English Rails at $48@$50, gold; American Rails at works, $48@$50; Old Rails, $26 50@$27, with sales of 500 tons at $26 50. Wrought Scrap, $32@$34. Ocean freights have been more active, and rates have further advanced, but the later movements indicated renewed depression.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ Messrs. Boyle and Roach, of Cincinnati, have secured the contract of the new Sault Sainte Marie canal, between Lake Superior and Lake Huron, at $156,750.

☞ The Danville, Hazleton and Wilkesbarre Railroad is advertised for sale on June 15th on liens anterior the first mortgage on the property.

☞ The Valley Mill, at Youngstown, Ohio, has an order for re rolling 1,000 tons of rails for the Atlantic and Great Western railroad.

☞ Mr. Edward Hamilton has been appointed Secretary of Mr. Jeremiah Prescott, Manager of the Hoosac Tunnel.

Canton Company.

At the annual meeting of the stockholders of the Canton Company held in Baltimore on the 3d inst., the following gentlemen were unanimously elected directors, viz: Wm. Butler Duncan, Louis A. Von Hoffmann, Abm. B. Baylis and Jas. B. Colgate, of New York; Chas. J. Baker, Geo. S. Brown, Wm. G. Harrison, Chas. Weber and S. Sprigg Belt, of Baltimore.

The report of the President, which was presented, shows that the revenue of the Union Railway has steadily increased. The gross receipts for the year ending May 31, 1875, were $40,804, a gain of $15,846 over eleven months of the preceding year. The running expenses were $32,449, leaving net profits $8,354. 1,810,931 passengers have passed over the Union Railway, and 11,303 cars of loaded freight during the past year. The business of the Union Railway for the first two days of June were 1,700 passengers and 154 cars of freight, which shows a gratifying increase over May.

The income from the union elevator and wharf improvement, under the control of Mr. J. N. Gardner, has been from October, 1873, to May 31, 1875, $13,596 31, or 7,449 cars of grain received.

A comparative statement of grain received for the five months of 1874 and 1875 shows 1,920 cars and 774 734 bushels, against 2,475 cars and 911,007 bushels, or a gain for 1875 of 555 cars and 136,273 bushels grain over the same months of 1874.

The cash receipts of the Canton Company for the year were $364,597 09, and the disbursements $322,696 41, leaving a balance in bank of $41,900 68.

The actual bonded debt of the Union Railway and Canton Company together is stated to be $2,305,517.

It was determined that hereafter the annual meetings for the election of directors, &c., shall take place on the second Wednesday of June instead of the first Tuesday; also that the first meeting of directors after their election shall be held on the third Wednesday, instead of the third Thursday, in June, and all other regulations be made to conform to these changes.

Northern Pacific Railroad.

On Monday, August 2, 1875, Messrs. Oliver, Fiske and Kenneth G. White, Master Commissioners, will sell at public auction, in front of the Custom House in this city, the property and franchises of the Northern Pacific Railroad Company, according to the terms of a decree of foreclosure made May 12, 1875, by the Circuit Court of the United States for the Southern District of New York, sitting in equity in a case where Jay Cooke, C. Tower, J. F. Smith, T. Hosmer, W. S. Lane and W. A. Griswold were complainants and the Northern Pacific Railroad Company, defendant. The proceeds of the sale are to be devoted first, to the payment of the necessary expenses incidental to the execution and due preservation of the trust created in behalf of Jay Cooke and John Edgar Thomson; second, to the payment of balances due for labor and materials furnished within the 12 months next preceding; third, to the payment of taxes; fourth, to the payment of balances due for right of way, &c.; fifth, to payment of money borrowed to pay interest on bonds; sixth, to money advanced by any former director for interest, labor or materials; seventh, to indemnify persons who have become sureties for the company in defending suits; eighth, to the payment of such of the first mortgage bonds as have been issued in good faith and may be outstanding and unpaid, the interest warrants and coupons due and owing, as aforesaid, upon such bonds as may have been *bona fide* issued, and to the payment of whatever balance may be found to be due on the coupons or interest warrants of the said bonds which fell due prior to said 1st January, 1874, when the general default on the interest warrants or coupons of said bonds took place, as hereinbefore mentioned; and ninth, the residue, if any, to be subject to the order of the court. The trustees of the bondholders may of course purchase the road for the bondholders. The terms of payment are $100,000 down to bind the purchase, and the remainder in 60 days. The court decrees that in the payment of all except the $100,000 (which ought to defray legal expenses) first mortgage bonds, which may have been sanctioned by the court, may be taken as cash, each bond in such case to be taken only for such an amount as would equal the dividend to which it would be finally entitled under said decree.

Suncook Valley Railroad.

At the annual meeting held in Manchester, N. H., on the 27th ult., the following board of Directors was re-elected: Samuel N. Bell, Natt Head, Frederick Smyth, Lemuel B. Fowle, Chas. H. Carpenter, Reuben L. French and Martin V. B. Edgerly. Samuel N. Bell, of Manchester, was subsequently re-elected President of the Board, and Lewis W. Clark clerk. It appears that the business of the road is in a flourishing condition and that the Concord Railroad, which has a lease, is enabled to make some profit after paying the stockholders 6 per cent. William H. Berry, of Pittsfield, offered the following resolution, which was adopted:

Whereas, the convenience and safety of the patrons of the Suncook Valley Railroad and the interest of the stockholders themselves demand a more direct communication with the Concord road at Hooksett, the route for which has already been surveyed, and

Whereas, the cheapness of labor and materials and the low rate of interest render the present time most fitting for establishing such connection, therefore,

Resolved, That the Directors of the Suncook Valley Railroad be requested to take measures to cause the same to be constructed at as early a day as practicable.

☞ At the annual meeting of the Chicago, Rock Island and Pacific Railroad Company in Chicago on the 2d inst., the four directors retiring under the classification system were re-elected as follows: Francis H. Tows and Chs. R. Marvin of New York, Milton Courtright of Erie, and Henry H. Porter of Chicago. John F. Tracy was re-elected president; Hugh Riddle vice president, and F. H. Tows secretary and treasurer. The financial exhibit shows the gross receipts for the year to be $7,400,000; net earnings, $3,534,283; the surplus April 1, $6,542,929.

☞ The Carson (Nevada) Tribune says that the work on the Lake Tahoe Railroad is being actively pressed. Over half of the tunnel under the summit is now completed, and the present prospects are that the cars will be running through it long before its completion was anticipated.

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Vermont and Massachusetts Railroad.

At the annual meeting of the stockholders in Boston on the 2d inst. the report of the Directors for the three months from Sept. 30, 1873 (when the lease was made to the Fitchburg Railroad), to Dec. 31, 1873, was presented, showing as follows: income $119,277 38; expenses $119,087 28; net income $190 10. This covers all arrearages due from the corporation up to the time of lease. For the year ending December 31, 1874: income, $89,450 36; expenditures, $85,800. Mr. Richardson stated that the lease to the Fitchburg was entirely satisfactory, that everything between the two corporations has been harmonious. The following directors were chosen for the ensuing year: Daniel S. Richardson, W. H. Hill, J. A. Dupee, Geo. F. Fay, Francis Goodhue, Wendell T. Davis, Thornton K. Ware.

Southern Pacific Railroad.

The Grass Valley Union of May 28th has the annexed in regard to this road and its connections:

Caliente, the present northern terminus of the Southern Pacific Railroad, is situated in the foothills, which are the approach to the Tehachipe Pass, and the railroad company have now a large force of laborers grading and tunneling through these hills to reach the pass with their track. The work to be done is said to be the heaviest railroading yet encountered upon the Pacific coast. Work is also being prosecuted on the other end of the route, from Los Angeles north, the line being opened from that city to Spadra, in the San Fernando mountains. From Spadra to Caliente there is a gap of 110 miles, which is now connected by stage line, over which it will take eighteen months to construct the railroad. By this route of rail and stage passengers can now make the trip from San Francisco to Los Angeles in thirty-two hours.

☞ The earnings of the Central Pacific Railroad for the month of May, 1875, were $1,797,000, against $1,311,698 for the month of May, 1874, and $1,373,675 for the month of May 1873. For first five months of 1875 the earnings were $6,136,000, against $4,957,348 for the first five months of 1874, and $5,024,205 for the first five months of 1873.

☞ The Walla Walla (W. T.) Union says that the cars of the Columbia River and Walla Walla Railroad are now making regular trips between Touchet station and the Columbia river. The division includes the worst part of the road, and relieves trade and travel from great inconvenience.

Erie Railway.

APPOINTMENT OF A RECEIVER IN NEW JERSEY.

The order of the Chancellor, appointing Hugh J. Jewett, late President of the Erie Railway Company, Receiver of all the interests of said corporation in New Jersey, was filed in the office of the Chancery Court at Trenton on the 8th inst. The official bond for $150,000 has been approved by the Chancellor, and he has taken the oath of office. The order gives the Receiver entire and complete control of all the property, franchises, and interests of the company in New Jersey, and he is required to operate said road as heretofore, with good management and with a view to the public travel and accommodation. He can employ and discharge, settle unadjusted balances in traffic, and do all things that may be necessary. Nothing is said about borrowing money. The order in all matters of consequence is similar to that adopted in New York:

It is ordered, adjudged and decreed that the Receiver, Hugh J. Jewett, shall continue the operation of said railroads respectively in the ordinary and usual course, as the same are now operated in the common carriage of freight and passengers, having due regard to the public interest and the accommodation of the public, and keeping the premises and property, both real and personal, in good condition and repair, to the end that the said road may be officially operated with safety and convenience to the public. To the same end he shall, from time to time, employ and discharge all needful laborers, servants and agents, and purchase and pay for all needful material and supplies as may seem to him to be necessary and proper in the exercise of a sound discretion, with leave to apply to the Court, from time to time, as he may desire, and be advised for directions in the premises. He shall settle and adjust, according to usage and the usual course of business, all outstanding traffic balances with other railroads and like balances, from time to time, as may arise, and he shall have power to make all usual, necessary and proper arrangements for the interchange of business in the way of traffic arrangements and shall have power generally to do and perform all things usual and proper, according to the rules and usages of good railroad management, to increase the business of the said road and promote the convenience of the public. He shall have power to prosecute and defend without the further order of the Court all existing actions by or against said company, and to pay and defray the usual expenses incident thereto. He shall have power to commence and prosecute any actions which in the usual course of business he may deem necessary to commence hereafter, either in his own name, as such Receiver, or that of the company. He shall have full power to defend any and all suits that may hereafter be brought against said company, or against himself as such receiver, and to defray the necessary and proper expenses thereof, and in all and singular the premises he shall be subject to such orders and directions as the Court may from time to time make, and he is authorized to apply from to time for such orders and directions as he may be advised.

The said Receiver shall keep a true, full and particular account of all his acts and doings as such; of all the property, rents, &c., and of all his payments and disbursements in the performance of his duty imposed by this order. And he shall whenever required, render to the Court, and file with the clerk thereof, a true, full and particular account of all his receipts and disbursements. The premises considered, it is further ordered that the said company, and each and all the officers and agents thereof, are also strictly commanded and enjoined to deliver up and render to said Receiver, when he shall have become qualified according to the terms of this order, to enter upon his duty as Receiver, all and singular the premises e is hereby appointed Receiver.

It is further ordered that said Receiver, as soon as he conveniently can, do lay before this Court a full and complete inventory of all the estate, property and effects of the said company within this State, its nature and probable value and an amount of all the debts due from the said company and of the debts due to it as near as said Receiver can ascertain as this time.

And the Attorney General of this State desiring protection as to certain alleged unpaid taxes due this State from said corporation, it is hereby declared that neither the appointment of said Receiver, nor anything in this order contained, shall be construed in any wise to impair the rights of the State, to require the payment of said taxes in full.

It is further ordered that any person or persons, corporation or corporations having a contract with said Erie Railway Company shall be at liberty to apply by petition in this suit or independent bill for and obtain relief and injunction if entitled thereto to require the company or said Receiver to refrain from violating any such contract or any other relief and keep such terms as the Chancellor shall think fit.

It is further ordered that before entering upon the duties of his office the said Receiver do give bond with sufficient surety, to be approved by the Chancellor, in the sum of $150,000 for the faithful discharge of his duties as Receiver under this appointment.

THEODORE RUNYON, Chancellor.

Salisbury Railroad.

The stockholders of the company which lately purchased the Salisbury and Baltimore Branch railroad met a few days since in Somerset, and organized by the election of the following directors: E. D. Yutzy, Noah Scott, M. A. Sanner, W. S. Bear, D. C. Scott, Alexander Stutzman and Peter S. Hay. The officers are: E. D. Yutzy, President; Noah Scott, Secretary and Treasurer. The Cumberland, Md., *News*, from which the above was obtained, says:

The new company will be known as the Salisbury Railroad Company. It is expected that work will be recommenced on the road within a a very few days, and be energetically pushed. For the present the line is located only from Meyersdale to Salisbury, running through the great Salisbury coal fields. It is not improbable, however, that at some future day the road will be extended through Deeter's gap to the Baltimore and Ohio railroad at or near Oakland.

☞ The Frankfort, Muncie and Bloomington Railroad Company has filed articles of incorporation at the Secretary of State's office at Indianapolis, with a capital stock of $2,000,000. The object of the company is to complete the construction of the abandoned and forfeited Lafayette, Muncie and Bloomington road from the city of Muncie to the Illinois State line.

WELLAND CANAL ENLARGEMENT.

Notice to Contractors.

SEALED TENDERS, ADDRESSED TO THE UNdersigned, and indorsed "Tender for Welland Canal," will be received at this office until the arrival of the Eastern and Western mails on THURSDAY, *the 24th day of June next*, for the construction of a Tunnel, a number of Docks, Regulating Weirs, Bridge Abutments and Piers, Excavation, Dredging, &c., connected with several miles of the enlargement; also the extension and deepening of Port Dalhousie and Port Colborne harbors.

The works will be let in sections, some of which are situated on the new line between Port Dalhousie and Thorold, and others, about one mile in length each, consist principally of deepening and widening the present canal at places between Thorold and Port Colborne.

Maps of the several localities together with plans and specifications of the works, can be seen at this office on and after FRIDAY *the 11th day of June*, where printed forms of tender can be obtained. A like class of information relative to the works north of Allanburg will be furnished at the resident engineer's office, *Thorold*, and for works south of Port Robinson, plans, &c., may be seen at the resident engineer's office, *Welland*.

Contractors are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms, and, in the case of firms, except there are attached the actual signatures, the nature of the occupation and place of residence of each member of the same; and further, an accepted bank check or other available security for the sum of from $1,000 to $3,000, according to the extent of work on the section, must accompany each tender, which sum shall be forfeited if the party tendering declines entering into contract for the works at the rates stated in the offer submitted.

The amount required in each case will be stated on the form of tender.

The check or money thus sent in will be returned to the respective contractors whose tenders are not accepted.

For the due fulfilment of the contract satisfactory security will be required on real estate or by deposit of money, public or municipal securities or bank stocks to an amount of five per cent on the bulk sum of the contract, of which the sum sent in with the tender will be considered a part.

Ninety per cent only of the progress estimates will be paid until the completion of the work.

To each tender must be attached the actual signatures of two responsible and solvent persons, residents of the Dominion, willing to become sureties for the carrying out of these conditions, as well as the due performance of the works embraced in the contract.

This department does not, however, bind itself to accept the lowest or any tender. By order.

F. BRAUN, Secretary.

DEPARTMENT OF PUBLIC WORKS,
OTTAWA, April 26, 1875.

Rapid Transit in New York.

The following is a copy of an act passed by the Legislature of New York on the 12th of May, 1875, to authorize cities to provide railways for rapid transit of persons or property, and to create corporations for that purpose:

SECTION 1. The Mayor of any city in this State is hereby authorized to nominate, and by and with the consent of the Board of Aldermen, to appoint three persons, who shall be residents of such city, as Commissioners of Rapid Transit, to hold office, respectively, for one, two, and three years. The said Commissioners, or a majority thereof, with the Mayor, shall have power:

1. To fix and designate the route or routes, avenues, places or streets, to be used by a railway company, with steam or other motive power, for the rapid transit of persons and property, through said City or any portion thereof, upon, under, or over the streets or avenues so designated.

2. Legally, and in the manner required by law, to acquire the right of way used or wanted for the use of the railway in the name of the City, or in the name of such persons or corporation to whom said Mayor and Commissioners shall grant a license to use the same for carrying persons and property, and to acquire, if necessary, the consent specified by section 18 of article 3 of the Constitution of this State.

3. To grant a license, right, and franchise upon such terms and conditions to such bidders or acceptors of propcsals, or to their assigns, as the Mayor and a majority of the Commissioners shall accept and approve under their advertisement, hereinafter named, which license, right, and franchise is to be used for hauling or conveying persons and property, by the agency of steam or other motive power, through, over, upon, or under any and all streets, places, and avenues, in said city, which have been designated, as above named, as the route or line for carrying persons and property. Also, to authorize the construction and maintenance of a proper road bed in, on, or under said streets, places, and avenues, for such conveying of persons and property.

4. To reject any bid or proposal received by said Mayor and Commissioners, and to readvertise the same for other bids, either upon the same or different terms and conditions.

5. To fix the rate of toll or fare for carrying persons upon said line of railway.

6. To determine the manner, form, and style of constructing and operating said line of railway.

7. To authorize the construction and maintenance of a suitable bridge by the accepted or successful bidders, or their assigns, across any navigable river or stream within the limits of said city, with such width of draw and in such manner and form, and with such guard as will not seriously interfere with the navigation of such river or stream, whenever it may be necessary or desirable for the purpose of establishing a continuous line for rapid transit of persons or property through said city or any portion thereof.

8. To designate in what manner and through what streets elevated rapid transit railways now in operation in any such city may connect with other rapid transit or steam railways or the depots thereof, and with steam ferries. And when any such route or routes shall be so designated, such rapid transit railway or other company may construct such connection, with all the rights and with like effect as though the same had been a part of the original route of such railway.

9. Nothing in this act contained will be held to authorize the information of a street railroad on or along the surface of any street, road, or avenue in any of the cities of this State upon which a street railroad has been constructed or heretofore authorized to be constructed, or to place the piers or supports of any elevated rapid transit railway on any part of the tracks of said street railroad.

SEC. 2. Whenever a majority of said Commissioners, with said Mayor, have fixed upon the line of the proposed railway, and designated the route, streets, places, or avenues, or any portion of both or either, over, under, or upon which they propose to authorize rapid transit by steam railway or other motive power, and have filed a map and a certificate of the same in the Mayor's office, the Mayor shall then and thereupon advertise for at least thirty days, for proposals to purchase the license, grant, franchise, and right to build, maintain and operate a railway with one or more tracks, over, under or upon the lines so designated, to be operated by steam, locomotive or other motive power. And the said Mayor and a majority of the Commissioners are hereby authorized to accept the bid or proposal which shall be made, which, all things pertaining thereto being considered, shall appear to be the most advantageous for the interest of the City, and its citizens and inhabitants.

SEC. 3. To facilitate the construction of a railway for rapid transit of persons and property in cities where the steps above named have been taken, the Mayor and Aldermen of said city may procure the entire right of way for said proposed railway, and the consent required by sec. 18, art. 3, of the Constitution of this State, if necessary, either in their own name or in the name of the successful bidders, or their assigns, and may give license to use the same on the terms proposed by the Mayor and Commissioners, as above set forth.

SEC. 4. The Mayor may remove for cause any commissioner so appointed as above provided, or, with the advice and consent of the Board of Aldermen, fill any vacancy in the number of Commissioners, caused by death, removal, or inability to serve as such Commissioners.

SEC. 5. The persons making the bid or proposal which shall be accepted by the Mayor and Commissioners as above provided, or his or their associates or assigns, may at any time form themselves into a corporation, by filing articles of association in the office of the Secretary of State and in the office of the County Clerk, with such powers and privileges as may be necessary or desirable, not contrary to or inconsistent with the laws of the State, including the right to mortgage, with power of sale, all or any part of their property and franchises. Upon filing such articles of association they shall have all the powers therein enumerated, and all the rights and franchises purchased by them, by said Mayor and Commissioners, or by any other State or municipal authority and also the powers, rights, privileges and franchises conferred upon railroad corporations by an act entitled "An act to authorize the formation of railroad corporations, and to regulate the same," passed April 2, 1850; and also by all acts and parts of acts in addition or supplemental thereto or in alteration thereof.

SEC. 6. Nothing in this act contained shall authorize the construction or operation of any railway over, along, upon, or under either Broadway, Fifth avenue, below Fifty-ninth street, or on Fourth avenue above Forty second street, in the City of New York, except to cross the same in manner and form approved by said Mayor and Commissioners, where necessary to form a continuous line of railway.

SEC. 7. The said Board of Aldermen may fix and determine the salaries to be paid to said Commissioners per annum, and the same shall be paid said Commissioners by the Controller or other financial agents of the said City.

SEC. 8. This act shall take effect immediately.

Baltimore and Drum Point Railroad.

At the annual meeting of the stockholders held in Baltimore on the 2d inst., the following directors were chosen: Wm. R. Hutton, Dr. Benjamin King, Dr. Estep Hall, James T. Briscoe, Thomas S. Iglehart, Augustus Albert, Henry Loane, Andrew Banks, Wm. H. Bians, Dr. S. Lynch, James A. Bruce and D. R. Magruder. The president's report states that the receipts of the company from all sources since its organization have amounted to $194,159 47, all of which has been expended. Of the subscriptions there remains unpaid the sum of $658,480, of which $513,480 is stated as being available, and to this sum the Annapolis and Elkridge Railroad can add $100,000. The estimated cost of the road from Drum Point to Baltimore is $1,300,000. Anne Arundel and Calvert counties have as yet refused to make the subscriptions authorized by law and by vote of the people of those counties. It is proposed to use whatever assets are available to build a road from the Annapolis Railroad to Mount Zion, at West river, and probably to the Calvert county line.

☞ At the annual meeting of the St. Louis, Alton and Terre Haute Railroad Company in St. Louis on the 8th inst., the following Directors of the third class were elected for three years: Robert Bayard, Samuel J. Tilden, William Bayard Cutting, John S. Barnes and Thomas Denyall of New York.

☞ The Warwick (R. I.) Railroad Company, at its annual meeting in Providence on the 2d inst., elected as Directors: Richard Vose, John C. Wyman, E. B. Stanton and George W. Beach of New York, and George W. Prentice of Providence.

HUDSON RIVER CEMENT WORKS,

Manufactory at Kingston, N. Y.

(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

Taxation of Gross Receipts of the Erie Railway Company in Pennsylvania.

APPEAL FROM THE STATE COURTS TO THE SUPREME COURT OF THE UNITED STATES.—THE RIGHT OF THE STATE TO IMPOSE THE TAX MAINTAINED.

In the case of the Erie Railway Company, plaintiff in error, vs. The Commonwealth of Pennsylvania—in error to the Supreme Court of the Commonwealth of Pennsylvania—Mr. Justice Hunt delivered the opinion of the Court, as follows:

The question in this case is that of the right and intention of the State of Pennsylvania to impose a tax upon the gross receipts of the Erie Railway Company. In May, 1868, the Legislature of that State passed an act, by the eighth section of which there was imposed a tax of three-fourths of one per cent upon the gross receipts "of every railroad, canal and transportation company liable to tax upon tonnage under the preceding section of this act." The companies included in that "preceding section" were "every railroad company, steamboat company now or hereafter doing business in this State, and upon whose works freight may be transported, whether by such company or individuals"—(Section seven). Under this section the accounting officers of the State have settled an account against the Erie Railway Company. From this settlement an appeal was taken, in pursuance of the practice of that State, by the company to the Dauphin County Court, where a verdict for the sum of $76,788 20 was rendered in favor of the State, which upon an appeal to the Supreme Court of the State, was sustained. From this judgment of the Supreme Court a writ of error is brought to this court.

It was decided by this Court in Reading R. R. Co. vs. Pennsylvania (15 Wallace) that a tax upon the gross receipts of a railroad company is within the power of the State to impose.

Not struggling against the effect of this decision, the Erie Railway Company still contends that the tax in question is not legal for two reasons:—First, that this company was not intended by the Legislature to be embraced within the terms of the act of 1868; and second, that the terms and conditions of former acts of the Legislature have created an agreement with the company that it shall be exempt from taxation except to a limited extent and in a specified manner.

First—The Erie Railroad Company was chartered by an act of the Legislature of the State of New York, April 24, 1832, with power to construct a railroad from New York to Lake Erie, through the southern tier of counties of that State. By an act passed in 1846, they were authorized to locate that portion of their road in the State of Pennsylvania which now exists there. By subsequent foreclosure and legislation the Erie Railway Company was formed, with all the rights and authorities conferred upon the Erie Railroad Company. On the 16th of February, 1841, the Legislature of the State of Pennsylvania, by an act in which it is recited that for the purpose of avoiding certain engineering difficulties it was desirable that the Erie Railroad Company should be located for a distance of about fifteen miles through the county of Susquehanna in that State, it was enacted that the said road might be located upon such route through said county as the company should find expedient. The company was authorized to enter upon and take the land of individuals, also gravel, stone or wood, for the purpose of constructing the road, paying for the same if the amount was agreed upon; if not, to be ascertained by an appraisement, as in the act is prescribed.

By a second act of the date of March 26, 1846, authority was further given to this company to construct its road through the county of Pike for a distance not exceeding thirty miles, with the same general powers and under the same general restrictions. It was further provided that the company should cause to be prepared and filed in the office of the Auditor General of the State a verified statement of the expense of constructing that portion of the road lying within the State of Pennsylvania, and that the company should annually pay into the State Treasury the sum of $10,000.

The last section of the act provided that the stock of the said company to an amount equal to the cost of the construction of that part of the road situate in Pennsylvania should be subject to taxation in the same manner and at the same rate as other similar property is or may be subject. It is one of the agreements of the case that the whole length of the Erie Railroad is 455 miles, 42½ miles of which is in the State of Pennsylvania, in Pike and Susquehanna counties.

The gross receipts of the company upon its main line (of which this 42½ miles is a part) in the year 1869 were $9,266,349 33. Of this sum 42½ 455ths—viz., $884,988 38—was adjudged to be the portion taxable in Pennsylvania under the statute imposing the tax in question. Upon this sum three-fourths of one per cent was imposed as a tax, and in this manner the sum of the tax for several years, with interest and expenses was made up.

It is argued that the Legislature did not intend to bring this road within the tax provisions of the act of 1868, because the company is not doing business in that State in the sense intended in the act, but is, as to nearly all the freight from the transportation of which the gross receipts accrued, merely using the right of way through a small portion of the territory of Pennsylvania, which it purchased from and pays for to said State. It is argued, further, from the details and machinery of the act, that it cannot be made applicable to this case without requiring on the part of the Court the introduction of new claims and provisions which

the Legislature has not seen fit to introduce and which clauses and provisions, it is said, are beyond its power to introduce.

In relation to the first branch of the objection, that the Erie Company is not doing business in the State in the sense intended by the act, the answer is twofold.

First—The Supreme Court of that State has held that this "company was doing business in the State in the sense of that act."

This construction of a State statute by the Supreme Court of the State, involving no question under the laws or constitution of the United States, is conclusive upon us. We accept the construction of State statutes by the State courts, although we may doubt the correctness of such construction. We accept and adopt it, although we may have already accepted and adopted a different construction of a similar statute of another State in deference to the Supreme Court of that State. (Randall vs. Kirtland, 13 Wall., 306; Blosburg Railroad Company vs. Tioga Railroad Company, 20 Wall.)

Second—We are of the opinion that the Supreme Court of Pennsylvania was right in its construction of the statute of 1868.

Construing together the seventh and eighth sections of the act, it is enacted, "that every railroad company, steamboat company, &c., now or hereafter doing business in this State, and upon whose works freight may be transported whether by such company or by individuals," &c., shall be liable to the tax in question.

It can scarcely be doubted that this company is doing business in the State of Pennsylvania, where it receives gross earnings to an amount exceeding $9,000,000 per annum for transportation over its road, of which forty-two miles lie within that State. The statute does not limit the amount of business done, or the length of the road upon which it is done, as fixing its liability to taxation. The legal effect of the appellant's argument would be the same if 413 miles of its road were within the limits of the State of Pennsylvania and forty-two miles only were in the State of New York, instead of lying as it now does. We see no such difficulty in the machinery for the collection of the tax as should make us doubt the intention of the Legislature. That, in fact, the State at once proceeded to and has constantly persisted in its exercise affords strong evidence of its intention and of its understanding of its effect.

If it intended to impose the tax and had the power to do it, the extent and the proportion to which it is carried belongs to the judgment and the discretion of the State only. It is beyond our examination. (Reading Railroad vs. Pennsylvania, 15 Wall., 236; Minot vs. Railroad, 18 Wall., 206.) That it has the power to enforce the tax by direct action upon that part of the road within its territory would seem reasonably certain, and that it would attempt to lay taxation to an extravagant or oppressive extent has not yet appeared. That it has exercised less than the full extent of its power and has apportioned the tax according to the length of the road within the State is not a just subject of complaint by the company.

The second objection is that the act of 1868 impairs the obligation of the State not to impose such a tax upon the Erie Company. It has been held many times in this Court that a State may make a valid contract; that a corporation or its property within its territory shall be exempt from taxation or shall be subject to a limited and specified taxation. (New Jersey vs. Wilson, 7 Cranch, 164; Gordon vs. Appeal Tax Court, 3 Howard, 133; Achison vs. Huddleson, 12 Howard, 293; Bank, vs. Knoop, 16 Howard, 369; Dodge vs. Woolsey, 18 Howard, 331; Bank vs. Shelley, 1 Black, 436; McGee vs. Matthias, 4 Wallace, 143; Hoffman vs. City of Quincy, 4 Wallace, 535; Home of Friendless vs. Rouse, 8 Wallace, 430; Washington University, vs. Rouse, 8 Wallace, 439; Wilmington Railroad vs. Reid 13 Wallace, 264; Tomlinson vs. Branch, 15 Wallace, 460; Humphrey vs. Pegues, 16 Wallace, 244.)

The Court has, however, in the most emphatic terms and on every occasion, declared that the language in which the surrender is made must be clear and unmistakable. The covenant or enactment must distinctly express that there shall be no other or further liability to taxation. A State cannot strip itself of this most essential power by doubtful words. It cannot by ambiguous language be deprived of this highest attribute of sovereignity. This principle is distinctly laid down in each of the cases referred to. It has never been departed from. Tested by this rule, the contention of the appellant must fail. On the occasion of the first act referred to—to wit, in 1841, by which the Erie Railway Company was permitted to take lands and lay its tracks and run its cars through the county of Susquehanna, nothing was said in the act upon the subject of taxation. The value created or transferred to that county remained there like any other property of a corporation, and, like all other property, subject to the operation of the laws of the State.

The act of 1846, authorizing the building of the road through the county of Pike, contains two provisions in reference to taxation. By section 5 it was enacted that after the road should be completed through the counties of Pike and Susquehanna an accurate account of the cost of that portion of the road should be filed in the office of the Auditor General, and that, after the road should be completed to Dunkirk, or extended by any other improvement to Lake Erie, the company should pay annually into the treasury the sum of $10,000.

The sixth section provides that the stock of the company to an amount equal to the cost of the construction of that part of their road situate in Pennsylvania "shall be subject to taxation by this Commonwealth in the same manner and at the same rate as other similar property is or may be subject. * * * And the company shall annually make a statement of its affairs * * * and of the business done upon said road during the previous years, said statement to contain a full and accurate account of the number of passengers, amount and weight of produce, merchandise, lumber, coal and minerals transferred on said road east of Dunkirk and west of Piermont."

We find in these enactments no intimation of an intention to limit or to surrender the taxing power of the State. Two subjects of taxation are specified, and reports and details are required, from which it may be inferred that the Legislature looked to other taxation thereafter. They taxed as far as was then thought proper, leaving the future to provide for the future. There is no suggestion of a release of any power or surrender of any authority possessed by the State. None of the cases decided by this Court would justify a decision that, by the language we are considering, the general powers of taxation were agreed to be surrendered by the State.

Nor do we find in New York and Erie Railway vs. Sabin (26 Pa. Stat. Rep., 244), cited by the appelant (2 Casey) anything in hostility to this construction. It was there held merely as the State had imposed a tax upon the stock of the company to the extent of the cost of construction in that State, that implied an exemption from the ordinary taxation for State and county purposes. It was said that to hold otherwise would be to subject the same property to double taxation, which it cannot be supposed to be intended. The remarks of Mr. Justice Woodward in Erie Railway vs. Commonwealth (16 P. F. Smith, 84), give a full explanation of the meaning of the language employed in that case.

In the Commonwealth vs. Easton Bank (10 Pa. Stat. R. 451, cited and approved in 18 Wall., 227), it was held that the designation in the charter of the bank of the payment of taxes on its dividends at a fixed rate was a mere designation of a tax taken to be paid, and did not affect the power to impose other or greater taxes. The decisions of the State Courts of Pennsylvania are quite in harmony with our own on this subject.

None of the objections are well taken, and the judgment must be affirmed.

Concord Railroad.

The receipts from operations of this road for the years ending March 31, 1874 and 1875, have been as follows:

	1874.	1875.
From passengers	$372,741 53	$371,213 87

The amount of material and supplies on hand for the use and repairs of the road is nearly forty thousand dollars in excess of the amount on hand at the close of the previous year. This excess is mostly in old rails now at rolling mills for re-rolling, and in wood for the use of the road.

The rolling stock is generally in good condition, and for the past year has been sufficient to meet the requirements of the business. The passenger equipment has been kept in good repair. Two

new box freight cars and sixteen long platform cars have been built, to take the place of old cars which were worn out. The number of cars now owned by the corporation is the same as stated in the last report.

A new passenger locomotive, commenced the previous year, has been completed, and one new freight locomotive has been entirely built and placed upon the road. Nine other locomotives have been thoroughly overhauled and repaired, and the necessary repairs made upon the balance.

The road bed and superstructure have been keept in good repair, and some improvements have been made therein. Five hundred and eight tons of new steel rails and 623 tons of new iron rails have been placed in the tracks during the past season; 1,425 tons of iron rails have been taken up, repaired and relaid; 70,200 new sleepers were laid during the year; and 8¼ miles of double track, from a point below Manchester to Merrimack Station, ballasted, one foot in depth, with gravel. There now remain to be done about eight miles more to complete that improvement from Concord to Nashua. Eight thousand and sixty-nine feet of additional side track have been laid during the year, and over nine miles of new fence built. The truss bridge at Hooksett, and the Kelley Falls bridge on the North Weare Road, have been rebuilt; and all necessary repairs made upon other bridges on the road.

The depots and other buildings have generally been kept in a good state of repair, but several new structures and other improvements hereafter referred to, are desirable for the greater accommodation of the public, and the convenience of the road.

The sum of $12,243 83 has been expended for extensive alterations and improvements in the passenger depot at Manchester. The engine house at the same station has been enlarged at an expense of $3,303 62, and is now sufficient for the immediate wants of the company, in connection with the Manchester and Lawrence Road. A further improvement, which is proposed to be made at that place during the coming year, is the removal of the wood shed and water fixtures from their present place in the rear of the passenger depot, to a convenient point near the engine house. That change will avoid the necessity for so frequent crossing, by engines, of the important highway near the depot, and thus greatly lessen the annoyance and risk of injury to the public which now exist.

A new coal house and wood shed are required at Concord, and additional room for housing passenger cars is much needed. It is desirable that a new passenger depot should be built at Nashua, during the coming year, and the facilities for receiving and delivering freight at that station should be improved.

A new passenger depot is needed at Suncook, and its erection should not be much longer delayed. Enlarged and improved passenger accommodations are very desirable at Concord, as has been stated in previous reports, but it is not thought advisable to make any extensive alterations there during the existing business depression.

The total tonnage of the road for the year has been 691,972, equal to 21,926,106 tons transported one mile. Total number of passengers carried 546,115; total carried one mile, 13,240,002. Number of miles run by trains, 791,356. Value of materials on hand at the close of the year, $220,095 18, against $180,148 20, at the close of the previous year—an increase of $39,946 98.

Chesapeake and Ohio Canal.

At the annual meeting of the stockholders held in Annapolis, Md., on the 7th inst., A. P. Gorman, Esq., President submitted the forty seventh annual report of the company for the fiscal year ended December 31, 1874.

The report states that the coal tonnage of the canal for 1874 shows an increase of 38,788 tons over that of 1873, and the gross revenues to have been larger than has ever occurred since the organization of the company. The receipts from tolls were $500,148 13, and from water rents, interest on deposits, and miscellaneous sources, $17,266 09—making the total receipts $517,412 22, being an increase over the receipts of 1872 of $30,406 56, and over 1873 of $9,751 70.

The ordinary and extraordinary expense for operating and maintaining the canal, including pay of officers, was $227,204 63. The net revenue exceeding the usual expenditures by the sum of $290,207 59. The balance in the treasury as of December 31, 1873, was $92,577 54—making a total balance on hand at the end of the last fiscal year of $382,785 13. This balance was expended as follows: for prepayment of coupons on preferred construction bonds, $257,925; for steam pump, dredge, stone crusher, engines, and dressed stone, $34,546 67; for refunded tolls, $2,523 10—balance on hand, $87,790 36.

By means of improvements during the year the condition of the canal was greatly bettered, there having been no detentions because of breaks, and but slight interruptions on account of damage to lock gates, and the navigation being more reliable and uniform than heretofore.

The number of boats which left Cumberland during the year was 7,378, carrying 836,997 tons, an increase of 38,787 tons over the freight of 1873.

Since June 1, 1869, the payments on account of principal and overdue interest on bonded debts amounted to $1,171,458 82. The bonded debt, known as "preferred construction bonds," is $1,699,500, the overdue interest on which to January 1, 1875, is $1,376,595, making a total of $3,076,095. The overdue interest, together with the yearly accruing interest of $101,970, must be paid before the State can receive any direct return for her investment in the canal; and the report anticipates that this indebtedness will be liquidated by January 1, 1883, by paying five coupons, or $254,925, each year.

The report points out with frankness the difficulties of securing to the canal its due proportion of the increased coal trade which must flow from the Cumberland and Salisbury basins, chief of which is the perfection of the system of railroad transportation, and the increasing competition for coal freights on railways. It is alleged also that the Pennsylvania Railroad Company owns or controls the canals leading to the Juniata, and propose to complete their canal and slackwater to a point within eighty miles of this company's coal mines. Such a consummation would create a formidable competition. As a preventive of this probable competition it is recommended to furnish the Chesapeake and Ohio canal with proper connections and outlets. Of these the extension of the canal to Baltimore and to Piedmont is urged.

An election for President and six directors then took place, which resulted in the choice of the following gentlemen: for President, Arthur P. Gorman; for directors, James G. Berret, Daniel S. Biser, Michael Bannon, Gilmore Meredith, G. M. Watkins and A. K. Stake.

The meeting adjourned to the first Wednesday in September.

Eastern Shore Railway.

At a meeting of the holders of the first mortgage bonds in Philadelphia on the 9th inst., the President, Hon. George R. Dennis, submitted a report showing the total amount of revenue of the company from December 1, 1869, to April 30, 1875, to have been $443,905 37, and the operating expenses $200,779 48, leaving a balance of $143,125 89. The balance after payment of debts is $6,816 20. The receipts last year were $21,593 64 less than the previous year, which was occasioned by loss of through freight from Norfolk and the failure of the fruit crop. The prospects this year are better. During the last ten days over three hundred car loads of strawberries passed over the road, and a fine peach business is anticipated. The hotel on the Atlantic coast, in Worcester county, Md., has been completed, and will be ready to accommodate 250 guests by July 1. Arrangements are being made to construct a bridge 250 yards in length across the Narrows, so that passengers will be landed at the hotel on the beach. As the beach is equal to any other on the Atlantic coast and the surf-bathing fine, it is expected it will increase the passenger travel over the road. Arrangements have been made by the Eastern Shore Railway, the Eastern Shore Steamboat Company, and the Wicomico and Pocomoke Railroad, for a direct line from Baltimore, by which passengers can leave Baltimore at 5 o'clock P. M., and will reach the hotel at 8 A. M. next day. About $31,923 29 have been paid in the last five years for the use of cars, and the report recommended the purchase of cars for the road. $5,251 54 are due on the floating debt of the company, which has been arranged by notes payable in 1876 and 1877. There is another amount of $2,154 83 outstanding, $80,000 due the Philadelphia, Wilmington and Baltimore Railway Company and $216,000 overdue coupons on $400,000 first mortgage bonds up to January 1, 1875. The report was approved, and a committee was appointed to purchase forty additional cars for the road.

☞ Negotiations are now pending looking to the speedy re-opening of the Hempstead branch of the Southern Railroad, running from Valley Stream to the village of Hempstead, L. I., and connecting at Valley Stream with the Rockaway branch of the Southern Road.

Cheap Morning and Evening Trains.

At the close of a joint meeting of the Public Health and Dwelling Reform Associations recently held in this city, and which was addressed by Dr. Stephen Smith, Health Commissioner, upon "Surburban Homes for Working Men," a committee was appointed to urge upon the railroads that radiate from this City the propriety of adopting the cheap morning and evening train system which has been so successful in England and Massachusetts. The committee, after collecting all accessible statistics upon this subject, concluded to begin their labors by a general address to the Presidents and Directors of the railroad corporations indicated. That document is given below:

GENTLEMEN: We address you as a committee on behalf of the Public Health and Dwelling Reform Associations of this City—organizations devoted to the advancement of measures designed to improve the health and social condition of the people. At a recent joint meeting of these associations the subject of providing homes for the laboring classes in the surburbs was discussed and the conclusion reached that the only obstacle to the settlement of large numbers of families now living in crowded tenements on the unoccupied lands along the railroads that lead out of the City, is the high rates of fare. Rapid transit is already secured on these roads, but not cheap transit within the limits of the means of the laboring man. So impressed were these associations with the importance of taking immediate steps to secure cheap as well as rapid transit for our excessive tenement house population, that this committee was directed to wait upon you at the earliest practicable moment and urge the adoption of cheap morning and evening trains. This proposition embodies no novel and untried experiment. Cheap trains for the benefit of the poor have been adopted in other cities, and have not proved unremunerative to the railroad corporations engaged in the enterprise. We beg to call your attention to these experiments:

As early as 1861 the British Parliament took its first step toward requiring railroads entering London to run cheap morning and evening trains for the benefit of laboring people. Since that date all the railroads entering London have been required to adopt the system. The carriages devoted to working men are all of the third class; each workman is allowed to carry not to exceed a given number of pounds weight of tools; the fare varies on the different roads, being as low as four and half cents (currency) for twenty miles; the rate of speed is from twelve to sixteen miles per hour. These trains have proved remunerative to the roads and of the greatest benefit to the poor. Large and thriving towns have sprung up along these roads, filled with the families of working men employed in the city. And so punctual is the laboring man resident in the country to his business in the city, owing to the certain movements of trains, that latterly city employers have come to prefer them to the residents of the city.

In 1871 Josiah Quincy, of Boston, petitioned the Legislature of Massachusetts "to consider the justice, legality, and expediency of compelling all the railroads terminating in Boston to run what are called working men's trains, morning and evening, at very reduced rates." In the following year a law was passed requiring every railroad running out from Boston to furnish a morning train in and an evening train out on the plan of cheap fares. But, without appealing to the law, Mr. Quincy, with Hon. Charles Francis Adams, Jr., President of the Board of Railroad Commissioners, and others, prevailed upon the managers of the Eastern Railroad to try the experiment in November, 1872. The trains run to Lynn, twelve miles distant, the first incoming train leaving Lynn at 5:30 o'clock A. M., the second at 6.30 o'clock A. M., the evening outgoing trains leaving Boston at 5 o'clock and 6:30 o'clock P. M. The fare was fixed at five cents for the whole distance, or any part of it, tickets being sold in sheets of twenty, and no money being taken on the cars. The following statement from the Railroad Commissioners report 1875, page 26, gives the statistics of the road for 1873 and 1874.

1873.	Passengers.	Receipts.
Regular trains	381,461	$52,182 79
Working men's trains	187,016	9,350 80
Total	568,477	$61,533 59
1874.	Passengers.	Receipts.
Regular trains	468,920	$60,610 60
Working men's trains	266,560	13,328 00
Total	735,480	$73,938 60

It appears that the gain resulting from working men's trains for 1874 was eighty seven per cent., and the total gain to the road for 1874, compared with 1873, was 140 per cent. The Commissioners remark:

"If the rate of progress which has hitherto been maintained is continued the indications are that in another year the Eastern Railroad working men's trains will be found to be among the most remunerative per mile which leave the City of Boston."

The objections which railroad companies make to cheap trains are twofold: First, that they will diminish the travel on regular trains; second, that they cannot be remunerative, owing to the wear and tear. In reply to the first objection, the Commissioners state that "the statistics of the several stations served by the cheap trains very clearly showed that those trains had not diminished the receipts by the regular trains, nor drawn passengers from them, but that they had apparently called a new class of travel into existence which, if it had any effect at all on other and regular travel, seemed rather to stimulate and develop it." They add the significant remark: "The introduction of the system of cheap trains has largely extended on the Eastern Road the area in which labor can seek employment. The working man can now daily carry his labor to any point where he can find a market for it, from Lynn to Boston. As a consequence of this the population moves much more. Men and women go in one class of trains and return in another, and they go and return far more frequently than formerly, and for reasons of less importance. The habit of traveling is acquired, and once acquired it will not limit itself to any particular mode of travel." The second objection, viz., that the "wear and tear" of such trains would sink all profits has been proved to be equally groundless. The cost of running a train from Boston to Lynn is $14 14, or $1,088 per mile. The cheap trains not only paid their expenses, but earned a net profit at the rate of $7 15 per trip, or fifty five cents per mile run. Another important fact appears in this report bearing upon this subject; the average net earnings of passenger trains on the same road during the year were 48.4 cents per train mile, showing that the cheap five cent train was fourteen per cent. more profitable than the average passenger train.

We submit these facts to your consideration in the belief that they prove conclusively that cheap trains may be run in the interest of the railroad companies as well as of the laboring man. And such is the opinion of one of the best authorities in all that pertains to railroad economy in this country. Hon. Charles Francis Adams, Jr., writes to one of the committee, under date of May 19, as follows:

"That such trains in and out of New York City would pay, I do not doubt; that they will soon be in use I am confident. Similar trains are to be placed on the Old Colony Road, in and out of Boston, during the coming month of June."

It gives us pleasure to notice, in conclusion, the interesting fact that railroad corporations have thus far adopted cheap trains at the solicitation of citizens engaged in the effort to improve the homes of the poor of cities, and have not waited for legal compulsion. The Earl of Derby states that the "London, Chatham and Dover Line voluntarily adopted the principle on his motion, by agreeing to run trains morning and evening, a distance of ten miles, for one shilling a week." Three companies at the instance of Lord Edburg and others, "consented to convey not less than 1,000 passengers a day from any place within ten miles of London and back for two pence a day." And we have already stated that the Eastern Railroad of Boston adopted cheap trains at the request of citizens. In laying before you these facts as the basis of an appeal in behalf of the laboring men of New York for cheap trains to homes along the lines of your roads, we are discharging a most important duty, and in the same spirit which actuated the citizens of London and Boston. Upward of half a million people in this City live in houses not their own. Though they pay exorbitant rents these homes are necessarily the abodes of disease, vice and crime. And yet, within half an hour's ride of the depots, are vast tracks of unoccupied lands, capable of accommodating in healthy, individual homes, five times the number of families which now crowd to suffocation the tenement houses. We trust you will act with the same enlightened liberality which has characterized the other railroad companies above mentioned, and inaugurate a system of cheap morning and evening trains for working people, running a distance of not less than twenty miles from the depots.

(Signed.) PARKE GODWIN,
D. B. EATON,
C. F. CHANDLER,
STEPHEN SMITH,

Production of Pig Iron in the United States in 1874.

The American Iron and Steel Association has received from the producers and from its correspondents full statistics of the production of pig iron in the United States in 1874. The total production was 2,689,413 net tons, against 2,868,278 net tons in 1873, and 3,854,558 net tons in 1872, showing a decrease of 178,865 tons as compared with 1873, and 165,145 tons as compared with 1872. Notwithstanding this decrease, the production in 1874 was much larger than has been generally anticipated—much larger even than partial returns made to the association at the close of 1874 indicated. This unexpected result is, however, susceptible of a satisfactory explanation. As preliminary to this explanation we give the following statistical *resume*:

	No. of furnaces Jan. 1.	Total built during the yr.	No. of furnaces Dec. 31.	Out of blast Dec. 31.	In blast Dec. 31.	Production of pig iron net tons.
1872	574*	41	615	115‡	500	2,854,558
1873	615	50	665	252	413	2,868,278
1874	665†	38	701	336	365	2,689,413

*Including 3 spiegeleisen in New Jersey.
†Two furnaces were abandoned in 1874.
‡Estimated.

In 1872 there was every inducement for furnace owners to make all the iron that was possible, for prices were high and the demand was constant, hence the hitherto unexampled yield of that year, 2,854,558 tons. In 1873 a number of large new furnaces, built in that year and in 1872, went into blast, and during the first half of the year greatly augmented the production of iron over that of the corresponding period of 1872. Had the prices of 1872 been maintained during 1873, and the demand for iron experienced no abatement, there can be no doubt that the production of 1873 would have reached 3,500,000 tons. But at the beginning of summer it became evident that production was outrunning consumption, and on the 19th of June it will be remembered that a convention of pig iron makers assembled at Cleveland and adopted a resolution recommending a restriction of production. This recommendation was so far followed or anticipated as to cause the blowing out during the summer of a number of furnaces. Others were blown out for repairs, at various periods during the year, and were not again put in blast. In September the panic came, and it was

at once made evident, by the resultant shrinkage in prices and decrease in consumption, that production would have to be still further reduced, and accordingly a number of additional furnaces were blown out, so that, by the close of the year, of 665 furnaces then completed, 252 were out of blast and 413 were in blast. The production of the year was 2,868,278 tons, or 13,720 tons in excess of that of 1872. The year 1874 opened with 413 furnaces in blast, but with a strong hope generally prevailing that the effects of the panic would soon disappear, when a revival of the demand for iron would follow. Of the 413 furnaces then continuing to make iron, it must not be forgotten that nearly every one of the large new and improved furnaces built in 1872 and 1873 was included. Stated otherwise, most of the furnaces then out of blast were furnaces of small capacity. The hopes of a revival of business that were entertained at the beginning of the year were soon found to be delusive, and then began the agitation of the policy of still further restricting production by means of a definite system which should aim at an equitable division of the trade. This agitation proved fruitless, but while it was pending very few furnaces were blown out, while fully as many others, some of which were new, were blown in. It was not until near the close of the year that a general determination to blow out furnaces was reached, and when the year closed, of 701 furnaces then completed, 336 were out of blast and 365 were in blast. The production of the year was 2,689,413 tons, or 178,865 tons less than the product of 1873.

When we consider that the furnaces which made 2,854,558 tons of iron in 1872 were mostly small, and, owing to the excitement and recklessness of those days, not so managed as to produce the best results; when we consider that the lessened number of furnaces which made 2,868,278 tons in 1873 included all the large and improved new furnaces; and when we consider that there were almost as many furnaces in blast in 1874 as in 1873, that as a rule the best furnaces in the country were running in 1874, while the poorest stood idle, and that, from motives of enforced economy and by reason of increased skill the management of most of the furnaces in blast in that year was such as to produce the largest possible yield, we need no longer wonder that the production of 1874 was 2,689,413 tons, or only 178,865 tons less than the product of 1873. The result is startling, but it is a revelation that is to be followed by one equally startling.

The quantity of pig iron of all kinds which was on hand and unsold at the close of 1874 in the hands of makers or their agents was 795,784 net tons. The quantity which was held by speculative parties, or was in the hands of creditors, or in the hands of consumers, was undoubtedly large; so that, at the close of 1874, the total quantity of pig iron in the country, exclusive of the small stocks of foreign iron, may be safely estimated at 1,000,000 tons. If the country were prosperous; if the demand for iron were equal to the average demand the past ten years; and if old rails could not be used as a substitute for pig iron, this quantity of pig iron would not have been too large to have in stock at the beginning of this year. But as these favorable conditions did not exist, it is plain that we commenced the year 1874 with far too much pig iron for the good of the trade. Prices could not be expected to improve under such circumstances, and we now see why they have not improved. Although more furnaces have blown out since the 1st of January than have been blown in, the quantity of iron that has been made since then, joined to the 1,000,000 tons then on hand, has been entirely too large to exercise any other than a depressing effect on the market.

We now see how much more valuable to the iron trade the statistics gathered by this association might be made. Five months have passed since we asked every furnace proprietor in the country for the statistics of his production in 1874, and the quantity of iron unsold at the close of the year. We should have had prompt returns, which would have enabled us to make in January a statement that would have given a clear insight into the condition of the iron trade at that time. But we have had to wait five months for this information, and the country has had to wait for it. Valuable as it is to day, it would have been tenfold as valuable five months ago, for then pig iron makers would have been able to forecast the future with a clearer vision than was otherwise possible.

On the 1st of February, 1874, of 701 completed furnace stacks in the country, there were in blast 308 stacks and out of blast 398 stacks. Sixty two furnaces were blown out in January. These figures indicate the lowest degree of depression reached since the panic up to that date. Since February 1st the number of furnaces out of blast has been slightly increased.

The number of new furnaces completed in 1874 was 38, against 50 in 1873 and 41 in 1872. The astonishing number of 46 stacks is reported to us as being in course of erection in 1875, while other new furnaces are projected.

The following states made more iron in 1874 than in 1873: Maine, Vermont, Massachusetts, New York, Virginia, Georgia, Alabama, Texas, West Virginia, Tennessee, Ohio, and Michigan. The following states made less iron in 1874 than in 1873: Connecticut, New Jersey, Pennsylvania, Maryland, North Carolina, Kentucky, Indiana, Illinois, Wisconsin and Missouri. The district showing the greatest increase during 1874 was the Miscellaneous bituminous coal and coke district in Ohio. The district showing the greatest decrease during 1874 was the Lehigh anthracite district in Pennsylvania.

Utah Territory made her first pig iron in 1874—200 tons of charcoal. After a long rest, Oregon, with one furnace made 2500 tons of charcoal iron in 1874. Texas made 1012 tons of charcoal iron in 1874. South Carolina, with eight furnaces, and Minnesota, with one furnace, made no iron in that year.

The production of charcoal pig iron in 1874 was within 1903 net tons as large as that of 1873, being 572,817 net tons in 1874 against 574,720 tons in 1873.

The total imports of pig iron into the United States in 1874 were 61,165 net tons, against 154,708 net tons in 1873, 295,967 net tons in 1872, and 245,535 net tons in 1871.

The total exports of pig iron from the United States to all countries in 1874 were 16,039 net tons against 10,104 net tons in 1873, and 1477 net tons in 1872.—*Bulletin of the Am. Iron and Steel Ass.*

Eastern (Mass.) Railroad.

The prospect of summer travel this season over the Eastern Railroad promises to be better than at any previous year, people having already started much earlier than usual. It is expected that the railroad through the White Mountain Notch will be completed by the first of August, thus establishing a direct route from Boston to Montreal via the Eastern Railroad.

A great institution of the Eastern road is the workingmen's trains, commonly called the "cheap trains." One leaves Lynn at 5.25 A. M., passes over the Saugus Branch, and arrives at Boston about 6.30 o'clock. Returning it leaves Boston at 6.35 P. M., and arrives at Lynn about 7.45. Twenty tickets are sold for a dollar, and each is good over the whole route or between any two stations. These cheap trains have enabled many laborers to save a large amount, and have increased the population of the towns on the branch by influencing many families to move there from the city. The trains are considered a blessing by many laborers and have proved a success to the railroad. These trains are also quite popular with ladies, who often form the majority of patrons.

The Hall electric signals governing the running of trains between Boston and Salem are working at present in a satisfactory manner, and the management of the road have the fullest confidence in their success.—*Boston Journal.*

Negotiability of Railroad Bonds.

In the United States Supreme Court, on the 9th inst., in the case of Charles B. Hotchkiss, appellant, vs. The National Shoe and Leather Bank of New York city and the Tradesmen's National Bank—appeal from the Circuit Court for the Southern District of New York—Mr. Justice Field delivered the opinion of the Court in substance, as follows:

In May, 1868 the Milwaukee and St. Paul Railway Company issued coupons bonds by each of which the company acknowledged its indebtedness to certain persons named, or bearer, in the sum of $1,000, and promised to pay the amount to the bearer on the 1st day of January, 1898, at the office of the company, in the city of New York, with semi annual interest at the rate of seven per cent per annum, on the presentation and surrender of the coupons annexed as they severally became due.

Immediately following this acknowledgement of indebtedness and promise of payment there was in each of the instruments a further agreement of the company to make what was termed "the scrip preferred stock" attached to the bond, full paid stock at any time within ten days after any dividend should have been declared and become payable on such preferred stock, upon surrender, in the city of New York, of the bond and the unmatured interest warrants.

To each of the bonds there was originally attached by a pin the certificate of scrip preferred stock thus referred to, which stated that the company designated it as "scrip preferred stock," and that upon the surrender of the certificate and accompanying bond, and all unmatured coupons thereon, as provided in the agreement, he should be entitled to receive ten shares of full paid preferred stock.

Three of these bonds with certificates attached, were stolen from the plaintiff and were taken by the defendants as collateral security for notes discounted by them without actual notice of any defect in the title of the holder; but the certificates were at the time detached from the bonds.

Held, first, that the bonds were negotiable instruments, notwithstanding the agreement respecting the scrip preferred stock contained in them, that agreement being independent of the pecuniary obligations of the company, and second, that the absence of the certificates originally attached to the bonds, when the latter were taken by the defendants, was not of itself a circumstance sufficient to put the defendants upon inquiry as to the title of the holders. The title of a person who takes negotiable papers before due for a valuable consideration can only be defeated by showing bad faith in him, which implies guilty knowledge or wilful ignorance of the facts impairing the title of the party from whom he received it, and the burden of proof lies on the assailant of the taker's title. Affirmed.

Middletown, Unionville and Water Gap Railroad.

The Board of Directors of this company met at Middletown on Wednesday last, when the following gentlemen were elected as officers of the new Board: Grinnell Burt, President; Asa Smith, Vice President; J. N. Pronk, Secretary; W. H. Clark, Treasurer. With an executive officer, of Mr. Burt's conceded ability as a railroad manager, the stockholders and others interested in the road need no assurance from us that the material interest of the company will be carefully looked after and developed, and they may safely expect a decided appreciation in the value of the securities of the road.—*Warwick Adv.*, June 10.

☞ The Put-in-Bay, Ottowa City and Danbury Railroad company, from Danbury station, on the Lake Shore and Michigan Southern railway, to Ottowa City, with branch to Marblehead—all in Ottowa county, Ohio—has been incorporated by Thomas Flesher, jr., and others. Capital stock, $50,000.

American Railroad Journal.

Saturday, June 19, 1875.

Financial and Commercial Affairs.

No disturbance of the protracted ease in Money has yet been noted, nor is any serious change adverse to borrowers in good standing anticipated during the summer months. Capital is accumulating at this centre, and lenders are very liberal of accommodation to the leading Street houses on the basis of 2@3 per cent on call. Strictly choice to prime mercantile paper meets with a prompt market within the range of 3½@6 per cent per annum. London advices speak of further trouble in business circles there, with two or three failures of some moment, but without reporting much alteration in the loan and discount market. The Stock Exchange dealings here have been on a less extensive scale, and have called for less financial aid. The City Banks have had to contract their loan and discount averages over 3½ millions, while reporting an increase of nearly 2½ millions in their reserve of legal tenders, and a slight gain also in their specie average. The U. S. Sub Treasury also enlarged its currency balance, while reported on unusually heavy decline in the specie hoard. The City banks last week augmented their reserve of legal tender notes $2,190,200, while reducing their deposit item $255,400, and enlarging their specie average $153,000. They report a decrease of $3,563,400 in the loans and discounts, and a falling off of $124,200 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $47,671,708, against $47,440,042, the preceding week; and a coin board of $45,804,200 against $50,991,672, on the previous return. The City bank exchanges in currency during the week, were $361,122,910, or a daily average of $60,187,150. The customs revenue of the port, during the week, was $1,538,000. The City banks reported their average of gold last week at $10,808,200, and their greenback average at $66,822,500. Their deposits stood at $233,168,700. The loan item was $277,837,800. The circulation was $19,666,600.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $19,666,600.

The aggregate of the outstanding U. S. currency, of all denominations, June 1, was $421,257,541. The outstanding amount of legal tender notes is $377,064,000. The National bank circulation is now $349,257,859, including $2,499,000 of national gold bank notes.

The U. S. Treasury balances on Wednesday were as follows: Currency, $4,216,670; special deposit of legal tenders for redemption of certificates of deposit, $61,260,000; coin, (including $19 586,400 in coin certificates,) $80,807,771.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $5,904,607.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been 106 millions, pointing to a weekly average which would make the aggregate for the whole of the current fiscal year now drawing to a close, 111 millions.

The specie exports from San Francisco, Jan. to June 3, were $19,530,916, against $11,105,007 same time last year.

Gold has been more than usually variable within the previous range, under speculative manipulations, chiefly in the interest of operators for a rise. No substantial advance, however, has been made in the price. The customs call has been moderate. The export drain, however, has been again quite heavy. The extremes of the week have been 116⅜@117⅛, closing on Wednesday at 117 as against 116⅜ on Wednesday of the preceding week. The specie outflow last week was $4,674,036. The imports of specie at this port since Jan. 1, have been $6 467,882, against $2,884,826 same time last year. The customs demand for Gold last week averaged $256,333 a day. Foreign Exchange has been moderately active, with Bankers' sixty day bills on London quoted firm on Wednesday at $4 87¼@$4 87½; sight bills on London at $4 90@$4 90½ to £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,672,819. The week's imports of Dry Goods and general merchandise were to the specie value of $6,286,815.

It is expected at Washington that the London Syndicate early in July, will make another call

on the Treasury Department for an additional number of the new United States bonds.

Government Securities have been in generally very good request on investment account, and have been strong and buoyant as to price. State and Railway bonds have been less active, with values quoted irregular. And in the line of Railway and Miscellaneous share property, a restricted movement has been reported, on a depressed and variable market, though toward the close rather more firmness was apparent.

U. S sixes of 1881 closed on Wednesday of this week at 126@126¼; U. S. Five-Twenties of 1862, at 118¼@118⅛; U. S. Five-Twenties of 1864 at 118⅞@119; U. S. Five-Twenties of 1865 122⅛@122¾; U. S. Five-Twenties of 1865 consolidated, 124@124⅛; U. S. Five-Twenties of 1867, 125⅛@125¼; U. S. Five-Twenties of 1868, 124⅛@124¾; U. S. Ten-forties at 119@119¼; U. S. Fives of 1881, (Funding Loan) 118@118⅛; Six per cent. currency Sixes from 122½@122¾.

Much more activity has been noted in the leading kinds of Domestic produce, with Wheat, Corn, and Flour quoted higher, while Cotton, Oats, Pork, and Lard have been depressed and lower. Petroleum has been quiet and weak in price. Naval Stores, Oils, Hides, Leather, and Wool, tending downward. Dry Goods, Hardware, and Boots and Shoes, slow of sale, in the wholesale line. Metals have been in quite moderate request. Ingot Copper quoted firmer. Iron generally easier and unsettled in price. Lead, and Tin declining. Eglinton Pig Iron quoted at $26@$29; Glengarnock, $30@$32; Coltness, $29@$31; No. 1 American Pig at $25@$28; No. 2 do. at $23@$26; Forge, $21@$25; English Rails at $48@$50, gold; American Rails at works, $48@$50; Old Rails, $26@$27. Wrought Scrap, $31@$33. Ocean freights have been quite active, but at the close lower, especially for Grain room on the berth.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ The St. Johnsbury, Vt., Caledonian says that 48 full car loads of scales were shipped from the Fairbanks factory in the month of May. The production of scales for the first five months of the present year was over 2500 more than for the corresponding time in 1874.

Finances of Louisiana.

Governor Kellogg, of Louisiana, in a letter to the Chicago Times, says that "the bonded and floating debt of the State in January, 1874, was $24,832,407 90. It has been decreased by the redemption of seventy two past due bonds $72,000; by the retirement of outstanding warrants, certificates of indebtedness and payment of the amount due to the fiscal agent, $1,022,860 12; by the exchange of $3,259,380 of consolidated bonds for $5,432,300 of old bonds, $2,172,920; by the exchange of $427,421 86 of consolidated bonds for $712,368 83 of old warrants and certificates of indebtedness, $284,947 53. Total reduction, $3,552,727 65, leaving the actual debt of the State to-day, $21,279,680 25, and it will continue to be reduced until it reaches the limit of $15,000,000. The annual interest charge is $1,050,000, and this is limited by the constitution. The funding bill adopted in 1874 is in successful operation, and is generally accepted at home and abroad. We have funded already over $6,000,000 of obligations, and have more than $500,000 in the treasury to the credit of the interest fund."

☞ At the annual election of the Chicago, Milwaukee and St. Paul Railway Company, held at Milwaukee on the 12th inst., the following gentlemen were elected directors: Alexander Mitchell, John Plankinton and Joseph G. Thorpe, of Madison; Jonathan M. Bowman, of Kilbourn City; Peter Geddes, of Chicago; Seth Chamberlain, of Cleveland; David Dows, James Buell, Walter S. Gurnee, Elias L. Frank, Julius Wadsworth and John M. Burke, of New York, and F. A. Mueller, of Amsterdam. At a subsequent meeting of the directors the following officers were elected; President, Alex. Mitchell; Vice President, Julius Wadsworth; General Manager, S. S. Merrill.

☞ The firm of Rollins Brothers & Co., 23 Wall st., New York, is composed of G. M. Rollins, for a number of years with Henry Clews & Co., Chas. E. Pease, formerly secretary of the United States Life Insurance Co., and other members representing connections previously with Koontze Bros. and the National Trust Company. Special attention is given to deposit accounts and investment securities.

☞ On May 27, Mr. Kiernan's Wall Street Financial News Bureau reported the gain of bullion for the week by the Bank of England at £955,000, while other authorities reported it at only £175,000. The London papers at hand report the exact gain at £954,529, which shows plainly who was right. Mr. Kiernan's Bureau has always had a high reputation for entire reliability, and this is but a new confirmation of the fact.

☞ Engineers are locating an experimental line to connect the two links of the Virginia Midland Railroad with the view of avoiding shipments over the Chesapeake and Ohio Railroad. One line starts from Orange Court House, the other from Rapid Ann station, and both terminate at Charlottesville. The Alexandria Gazette states that the Philadelphia and Reading Railroad Co., which has acquired by purchase mineral lands on the new road, is to assist in its construction.

☞ The Short Line Railroad, from Hanover to York, Pa., has been completed. A direct route is thus secured by the Pennsylvania Railroad Company from Frederick to Philadelphia and New York.

Large Orders for Steel Rails.

The Chicago and Joliet rolling mills are said to have orders for new steel rails sufficient to keep their steel departments running for a year to come, aggregating 75,000 tons. These orders are from the Chicago, Rock Island and Pacific, Chicago and Alton, Illinois Central, Michigan Central and the Union and Central Pacific Railroads, and all are to replace old rails. These orders have been nearly all taken by the two mills in Chicago and the one at Joliet at 40 per cent. less than the ruling rate in 1873 and 25 per cent. less than the current rate for foreign rails. There is also said to be more demand for iron rails to build new lines. Mr. Hinckley is building the Chicago, Clinton and Western from Clinton, Iowa, to Iowa City, and also the road from Rochelle to Rockford. Gov. Merrill, of Iowa, is in the city, arranging to purchase rails for the line from Albia to Knoxville, almost thirty miles of which is being built in the interest of the Chicago, Burlington and Quincy R. R. Co. Capitalists are also building immense iron mills and furnaces on the Calumet river, in South Chicago.—*Chicago Tribune.*

☞ The stockholders of the Baltimore and Ohio Railroad company have ratified the contract for the purchase of the interest of the City of Baltimore in the Pittsburg and Connellsville Railroad for $1,000,000. The city's interest in the road was $2,887,000. The resolution adopted by the stockholders, and the ordinance of the city councils authorizing its sale is given on another page.

☞ The Directory of the Flushing and North Side Railroad contemplate the extension of their Farmingdale and Bethpage Branch north to tide water during the season, and it is probable that Huntington will be made the terminal point. Upon the establishment of a ferry across the Sound this will constitute a route across Long Island from Boston and other New England cities to Babylon and Fire Island.

☞ The Union (Baltimore) Railroad Company have concluded a contract with Hough & Smith for the graduation of ground for a half mile of double track railway at Canton. The work comprises about 8,000 cubic yards, for which 20 cents per cubic yard is to be paid. This new track will pass through several brick yards, and is intended to connect with the proposed new Northern Central railway grain elevator.

☞ The sale of the Oil Creek and Allegheny River Railway by James A. Freeman & Co., auctioners, which was to have taken place on Saturday, has again been postponed.

☞ The Baltimore *Sun* says that Mr. C. P. Huntington has temporarily retired from the presidency of the Chesapeake and Ohio Railroad Company, and Mr. Hatch, of Fisk & Hatch, has bees elected presipent pro tem.

☞ At a meeting of the stockholders of the Anacostia and Potomac Railroad Company in Washington on the 10th inst., a committee was appointed to solicit additional subscriptions of stock. Some $2,800 has been paid in as five per cent. installment on the stock already subscribed.

☞ The Governor of Georgia has appointed a board of three directors for the Macon and Brunswick Railroad. This road was bid in by the State at the sale at Macon on the 1st inst. for $1,000,000.

☞ The earnings of the Union Pacific Railroad for April, 1875, were $1,095,814 34; for April, 1874, $834,954 52—increase $260,859 82.

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

INTEREST ALLOWED ON DEPOSITS.

OFFICE OF THE ERIE RAILWAY COMPANY, NEW YORK, June, 11, 1875.

THE ANNUAL MEETING OF THE STOCKHOLDERS of the Erie Railway Company, for the election of Directors, and for the transaction of such other business as may come before the meeting, will be held at the office of the company, No. 187 West St., on TUESDAY, the 13th day of July next. The polls will be open at 10 o'clock A. M., and remain open until 2 o'clock P. M. of that day.

The transfer books of both common and preferred stock will be closed after business hours on Saturday, the 12th inst., and remain closed until Wednesday, the 14th of July next.

The transfer office will be reopened on Wednesday, July 14, 1875, and thereafter be continued at the general offices of the company, No. 212 Duane St., New York.

By order of the board: A. R. MACDONOUGH, Secretary.

TREASURY OF THE ERIE RAILWAY COMPANY, NEW YORK, June 11, 1875.

INTEREST COUPONS OF THE BUFFALO, NEW York and Erie Railroad Company, due June 1 inst., will be paid on surrender of same to the undersigned.

Holders others than those to whom payments were made December, 1874, will be required to exhibit their bonds with current coupons attached for verification.

RECEIVER ERIE RAILWAY COMPANY.
W. P. SHEARMAN, Cashier.

LONG DOCK COUPONS, DUE JUNE 1ST, INstant, will be paid on presentation of same at the Treasurer's office, 187 West St.

W. P. SHEARMAN, Treasurer Long Dock Co.
NEW YORK, June 11, 1875.

☞ The Farmers' Loan and Trust Company, as trustees of certain mortgages by the Erie Railway Company, has filed in the County Clerk's office an answer setting forth its interest as such trustee in the suit brought by the Attorney General against the Erie Railway Company. On such answer being filed Judge Donohue issued an order extending the receivership to such trust mortgages.

☞ In the United States Supreme Court on the 9th inst. the decision of the State Courts of Pennsylvania was sustained in taxing the gross receipts of the Erie Railway Company in that State. The amount was $76,788 20. The text of the decision is given in full on another page.

☞ The Baltimore and Potomac Railroad Company have issued orders for the laying of a double track the entire distance between Washington city and Baltimore. The work of grading, it is understood, will commence immediately.

Total exports,....	$318,293,109	$301,988,856

The Coal Trade.

The total anthracite production for the week ending the 5th inst., as stated by the Philadelphia *Ledger* was 329,460 tons, and for the year 5,328,109 tons, against 7,450,472 tons to corresponding date last year, a decrease of 2,127,328 tons. The bituminous tonnage for the week was 83,684 tons, and for the year 1,224,940 tons, making a total of all kinds for the week of 413,144 and for the year of 6,548,049 tons, against 8,618,362 tons to same time last year, a decrease of 2,070,313 tons. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 125,586 tons, and for the year 1,389,293 tons, of which 1,166,477 was coal and 232,826 coke. This embraces all the coal carried both east and west. At Port Richmond for the week ending the 12th inst., there were receipts of 16,000 tons of coal, shipments of 18,500 tons, leaving but 8,500 tons on hand. The *Ledger* adds:

There is still no general resumption of labor at the coal mines in the Schuylkill and Lehigh coal regions. At some few of the mines in the former region mining has commenced with small forces, which do not much increase the weekly production. The prospect as to the immediate future of the trade is not materially altered from what it was at this time last week or this time last month, except in the fact that necessity in the means of living is compelling some of those at the mines who have resolutely held out so long to accept the situation and return to work rather than subject their families to further privations. The number of such are likely to increase until resumption shall become so general that all will turn in. It is also clearly apparent that the operators are determined not to yield a particle. So far there is little demand for coal for manufacturing purposes and scarcely any as yet for domestic uses, consequently the supply of coal about equals the demand. When the market for the uses named shall quicken there is every reason to believe that the supply will equal it and prices be confined within the present reasonable charges.

☞ The Lake Erie and Ohio River Railroad Company, with a capital stock of $250,000, has been incorporated. The proposed line is from Painesville, Ohio, to Steubenville, through Lake, Geauga, Trumbull, Mahoning, Columbiana, Carroll and Jefferson counties.

☞ It is rumored that the Atlantic and Lake Erie Railroad will complete the grade of the northern end of their road and get the ties ready for the rails this fall.

☞ All the rolling mills of Youngstown, Ohio, are now in operation for the first time in two years.

WELLAND CANAL ENLARGEMENT.

Notice to Contractors.

SEALED TENDERS, ADDRESSED TO THE UNdersigned, and indorsed "Tender for Welland Canal," will be received at this office until the arrival of the Eastern and Western mails on THURSDAY, *the 24th day of June next*, for the construction of a Tunnel, a number of Docks, Regulating Weirs, Bridge Abutments and Piers, Excavation, Dredging, &c., connected with several miles of the enlargement; also the extension and deepening of Port Dalhousie and Port Colborne harbors.

The works will be let in sections, some of which are situated on the new line between Port Dalhousie and Thorold, and others, about one mile in length each, consist principally of deepening and widening the present canal at places between Thorold and Port Colborne.

Maps of the several localities together with plans and specifications of the works, can be seen at this office on and after FRIDAY *the 11th day of June*, where printed forms of tender can be obtained. A like class of information relative to the works north of Allanburg will be furnished at the resident engineer's office, *Thorold*, and for works south of Port Robinson, plans, &c., may be seen at the resident engineer's office, *Welland*.

Contractors are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms, and, in the case of firms, except there are attached the actual signatures, the nature of the occupation and place of residence of each member of the same; and further, an accepted bank check or other available security for the sum of from $1,000 to $3,000, according to the extent of work on the section, must accompany each tender, which sum shall be forfeited if the party tendering declines entering into contract for the works at the rates stated in the offer submitted.

The amount required in each case will be stated on the form of tender.

The check or money thus sent in will be returned to the respective contractors whose tenders are not accepted.

For the due fulfilment of the contract satisfactory security will be required on real estate or by deposit of money, public or municipal securities or bank stocks to an amount of five per cent on the bulk sum of the contract, of which the sum sent in with the tender will be considered a part.

Ninety per cent only of the progress estimates will be paid until the completion of the work.

To each tender must be attached the actual signatures of two responsible and solvent persons, residents of the Dominion, willing to become sureties for the carrying out of these conditions, as well as the due performance of the works embraced in the contract.

This department does not, however, bind itself to accept the lowest or any tender. By order.

F. BRAUN, Secretary.

☞ Holders of $1,891,000 of Montclair Railway bonds have adopted a plan of reorganization by which the road is to be sold under foreclosure and purchased for the first mortgage bondholders, who are to receive $1,800,000 of new first mortgage bonds, the holders of the second mortgage receiving common stock.

Baltimore and Ohio Railroad.

At a general meeting of the stockholders of this company held in Baltimore on the 14th inst., Mr. Archibald Stirling, Sr. was called to the chair, and Mr. Wm. H. Ijams appointed secretary. The following resolution, offered by Mr. J. Carroll Walsh, a director on the part of the State of Maryland, seconded by Mr. R. T. Banks, a director on the part of the city, was adopted by a vote of 125,747 shares—no vote being cast against it:

Resolved, That the stockholders of the Baltimore and Ohio Railroad Company do hereby assent to the agreement and mortgage required to be executed on the part of the Baltimore and Ohio Railroad Company by the ordinance authorizing the sale to the said company of the interest of the said mayor and city council of Baltimore in and of its claims against the Pittsburg and Connellsville Railroad Company, or against the property thereof, and do hereby direct the president of the said company, or its president pro tempore, to execute and deliver the said agreement and mortgage.

The ordinance of the mayor and city council, approved April 16, 1875, enacts that when the Baltimore and Ohio Railroad Company shall stipulate and agree to pay the mayor and city council of Baltimore, on or before the first day of July, in the year nineteen hundred, one million of dollars in manner following: forty thousand dollars on the first day of July each year after the year eighteen hundred and seventy five, until the first day of July, eighteen hundred and ninety nine, inclusive of said year; and then, upon the first day of July, nineteen hundred, so much of said one million dollars as may then remain unpaid, and in the mean time to pay interest on so much of the one million dollars as may remain unpaid semi annually, on the first days of July and January in each year during that period of time, and to make payment of the first semi annual installment of interest on the first day of July, eighteen hundred and seventy five, and shall execute a mortgage of all its real and personal estate, tolls and revenues, to secure the payment of the principal sum so agreed to be paid, and of the interest thereon, and the payment of said annual sums to be paid at the times when the principal sum, and the interest thereon, and the annual sums are respectively due and payable, and when meetings of the stockholders of the Baltimore and Ohio Railroad Company and of the Pittsburg and Connellsville Railroad Company shall have assented to such agreement and mortgage, then the mayor shall be authorized and directed to execute, acknowledge and deliver, in the name and behalf of the mayor and city council of Baltimore, to the Baltimore and Ohio Railroad Company a conveyance and assignment of all the estate, interest and claims of the mayor and city council, as bondholder, creditor or otherwise, in, to or against the Pittsburg and Connellsville Railroad Company and in, to or against the property of said railroad company, and shall assign and deliver up to the Baltimore and Ohio Railroad Company all the evidences of debt, interest in or claims against the Pittsburg and Connellsville Railroad Company by the mayor and city council of Baltimore, owned or held. That the sums of money when paid shall be invested in the public debt of the city; and that the right is reserved to the Baltimore and Ohio Railroad Company to pay and discharge said mortgage debt of one million dollars, or so much thereof as may remain unpaid, at any time before the maturity thereof, upon its giving sixty days' notice in writing of its intention to do so.

☞ The Reading (Penn.) Times says that between 13 000 and 15,000 tons of first class anthracite pig iron are now held in store at that place, of an aggregate value of about $400,000. The iron has been obtained from the furnaces throughout the Schuylkill and Lehigh Valley, and considerable of it is held as collateral for money advanced by foreign capitalists. A portion of it is owned by English parties and a considerable portion by the Pennsylvania Railroad. It will be held until an advance is made in the price of iron, when it will be thrown upon the market.

☞ The first sod on the main line of the Canada Pacific Railway was turned at Red River, Manitoba, on the 7th inst. An estimated expenditure of $1,850,000 will be incurred during the fiscal year ending June, 1876, in the construction of this road.

Southern Pacific Railroad.

The Southern Pacific Railroad is now being built more rapidly than any other railroad in the United States. As fast as the tunnel work in the Tehachapi mountains is opened the force of laborers is being increased. Shafts are being sunk at intermediate points on the longest tunnels, so as to hasten the completion of the mountain division, in which 12 tunnels occur, the aggregate length of which is 1190 feet. The object is to make a continuous railroad from San Francisco, via Los Angeles, to the State line at the Colorado river and Arizona. This will be accomplished by the autumn of next year.

☞ The Western Union Telegraph Company makes the following financial statement: Surplus of income account, July 1, 1874, as per annual report, $750,551 49; net earnings for the year ending June 30, 1875, (May and June estimated,) $3,153,932 90—total $3,912,484 39. Deduct four quarterly dividends, inclusive of one to be paid from the earnings of the present quarter, $2,702,354; interest on bonds for one year, $429,456 04—total, $3,131,810 04. Surplus of income account, July 1, 1875, $780,674 35.

☞ Three corps of engineers are engaged in the survey of the Scioto Valley Railroad. Contracts are being made for ties for the whole line, and it is expected that grading will be commenced within a few days.

☞ A dispatch from London says the Merchants' Bank of Canada and other bondholders contemplate foreclosing on and reorganizing the Detroit and Milwaukee Railway Company.

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT**, (equal to any) put up in new barrels made by themselves, and well papered, and average 300 lbs. Cement to each barrel.

41 Dey Street, New York.

LAWRENCEVILLE CEMENT COMPANY.

ROSENDALE
HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York.

This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

HUDSON RIVER CEMENT WORKS,

Manufactory at Kingston, N. Y.

(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

M. Brigham, J. H. Butts, Ag't,
KINGSTON, N. Y. 95 LIBERTY ST., N. Y.

HOFFMAN ROSENDALE CEMENT,

Being the STANDARD CEMENT used at the BROOKLYN NAVY YARD.

MADE AND SOLD BY
THE LAWRENCE CEMENT CO.

M. W. WOODWARD, Sec'y,
No. 67 William St., N. Y.

DELAFIELD & BAXTER CEMENT COMPANY,

MANUFACTURERS OF HIGH FALLS ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

Pacific Railroad of Missouri.

NON-EXEMPTION OF THE PROPERTY OF THE COMPANY FROM LOCAL TAXATION.—DECISION OF THE UNITED STATES SUPREME COURT.

In the case of David Bailey, Joseph Seligman, Edwin D. Morgan *et al.* vs. The Pacific Railroad, Constantine McGuire *et al.*—appeal from the Circuit Court of the United States for the Eastern District of Missouri—Mr. Justice Davis delivered the opinion of the court as follows:

This is a suit in equity by foreign stockholders to restrain the collection of certain taxes in St. Louis county, Missouri, assessed against the Pacific Railroad Company by the County Assessors for the year 1869, on the ground that the property of the company is exempt from all taxation, except a State tax to be ascertained and paid in a particular manner. This exemption is claimed under section 12 of act of December 25, 1852, which is as follows;

"The said Pacific Railroad and the said Southwestern Branch Railroad shall be exempt from taxation respectively until the same shall be completed, opened and in operation and shall declare a dividend, when the roadbed, buildings, machinery, engines, cars and other property of such completed road, at the actual cash value thereof, shall be subject to taxation at the rate assessed by the State on other real and personal property of like value; and for the purpose of ascertaining the value of the same it shall be the duty of the president of said company, on the first day of February in each year, after such road is completed, opened and put in operation, and declares a dividend, to furnish to the Auditor of the State a statement under his oath, made before and certified by some officer authorized to administer oaths, of the actual value of the roadbed, buildings, machinery, engines, cars and other property appertaining to such completed road; and from said statement so furnished the Auditor shall charge said company with the amount appearing to be due to the State, according to the statement furnished as herein required by the president of the company. And in case said company shall fail to pay into the State Treasury, within thirty days after the first day of December in each year, the amount charged against said company as aforesaid, said company shall forfeit and pay to the State of Missouri, in addition to the sum with which said company may stand charged by the Auditor, ten per cent per month, after the expiration of said thirty days, on the amount charged to said company; which sum charged against said company, together with the ten per cent per month hereinbefore specified, may be recovered in the name of the State of Missouri by civil action in any court of competent jurisdiction; and should the president of said company fail to make out and furnish to the Auditor of the State a statement as herein required, said company shall forfeit and pay to the State $10,000 for such failure, which may be recovered in the name of the State of Missouri in any court of competent jurisdiction; provided that, if said company shall fail for the period of two years after said roads respectively shall be completed and put in operation to declare a dividend, that then said company shall no longer be exempt from the payment of said tax, nor from the forfeitures and penalties in this section imposed."

It is contended on behalf of the appellants that this section provides for the whole subject of the taxation of the road; that it exempts the road from all taxes except State taxes, and furnishes the only rule and authority by which these taxes can be ascertained and collected. It was held by this Court, in the case of the Pacific Railroad vs. Maguire (not yet reported), that this section created a contract between the State and the railroad company exempting the road from taxation until it was completed, and for two years thereafter if it did not pay a dividend before the expiration of these two years. The inquiry is whether this contract goes further and exempts the road, after it has been completed for two years, from all other than State taxation and whether the State is precluded from providing another mode of valuation for State taxes.

It is manifest that legislation, which it is claimed relieves any species of property from its due proportion of the general burthens of government, should be so clear that there can be neither reasonable doubt nor controversy about its terms. The power to tax rests upon necessity and is inherent in every sovereignty, and there can be no presumption in favor of its relinquishment. While it were better for the interest of the community that this power should, on no occasion, be surrendered, this court has always held that the legislature of a State, unrestrained by constitutional limitation, has full control over the subject and can make a contract with a corporation to exempt its property from taxation, either in perpetuity or for a limited period of time. If, however, on any fair construction of the legislation there is a reasonable doubt whether the contract is made out, this doubt must be solved in favor of the State. In other words, the language used must be of such a character as, fairly interpreted, leaves no room for controversy.

The present claim is of perpetual exemption from county and municipal taxation, quite as essential to the wants of the people as taxation for State purposes. It is conceded that this exemption is not granted in express terms; but it is argued that, taking the whole section together, it arises by necessary implication. We do not think so. Immunity from all taxation was given until the road was built and in operation two years, but after this it is declared "that the roadbed, buildings, machinery, engines, cars and other property of such completed road, at the actual cash value thereof, shall be subject to taxation at the rate assessed by the State on other real and personal property of

like value." This is a declaration that the taxation imposed upon the property of this company shall not be different from the taxation imposed upon other similar property, which conforms to the constitutional requirement, "that all property subject to taxation shall be taxed in proportion to its value."

If other property is charged with the payment of county, school and municipal taxes, why not the property of this company? In no other way can the principle of equality in taxation, so essential to good government, be secured. If the legislature intended to apply a different rule in this case it were easy to have said that the property of this company shall be subject to taxation "for State purposes." Instead of this it is declared to be "subject to taxation." This obviously means, general taxation—such taxation as other property of like value is subjected to. No words of limitation are used, and none can be implied against the interests of the State.

It is never for the interest of the State to surrender the power of taxation, and an intention to do so will not be imputed to it unless the language employed leaves no other alternative. The motive for temporary exemption is apparent enough, because until the road was able to earn something taxation might bear heavily upon it. But with the completion of the road the reason for the exemption ceased, and it is difficult to see what inducement there was for the State to grant perpetual immunity from local taxation.

In the original charter of the company, granted in 1849, there was no exemption from taxation. It is true the government of 1851 altered this so that the road was relieved of any public charge or tax for the period of five years; but this privilege expired in 1856, and the provisions of the act of 1852 on this subject were more favorable to the company. Besides receiving under this act a large body of land donated by Congress to the State to aid in the construction of railroads, it was enabled to complete its entire road and run it for two years without paying any tax whatever. By this means it secured immunity from taxation until 1868, and any further immunity in this direction, if conceded by the State, would have been a mere gratuity.

In view of all the legislation on this subject it would seem quite clear that the General Assembly of Missouri, while recognizing, in behalf of this road, the propriety of temporary exemption from taxation had no purpose to continue these exemptions indefinitely. But it is said the section covers the whole subject of taxation, and as it provides for State taxes only it excludes any other. If in the declaratory part of it the road had been subject to "State taxation," there would have been plausibility in the argument, to say the least, that the Legislature intended to waive other taxation. But the provision is that, after the temporary exemption from all taxation ceases by its own limitation, the property of the road shall be subject "to taxation" at the same rate as other property in the State. There is no restriction in this language, nor is there any rule of law by which a word can be imported to limit its meaning. It is true special provision is only made for the ascertainment and payment of a State tax, and nothing is said about the manner of ascertaining and paying other taxes. But this does not prove an intentional abandonment of all but State taxes. It proves nothing more than that the Legislature thought proper, in the particular of State taxes, to modify the general revenue law so far as this corporation is concerned, leaving the provisions of this general law operative upon local taxation.

It would be a hard rule to apply to the legislation of a State to hold that the circumstance of making in the amendment to a charter of a railroad corporation special provision for ascertaining the tax due the State (nothing being said about the manner of ascertaining other taxes), works an exemption of the property of the corporation from all taxation not levied for State purposes. Silence upon such a subject cannot be considered as a waiver of the right of the State in this regard. There must be something said which is broad enough to show clearly that the Legislature intended to relieve the corporation from a part of the burdens borne by other real and personal property. This was not done in this case, and the claim of exemption from local taxation cannot be sustained. Reversed.

Boston, Concord and Montreal Railroad.

The earnings of this road for the years ending March 31, 1874 and 1875, were as follows:

	1874.	1875.
From passengers	$236,020 44	$264,862 07
" freight	424,576 11	371,553 45
" mails	15,231 88	16,703 11
" express	9,800 00	9,000 00
" miscellaneous	2,000 13	2,075 75
	$687,128 56	$664,194 38
Expenditures viz:		
Maintenance of way	$201,254 53	$184,280 54
" motive power	129,447 38	100,450 77
Cost of working road	180,906 98	203,177 01
" management	16,275 17	15,695 51
Miscellaneous	23,097 14	20,381 92
	$550,981 20	$523,985 75
Net income	$136,147 36	$140,208 63
Bonds and cash on hand per last report		173,050 99
Interest received during the year		56,411 27
Oil on hand less than last year		93 33
For sales of consolidated mortgage bonds		132,500 00
Total		$502,264 22
Appropriated as follows:		
Paid coupons, back coupons, interest on over-due bonds, etc		$136,190 27
Paid preferred stock dividends		48,804 00
Engineer's department, wood and stock on hand more than last year		29,657 46
In hands of superintendent over last year		564 33
Extension of White Mountains (N.H.) Railroad		140,000 00
Paid sundry expenses		5,091 58
Cash and bonds on hand		141,956 58
Total, as above		$502,264 22

Compared with the previous year, the gross earnings show a decrease of $22,934 18; with a decrease in expenses of $26,995 45—making an increase in net earnings of $4,061 27. The report says:

This is not as favorable as the directors could have wished, but, when the uncertain and depressed state of business and decline in the manufacturing interests on the line of our railroad for the past year are considered, it is as favorable as could have been expected.

The road-bed has been kept in good repair by being ballasted, and is in an improved condition as compared with any previous time. We have laid 92,944 sleepers, costing $23,872 54, against 40,415, costing $11,166 99 the year before. We have laid 1,205 tons of new 56-lb. iron, and taken out 440 tons, which have been laid on the Branch and charged to that account. This extends the iron, with fish-joints, to Whitefield.

We have built new abutments at Pike's Bridge at a cost of over $6,000, and new abutments at Woodsville, for a drive way, costing $2,000, both of which, properly, should be charged to construction.

Have built 32 miles of fence, costing $8,000, which will not be necessary to do for the future. We have built a new bridge at Laconia, one wood shed at Littleton, and one at Wing Road.

In order to facilitate the business of the road, we have furnished side tracks at different points on the road, which, if in one line, would be over nineteen miles, besides what has been furnished to the Brown and Waumbek Lumber Companies, making in all about thirty-three miles of iron.

The rolling stock has been kept in good order and repair, and is in good condition for business.

We have made additions this year to the equipment, of two first class engines, costing $21,000; one monitor top passenger car, $5,000; two baggage and smoking cars, $5,600; two baggage cars, $3,000; one saloon car, $900; eleven freight cars, $6,600; one box car, $700; one gouger, $1,000, and one stationary engine, at Woodsville, $900—amounting in all to $44,700.

The road has for quite a number of years expended large amounts for additional equipment, to bring it up to the wants and requirements of the increasing business. The equipment now consists of 26 first class passenger and freight engines, with 2 more to be added; 23 first class passenger cars; 2 drawing room cars; 13 mail and baggage cars, and 595 freight cars—all in good order for business, and which we believe will be sufficient for the wants of the road for some years, so that the amounts heretofore expended each year for additional equipment will hereafter be applied to the payment of interest on bonds and dividends on stock.

The road from the Twin Mountain House to the Fabyan House was opened for business early in July, and has been run since with success, and is a valuable feeder to the main line. We have a charter to extend to the base of Mount Washington, to connect with the Mount Washington Railway, and it may be desirable to build a part of the road this year.

The road is now the longest and the most important one, so far as the business is concerned, in the State; and it would be very desirable to the interests of the State, especially the upper part, to have it continued to Colebrook, and above, if the necessary means can be had to do it with.

The two semi annual dividends on the preferred stock have been paid, and charged in the accounts.

The amount of sinking fund bonds now in the hands of the Trustees is $306,000, which, in effect, are cancelled.

The directors, in February, issued circulars to the stockholders to send in their stock for consolidation, and receipts would be given them for it. This has been done to some extent, but not sufficiently to warrant issuing the consolidated stock until more is sent in. This, it is thought, will be done soon, and we are in hopes it can be accomplished before another dividend is due. It will be very desirable to have all the other stock in before commencing to issue the consolidated.

On the tenth day of March, a lease for one year of its road and equipment was executed by the South Eastern Counties Railway of Canada to the Connecticut and Passumpsic Rivers Railroad. A supplementary contract has since been entered into between the latter railroad and this corporation, by which the benefits and responsibilities of the lease are to be shared equally by the two corporations. This contract will tend to the efficient and economical management of connecting business, and a considerable increase of business is confidently expected.

The directors were in hopes to have closed the accounts for building the Extension Branch and other improvements, but from causes beyond our control we have not been able to do so.

The work on the Extension and Branch proved to be upon harder material, with more stone ma-

sonry than was anticipated, and it has cost much more than the estimates.

The cost, to this time, of the Y, Branch from Wing Road to Fabyan House, Extension from Littleton to Groveton, and other improvements on the line of the road, has been about $1,440,000, $790,000 being charged to the Extension, of which $650,000 was charged last year, and $140,000 this.

This leaves about $650,000 to be settled and charged as fast as sales of the consolidated Mortgage bonds are made.

We have sold during the year $182,500 of the consolidated mortgage bonds, the proceeds of which have been applied towards paying for the Extension.

The equipment of the road consists of 26 locomotives, 23 passenger cars, 2 drawing room cars, 13 baggage cars, and 595 freight cars.

Miles run by passenger trains, 304,025; by freight trains, 268,321; by other trains, 51,922—total miles run, 624,271.

The total number of passengers carried during the year was 187,260—equal to 11,235,600 carried one mile. Total number of tons of freight, 88,671—equal to 5,320,320 tons carried one mile.

TRIAL BALANCE SHEET, March 31, 1875.

President.—JOHN E. LYON.

Directors.—John E. Lyon, Alexander H. Tilton, Joseph P. Pitman, Peter Butler, John L. Rix, John A. Parks, Joseph W. Lang.

Treasurer.—EDWARD D. HARLOW.

Superintendent.—JOSEPH A. DODGE.

Canton Company.

At a meeting of the newly elected directors of the Canton Company, held in this city on the 17th inst., Chas. J. Baker was re-elected president, and the former incumbents were re-elected to the other positions. Plans of operations for the ensuing year were discussed and agreed upon. It is understood that the project for the establishment of a line of Inman steamships between Canton wharves and Liverpool was so far agreed to that the matter has been left to the decision of the directors of the Inman Company at Liverpool. The proposition is to continue the line for one year, it being thought that two trips as an experiment will not show whether the line can be made a profitable one. It was stated that the Northern Central Railway Company intend to prosecute at once the construction of their terminal improvements at Canton, 80 to 100 men being now employed at that work.

Corporate Aid to Railroads in Connecticut.

DEFEAT OF THE PROPOSED CONSTITUTIONAL AMENDMENTS.

The correspondent of *The New York Times* writing from Hartford, Conn., under date June 21, says that during the past week the Legislature defeated the proposed constitutional amendment, prohibiting town or municipal aid to railroad corporations, by refusing to submit it the people. A two-thirds vote of both branches was necessary, but only a bare majority was secured in the House, and in the Senate there was a vote of 11 to 7 against the amendment. The first case of granting corporate aid to railroads in Connecticut was by the town of Bridgeport some years ago, and the constitutionality of it was tested before the Supreme Court, the point being made that the donation was in the nature of a gift to private corporations, and the court validated the subscription, which was made in aid of the Housatonic Road; and since then a large number of towns have been burdened with public debts. It appeared from a special report made by the Controller last year that the total debt of the cities and towns was $13,995,090 91, the cities carrying of this amount $6,211,053 58. Of the total of obligations the following are railroad debts:

Bonds Issued.—Town of Hartford $1,250,000, City of Hartford $500,000, Bloomfield $42,300, Canton $38,600, Rocky Hill $21,000, Simsbury $50,000, Town of New Haven $500,000, City of New Haven $200,000, Litchfield $106,000, Morris $20,600, Norfolk $40,700, North Canaan $34,000, Roxbury $27,000, Salisbury $50,000, Watertown $58,675, Winchester $112,000, City of Bridgeport $150,000, New Canaan $25,060, Middletown $747,000, Haddam $40,000, Chatham $72,000, Chester $16,700, Cromwell $28,000, Essex $48,000, Middlefield $40,000, Old Saybrook $25,200, Portland $216,000, Saybrook $32,500, Hebron $23,333 34 Total by counties: Hartford $1,901,900, New Haven $700,000, Litchfield, $448,975, Fairfield $175,000, Middlesex $1,265,400—in all, $4,491,275.

Bonds Indorsed or Guaranteed.—City of New Haven $225,000, Washington $55,200, Middletown $300,000, Portland $102,000—total, $682,000.

Other Form of Railroad Indebtedness.—City of New Haven $25,000, Old Saybrook $5,200—total, $30,200.

Aid Voted but Debt not Actually Existing.—East Windsor $60,000, Farmington $60,000, Suffield $50,000, Ellington $35,000, Vernon $60,000, Chatham $40,000, Middlefield $30,000—total, $335,000.

Making altogether the railroad debt of the towns, including the aid voted but not actually given, $5,538,475—or actual obligations amounting to $5,208,475.

Upon the strength of this report, and because of the surprising facts it disclosed, the constitutional amendment was proposed at the last session and was continued over without opposition, and it was believed would be submitted to the people this year. Most of the subscriptions made are for stock, and will be, of course, a total loss; indeed, few towns have expected to get returns beyond those naturally derived from increased facilities. There seems to have been no effort made, during the legislative discussion, to defend town action as a principle of good government; but much was said about fair play to those towns that are without railroad communication and may wish to make subscriptions, and also about the expediency of these grants in the matter of profits and loss, and on the question of policy the amendment was defeated. Some roads, aided by towns, have undoubtedly proved advantageous to the towns themselves, and many resources have been put in process of development, increasing greatly the grand lists and giving the State the advantage of a larger revenue; but at least one-half the roads built have been hurried before their time like the New Haven, Middletown and Willimantic, known as the Air-line, which has just gone into the hands of the first mortgage bondholders. Not one of the roads has paid its State taxes regularly, except the Connecticut Valley, and that is in default this year, though with good promises of redemption hereafter.

Easton and Amboy Railroad.

The formal opening of this road took place on the 22d inst. It is sixty miles in length, extending from Phillipsburg, N. J., (opposite Easton, Penn.) to Perth Amboy, and was constructed by the Lehigh Valley Railroad Company as an outlet for its heavy coal traffic heretofore passed over the lines of other companies, after it reached the Delaware river. The new line is very substantially constructed, with remarkably light grades and easy curves, considering the rolling and hilly character of the country traversed. On leaving the Delaware it has a grade of 22 feet to the mile for 11 miles, when it pierces the Musconetcong mountain by a tunnel just one mile in length. On this grade a train of 120 five-ton cars has been handled with the aid of one "assisting" engine. After passing the tunnel there is a down grade of 45 feet, in the direction of the loaded trains, then a level to Bound Brook and finally a grade of 41 feet from the latter point for 14 miles to Ford's. In addition to the great tunnel there are two embankments crossing respectively the valleys of the Pohatcong and the Musconetcong, the former being 115 feet above the level of the stream, containing 550,000 cubic feet of filling, and the latter being 120 feet above the level, and containing 350,000 cubic yards. At Perth Amboy it touches tide water, at the head of Newark Bay, with all the seaboard open for shipments east, north and south. At this point two extensive shipping piers have been constructed, on high and substantial tressel work, covered with tracks for the loaded trains, shutes for the loading of vessels, return tracks for empty cars, and extensive docks with sixteen feet of water. Crossing the straight tracks on the loading piers is a new device: a system of tracks with re-entering curves, by means of which cars can pass and repass each other with the greatest facility while loading and unloading. The two piers already constructing have a capacity for shipment of three millions of tons a year. Another pier, with a capacity of a million and a half of tons per annum, is under way, and the company has a water front of over a mile for extensions. The Easton and Amboy will begin on its coal traffic on Monday next, and will also run passenger trains between Wilkesbarre and New York, connecting with the Pennsylvania Railway line at Metuchin, beyond New Brunswick.

☞ Regular trains will commence running on the new railroad between Newark, N. J., and Long Branch on the 28th inst.

☞ The Massachusetts Supreme Court on the 21st instant, issued a final decree directing the transfer of the Boston, Hartford and Erie Railroad to the New York and New England Railroad Company. A similar decree has been passed in the cause between the same parties in Connecticut, and a petition for the same has been filed in the cause in Rhode Island.

Chicago, Burlington and Quincy Railroad.

We gave in our issues of May 2, 1874, and May 1, 1875, (pp. 546) the Report of the President and Directors for the years ending December 31, 1873 and 1874. Below will be found a comparative statement in detail of the earnings and operating expenses in those years:

Earnings:	1873.	1874.
From freight	$8,035,348 78	$8,445,909 52
" passengers	2,576,061 25	2,608,054 29
" mail, etc	598,814 68	392,650 58
" Burlington Br. toll	195,001 21	198 703 13
	$11,405,225 92	$11,645,317 52
Expenses, viz:		
Train service	$521,003 17	$495,562 25
Engine service	680,154 60	651 041 98
Station service	658,048 30	696,762 36
Water service	78,394 89	58,936 62
Repairs track	1,167,151 42	1,206,771 88
Repairs bridges	212,488 35	213,102 25
Repairs fences	14,129 94	25,536 62
Repairs buildings	92,142 85	129,414 66
Repairs docks	433 89	5,355 77
Loss and damage	102,016 62	86,510 34
Fuel consumed	654,353 76	602,241 29
General expenses	492 320 44	560,564 42
Foreign agencies	95,123 48	94,157 59
Stationery, etc	72 487 60	69,115 07
Repairs cars	623,652 61	744,102 92
Oil and waste	98,704 56	97,664 13
Repairs locomotives	516,764 02	472,443 32
Operating and maintaining Burlington Bridge	10,572 61	.....
The Aurora fire	224,231 07	.....
	$6,181,514 18	$6,219,283 41
Taxes	253,253 64	294,228 98
	$6,434,767 82	$6 513,512 39
Net earnings	$4,970,458 10	$5,131,805 13
Out of which has been paid—		
Dividend No. 27	$1,327,134 00	
Dividend No. 28	1,333,955 25	
Rent of tracks & depot	50,885 35	
Transfer office exps	9,000 00	
Interest and exchange	23,544 68	
Sinking fund	3,000 00	
		2,747,519 28
Leaving net surplus earnings for the year over dividends and every current liability		$425,393 75
To which add surplus at commencement of the year		3,520,599 00
And there stands to credit of income account		$3,945,992 75
The amount credited to sinking fund taken from earnings of previous year is		1,182,744 88
And this, added to income credits, make the amount of surplus earnings		$5,128,737 63

Compared with the year 1873, the gross earnings of 1874 show an increase of $240,091 50, with an increase in expenses of $78,744 57, making an increase in the net earnings of $161,347 03.

The length of the road operated during the year 1874 is the same as that covered by the report for 1873—680.29 miles of main line and 583 52 miles of branch roads, in all 1,263.81 miles. The second track remains the same as at the close of 1873, viz: 61.50 miles. There were constructed, in the year 1874, 19.15 miles of side track; making the whole number of miles of side track on the road at the close of that year 252.69 miles. There were put in the track during 1874, of steel rails: in Illinois 52.10 and in Iowa 29.66 miles—in all 81.76 miles; making the total number of miles laid with steel at the end of the year 1874: in Illinois, 225.02; in Iowa, 51.44 miles—a total of 286.46 miles.

There were added to the equipment of the road in 1874, 14 locomotives, 2 passenger, 28 box and freight, 17 platform and coal, 13 conductor's and way, and 2 wrecking and tool cars. The equipment of the road, at the close of the years 1873 and 1874, compares as follows:

	1873.	1874.
Engines	288	302
Passenger cars	110	112
Baggage, mail and express cars	63	59
Freight cars	4,132	4,160
Platform and coal cars	1,697	1,714
Way and conductor's cars	115	128
Refrigerator car	1	1
Office cars	0	2
Pay cars	1	1
Dump cars	40	36
Wrecking and tool cars	4	6
Pile driver	1	1
Hand cars	407	407
Rubble cars	357	357

The whole number of tons of freight moved during the year 1874, exclusive of Illinois Central, Chicago, Dubuque and Minnesota, and company freight, was 2,420,628, against 2,221,744 tons in 1873, an increase of 198,884 tons, viz:

	1873.	1874.
To Chicago	1,076,436	1,132,703
From Chicago	437,496	521,172
Between all stations except Chicago	707,812	766,753
Total, as above	2,221,744	2,420,628

The total through and local freight, eastward and westward, in the two years compares as follows:

	1873.	1874.
Through freight westward	196,314	187,941
Through freight eastward	375,878	423,251
Total through freight	572,192	611,192
Total local freight	1,649,552	1,809,436
Gross tonnage for whole line, as above	2,221,744	2,420,628
Number of tons hauled one mile for entire line	418,385,184	445,686,220
Average earnings per ton per mile	1.92 cents.	1.90 cents.

The earnings per ton per mile on through freight in 1874 were 1.24 cents, and on local freight 2 43 cents, against 1.27 and 2.45 cents respectively in 1873.

The gross tonnage on the business transported in connection with the Illinois Central Railroad, under their contract with this company, amounted, in 1874, to 329,232 tons; and the whole number of tons received and delivered to the Chicago, Dubuque and Minnesota, and Chicago, Clinton and Dubuque Railroads amounted to 8,270.

The tonnage to and from the Burlington and Missouri River Railroad and its western connections in the last two years has been as follows:

	1873.	1874.
Eastward	286,829	350,194
Westward	138,942	154,367
Total	424,771	504,561

The total number of passengers carried by the Chicago, Burlington and Quincy Railroad and leased lines, for the years ending December 31, 1873 and 1874, compare as follows:

	1873.	1874.
Passengers eastward	847,389	896,503
Passengers westward	859,345	933,950
Total, exclusive of season and mileage tickets	1,706,734	1,830,453
Mileage of line, exclusive of season and mileage tickets	83,275,830	85,356,325
Average mileage of passengers	48.79	46.63
Average amount per mile, exclusive of mileage and season tickets	3.023 cents.	3.009 cents.

The road and equipment has been maintained in excellent condition. The expenditures for construction during the past year have amounted to $853,431 11; and for equipment, to $243,379 02—a total of $1,096,810 13; $665,149 34 of which were in Illinois, and $431,660 79 in Iowa.

The principal items of these expenditures have been:

For new track and side track, including cost of steel rail over iron	$607,483
Land and right of way	105,419
New buildings	61,966
Excess of cost of new iron bridges over wooden ones	35,419
Locomotives and cars, machinery and tools	243,379

Some changes have taken place in the funded debt of the company during the year, in reference to which the president in his report says:

It will be recollected that under the date of July 1, 1873, in order to consolidate into one class of bonds of like character, the entire bonded and other indebtedness of the company, and to provide for its future necessities, the company executed a Trust Mortgage upon its railroad property and franchises in Illinois, and its Keokuk Branch in Iowa, securing its bonds, to be issued as therein provided, to the amount of $30,000,000.

Of this amount, twenty millions by the terms of the Trust Mortgage were set aside and appropriated exclusively to the funding of the then outstanding bonded and other indebtedness of the company, and the remaining ten millions to be appropriated and used only as the proceeds thereof should be required to pay for new construction and equipment demanded by the increase of business.

Under the provisions of this Mortgage there have been issued during the year $6,031,000 of these bonds.

Of these, there have been exchanged at par, with an adjustment of interest, for the plain seven per cent. bonds of the company payable in 1896, $3,382,500; and for the Branch bonds, so-called, $42,500; making the amount of bonds exchanged $3,425,000.

The remaining $2,606,000 have been sold and the proceeds applied in accordance with the provisions of the Mortgage. That is to say, $256,206 95 toward the payments of the balance due on the purchase of the Northern Cross Road, and $286,500 in the purchase of various Branch bonds—$1,813,293 05 toward the payment of the floating debt especially provided for in the mortgage, and $800,000 toward the cost of new construction and equipment upon the road covered by the mortgage since the date thereof.

The funded debt of the Chicago, Burlington and Quincy Railroad Company proper, including its

Branch bonds, at the date of the last report was $18,494,831 95.

On the 31st of December, 1874, it stood at $20,606,925, showing an increase during the year of $2,112,093 05, which amount has been applied toward payment of floating debt and new construction as above stated.

At the commencement of the year the funded debt of the Burlington and Missouri River Railroad Company was $7,353, 950.

During the year there have been purchased and taken up of the bonds of that company $372,300, and $207,500 have been converted into the stock of that company, leaving outstanding of the Bonded Indebtedness on the 31st of December, $6,774,150, and the combined funded debt of the two companies $27,381,075—an increase during the year of $1,532,293 05.

From the following statement, taken from the Treasurer's Report, it will appear that the entire property of the company of every kind, and its liabilities, on the 31st of December, 1874, in both States, were as follows:

Permanent investments, bills and accounts receivable, cash and material on hand for future use.		$60,384,873 70
Capital stock	$26,639,012 76	
Bonded liability, bearing interest, including Branch bonds	27,315,825 00	
Scrip issued to pay for Northern Cross Road, not bearing interest	65,250 00	
Monthly accounts	535,844 21	
		54 555,931 97
Leaving a surplus of		$5.828,941 73

SURPLUS ACCOUNTS.

President.—JAMES M. WALKER.

Directors.—Erastus Corning, Albany, N. Y.; John C. Green, New York; Sidney Bartlett, John W. Brooks, John N. Denison, John M. Forbes, Nathaniel Thayer, Charles J. Paine, J. H. Clifford, Boston, Mass.; William J. Rotch, New Bedford, Mass.; John N. A. Griswold, Newport, R. I.; Chauncey S. Colton, Galesburg, Ill.; James M. Walker, Chicago, Ill.

Chairman of Board.—J. N. A. GRISWOLD.

Clerk & Assistant Treasurer.—JOHN N. DENISON.

Gen'l Superintendent.—ROBERT HARRIS.

Treasurer and Secretary.—AMOS T. HALL.

Portland, Dalles and Salt Lake Railway.

Col. W. W. Chapman, President of the Portland, Dalles and Salt Lake Railway Company, furnishes the following statement in regard to the negotions with parties in London for building the road:

"Our contracts for the construction of the Portland, Dalles and Salt Lake Railway have been received in London, and the following modifications considered: It is proposed that we, instead of contractors, locate and furnish estimates in detail for 200 miles of road; upon this being done, contracts will be signed for the construction of the whole road as fast as estimates shall be made and approved. This 200 miles will reach from Portland to Umatilla, and in connection with surveys and estimates of our engineer, will reach LaGrande, east of the Blue Mountains, including the Walla Walla branch. Having accepted the modifications, we have engaged H. Thielson as Chief Engineer to make the surveys and estimates. The cost of these will be $6,000. If this sum shall be promptly subscribed, the contracts may be finally closed by the 1st of August, and the work commenced in September or October next."

The London parties are represented as thoroughly in earnest, and capable, financially, to build the entire road.

Tunnels vs. Bridges.

The proposition to construct another tunnel under the river at Chicago has elicited from the Tribune of that city an expression of dissatisfaction with the result of the experiment with the two tunnels already constructed there. It says these tunnels, which cost over $1,100,000, have never become popular routes of travel, neither tunnel is used for heavily loaded teams because of their grades, private carriages and buggies avoid them because of the noise and the dangers in case of a runaway, and foot passengers rarely go out of their way a single block to give the tunnel preference to the bridge. The Tribune says the half million dollars that would have to be expended in building a tunnel would build ten bridges, which would afford conveniences to the public in proportion of ten thousand to one, and declares that as part of the system of communication between the several parts of the city "tunnels have proved to be failures and bridges are essential."

☞ A change will take place in the management of the Allegheny Valley Railroad on the 1st of July. At that time J. J. Lawrence will retire from the Superintendency of the road, to be succeeded by David McCargo, Esq., formerly of the Pacific and Atlantic Telegraph Company, now Receiver of the Oil Creek and Allegheny River Railroad. William M. Phillips, Assistant Superintendent of the Low Grade Division, has also tendered his resignation, to take effect on July 1st.

☞ The earnings of the Midland Railway of Canada for the week ending May 31, were $8,270 96; week ending 31st May, 1874, $10,411 98; total traffic to date $94,162 22; year previous, $106,792 96; decrease $12,630 74.

American Railroad Journal.

Saturday, June 26, 1875.

Financial and Commercial Affairs.

London advices were gloomy enough early in the week, reporting several additional failures in the financial and commercial lines, with decided depression and distrust in the London Market. Toward the close the reports were of an encouraging tenor. In the local market, this varying intelligence had but little weight, and did not affect the course of Money, which ruled low, on very liberal offerings, without anything like an urgent call for accommodation, whether for speculative or regular mercantile purposes. Lenders were offering balances freely to the leading Street houses on the basis of 1½@3 per cent on call. Strictly choice to prime commercial paper has been in good request within the range of 5@6 per cent per annum. Speculation at the Stock and Gold Boards was more animated toward the close, and tended to increase the demand for financial aid. The City Banks last week further augmented their reserve of legal tender notes $2,077,700, their deposit item $899,400, and their specie average $845,100. They report a decrease of $2,620,800 in the loans and discounts, and a falling off of $524,600 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $51,297,803, against $47,671,708, the preceding week; and a coin board of $46,635,851 against $45,304,200 on the previous return. The City bank exchanges in currency during the week, were $438,739,495, or a daily average of $87,747,899. The customs revenue of the port, during the week, was $1,654,000. The

City banks reported their average of gold last week at $11,653,300, and their greenback average at $68,900,200. Their deposits stood at $234,068,100. The loan item was $275,217,500. The circulation was $19,142,000.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $22,036,475.

The aggregate of the outstanding U. S. currency, of all denominations, June 1 was $421,257,541. The outstanding amount of legal tender notes is $377,064,000. The National bank circulation is now $348,994,474, including $2,499,000 of national gold bank notes.

The U. S. Treasury balances on Wednesday were as follows: Currency, $4,500,000; special deposit of legal tenders for redemption of certificates of deposit, $61,260,000; coin, (including $23,950,000 in coin certificates,) $73,250,000.

The week's import entries of Foreign Merchandise at New York, were $4,683,961, and included of dry goods $894,069.

The income of the Government from internal revenues thus far in the fiscal year, commencing with July 1, 1874, has been 107½ millions, pointing to a weekly average which would make the aggregate for the whole of the current fiscal year now drawing to a close, 111 millions.

The specie exports from San Francisco, Jan. 1, to June 10, were $20,710,060, against $11,451,512 same time last year.

Gold has been quoted higher, with a more active speculative movement noted, stimulated by the unfavorable financial reports from London. The export drain has been again heavy; and the inquiry for Custom House purposes has been somewhat brisker. The extremes of the week have been 117@117⅛, closing on Wednesday at 117⅛ as against 117 on Wednesday of the preceding week. The specie outflow last week was $6,236,979. The imports of specie at this port since Jan. 1, have been $6 784,059, against $2,487,424 same time last year. The customs demand for Gold last week averaged $275,667. Foreign Exchange has been rather more freely dealt in and quoted firmer, with Bankers' sixty day bills on London closing, however, tamely on Wednesday, and a shade easier at $4 86⅛@$4 87½; sight bills on London at $4 89⅛@$4 90⅛ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,697,019. The week's imports of Dry Goods and general merchandise were to the specie value of $4,683,961.

Government Securities have been in quite active demand on investment account, and have been strong and buoyant as to price. The dealings have been checked by the comparative scarcity of bonds. State and Railway bonds have been in fair request, with values, however, quoted irregular. And in the line of Railway and Miscellaneous share property, more animation has been reported, on a stronger, though variable market.

U. S sixes of 1881 closed on Wednesday of this week at 126¼@126½; U. S. Five-Twenties of 1862, at 118¼@118½; U. S. Five-Twenties of 1864 at 119@119¼; U. S. Five-Twenties of 1865 122½@122¾; U. S. Five-Twenties of 1865 consolidated, 124@124¼; U. S. Five-Twenties of 1867, 125⅜@125½; U. S. Five-Twenties of 1868, 125@125⅛; U. S. Ten-forties at 119¼@119½; U. S. Fives of 1881, (Funding Loan) 118⅞@119; Six per cent. currency Sixes from 122⅛@122¾.

General business has been fairly active in domestic produce, chiefly in breadstuffs, provisions and cotton, but prices have been ruling weaker and quoted irregular. Petroleum, naval stores, wool and building materials closed easier. Hides and leather in moderate demand, with tobacco, hay, straw and feed in fair request. Hardware, drygoods, and boots and shoes have been sparingly dealt in within the previous range. Crop prospects have been generally reported as encouraging, and the Fall trade is looked forward to with decided confidence.

Metals have been held rather more firmly, but have been unusually slow of sale. Eglinton Pig Iron quoted at $29@$31; Glengarnock, $30@$32; Coltness, $29@$32; No. 1 American Pig at $25@$28; No. 2 do. at $23@$26; Forge, $21@$25; English Rails at $48@$50, gold; American Rails at works, $48@$50; Old Rails, $26@$27. Wro't Scrap, $28@$32. Ocean freights have been quoted firmer, and have been fairly active. The demand from shippers of Grain, Flour, Provision and Cotton has been more animated.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—New York Central 6s, sub. bonds, 100; Quincy and Toledo 1st mort., 50; La Crosse and Milwaukee 1st mort. 8s, 100; South Pacific R. R. of Mo. 6s, 80; Missouri 6s, long bonds, 103⅛; do. 6s, 1876, 103; Tennessee 6s, old, 46½; do. new 45¼; do. new series, 46¾; South Carolina 6s, new, Jan. and July, 35; Georgia 7s, new, 100½; do. 7s, gold 96; Virginia 6s, def. certif., 8¾; Brooklyn 6s, W. Gas Coal, 20@30; Canton Co., 65@68.

Oregon and Winnemucca Railroad.

A surveying party engaged in taking altitudes along the line of the proposed Oregon and Winnemucca Railroad, arrived at Winnemucca, Nevada, on the 10th instant—having been forty days on the route from Eugene city, Oregon. Mr. W. H. Farar, chief of the expedition, says that the general characteristics of the route are favorable to high ranges southeast of the Cascade Mountains, and that he considers the route through Surprise and Fandango valleys to Goose Lake practicable, and no serious difficulties will have to be overcome in grading the road. The party left on the 11th for Oregon, via Badger Ranch. It is understood the grading will be commenced in Oregon this summer.

☞ The New York office of the Chicago, Milwaukee and St. Paul Railway Company has been removed to the new and commodious building No. 68 William street, where the transfer of stock will hereafter be made, and the interest coupons paid. Alexander Mitchell is President of the company; Julius Wadsworth, Vice President; and S. S. Merrill, Manager.

☞ Messrs. Poppenhusen & Co., proprietors of the Flushing, North side and Central, and Southern Railroads of Long Island, have purchased a controlling interest in the Hempstead and Rockaway Railroad, running from Hempstead village to Valley Stream, and it will be put in operation at once as a branch of the Southern Road.

☞ The Camden and Philadelphia Steamboat Ferry Company have contracted with the Harlan & Hollingsworth Company, of Wilmington, Del., to build another iron ferry boat of the same model and dimensions of the "Pennsylvania," which was built last year. The new ferry boat will be completed and ready for use by the 1st of December next.

☞ The Baltimore and Ohio Railroad Company notifies the holders of its first mortgage bonds, due the 1st of July, 1875, that it will pay the remainder of this loan, $888,250, (originally $1,128,500,) at any date in advance of maturity, with interest to date of payment, on presentation at the office of the Treasurer in Baltimore.

☞ The Santa Cruz Sentinel says that the Santa Cruz Railroad Company are pushing their work right along, ballasting the road bed, grading below Aptos and building the trestle work over the gulches below there. When this is done they will push their work to rapid completion.

☞ The contract for the erection of Agricultural Hall has been awarded by the Centennial Board of Finance to Philip Quigley, of Wilmington, Delaware, for $196,240.

The Pacific Railroad Case.

We give elsewhere the text of the decision of the U. S. Supreme Court in the case of David Bailey, Joseph Seligman, Edwin D. Morgan et al. vs. The Pacific Railroad, Constantine Maguire et al.—appeal from the Circuit Court of the United States for the Eastern District of Missouri. This is a suit in equity by foreign stockholders to restrain the collection of certain taxes in St. Louis County, Mo., assessed against the Pacific Railroad Company by County Assessors for the year 1869, on the ground that the property of the company is exempt from all taxation, except a State tax, to be ascertained and paid in a particular manner. This exemption is claimed under section 12 of act of Dec. 25, 1852. The decision of the lower court was reversed, and the validity of the tax declared.

Woodbury and Gloucester Railway.

Engineers are now actively employed in surveying a route for the new narrow gauge railway between Woodbury and Gloucester, N. J. The most feasible route, so far surveyed, is on the western side of Woodbury, and after passing through several farms, strikes Big Timber Creek 66 feet west of the West Jersey Railroad; thence crossing the creek by a drawbridge, the route continues through the farm and meadow (crossing the latter on trestle work) of Mr. Peysson, thence through the old beer garden at Pine Grove, and terminating at the frame school, on Jersey avenue, in Gloucester. The length is 4½ miles. At its proposed terminus the Camden and Gloucester road will connect with it.

☞ Articles of association were filed at Trenton, N. J. on the 21st inst., for the formation of a company and the laying down of a railroad to be called the Long Branch and Sea Girt Railroad, and to run from Ocean Beach to Squan village. In order to form a connection with the New York and Long Branch Railroad, at Squan village, it is to connect with the Farmingdale Railroad. The capital stock is $100,000. The Directors are Joseph Taylor Johnson, Samuel Knox, Anthony Reckless, Henry S. Little, and James Johnson. The road is but four or five miles in length, but it makes important connections.

☞ Articles of Association of the Fond du Lac and Whitewater Railway Company, and the Fond du Lac, Amboy and Peoria Railway Company have been filed in the office of the Secretary of State at Springfield, Ill., the corporation as consolidated to be known by the name of the Fond du Lac, Amboy and Peoria Railway Company. It is proposed to build a narrow gauge road from Fond du Lac to Peoria, and branches to Milwaukee and Chicago. Capital stock, $2,000,000.

☞ The Supreme Court of Georgia has reversed the decision of Judge Hopkins, of the Fulton, Georgia, Superior Court, in regard to taxing the Western and Atlantic railroad, Georgia railroad and Augusta and Waynesboro' railroad, and held that the roads are only liable to a tax of one and a half per cent. on the net earnings. The court held that the Central railroad and Southwestern railroad must pay the tax levied, and sustains Judge Hopkins' decision in regard to these roads.

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

The office of the Chicago, Milwaukee and St. Paul Railway Company, in the City of New York, has been removed to No. 68 William st., where the transfer of stocks will hereafter be made, and the interest coupons padi.

JULIUS WADSWORTH, Vice President.

NEW YORK, June 19, 1875.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD CO.,
NEW YORK, June 22, 1875.

A DIVIDEND OF FOUR PER CENT HAS been declared by this Company, payable on the second day of August next, to the holders of full paid shares registered at the close of the fourteenth day of July next, after which, and until the fifth day of August, the transfer books will be closed.

L. V. F. RANDOLPH, Treasurer.

OFFICE OF THE
HANNIBAL AND ST. JOSEPH RAILROAD CO.,
No. 78 BROADWAY, NEW YORK, June 19, 1875.

INTEREST MATURING JULY 1, 1875, ON BONDS of this company, also on $3,000,000 Missouri State six per cent bonds, known as "the Hannibal and St. Joseph issue," will be paid on and after the 1st day of July, 1875, on presentation of the proper coupons at the Bank of North America.

JOHN P. ACKER, Treasurer.

OFFICE OF THE ERIE RAILWAY COMPANY,
NEW YORK, June, 11, 1875.

THE ANNUAL MEETING OF THE STOCKHOLDERS of the Erie Railway Company, for the election of Directors, and for the transaction of such other business as may come before the meeting, will be held at the office of the company, No. 187 West St., on TUESDAY, the 13th day of July next. The polls will be open at 10 o'clock A. M., and remain open until 2 o'clock P. M. of that day.

The transfer books of both common and preferred stock will be closed after business hours on Saturday, the 12th inst., and remain closed until Wednesday, the 14th of July next.

The transfer office will be reopened on Wednesday, July 14, 1875, and thereafter be continued at the general offices of the company, No. 212 Duane St., New York.

By order of the board: A. R. MACDONOUGH,
Secretary.

TREASURY OF THE ERIE RAILWAY COMPANY,
NEW YORK, June 11, 1875.

INTEREST COUPONS OF THE BUFFALO, NEW York and Erie Railroad Company, due June 1 inst., will be paid on surrender of same to the undersigned.

Holders others than those to whom payments were made December, 1874, will be required to exhibit their bonds with current coupons attached for verification.

RECEIVER ERIE RAILWAY COMPANY.
W. P. SHEARMAN, Cashier.

LONG DOCK COUPONS, DUE JUNE 1ST, INstant, will be paid on presentation of same at the Treasurer's office, 187 West St.

W. P. SHEARMAN, Treasurer Long Dock Co.
NEW YORK, June 11, 1875.

Wisconsin Railroad Land Grant.

DECISION OF THE U. S. SUPREME COURT.

In the case of Frederick Schulenberg, Adolph Boeckler and Louis Hospes, partners as Schulenberg, Boeckler & Co., plaintiffs in error vs. Samuel Harriman, in error to the Circuit Court for the District of Minnesota, Mr. Justice Fields delivered the opinion of the court, as follows:

On the 3d of June, 1856, Congress passed an act entitled "An act granting public lands to the State of Wisconsin to aid in the construction of railroads in said State." That act grants to the State for the purpose of aiding in the construction of a railroad between certain points every alternate section of land designated by an odd number, for six sections in width on each side of the road.

Subsequently, on the 5th of May, 1864, Congress passed another act on the same subject, entitled "An act granting lands to aid in the construction of certain railroads in the State of Wisconsin." By its first section additional land is granted to the State upon the same terms and conditions as those contained in the previous act, for the purpose of aiding in the construction of the road between certain of the points designated in the act of 1856, and the last act extends the time for completing the road for five years. This road has never been constructed, nor any part of it, and the time for its construction has not been extended since the act of 1864.

The Court holds that the lands granted have not reverted to the United States, although the road was not constructed within the period prescribed, no action having been taken either by legislation or judicial proceedings to enforce a forfeiture of the grants. Unless there are clauses in a statute restraining the operation of words of present grant, these must be taken in their natural sense to import an immediate transfer of title, although subsequent proceedings may be required to give precision to that title and attach it to specific tracts. No individual can call in question the validity of the proceedings by which precision is thus given to the title where the United States are satisfied with them. The provision in the act of 1856 that all lands remaining unsold after ten years shall revert to the United States if the road be not then completed, is a condition subsequent, being in effect a provision that the grant to the extent of the lands unsold shall be void if the work designated be not done within that period. No one can take advantage of the non performance of a condition subsequent annexed to an estate fee but the grantor or his heirs or successors, and if they do not see fit to assert their right to enforce a forfeiture on that ground the title remains unimpaired in the grantee. The rule equally obtains where the grant upon condition proceeds from the Government.

The manner in which the reserved right of the grantor for breach of the condition must be asserted so as to restore the estate, depends upon the character of the grant. If it be a private grant, that right must be asserted by entry or its equivalent. If the grant be a public one, the right must be asserted by judicial proceedings, authorized by law, or there must be some legislative assertion of ownership of the property for breach of the condition, such as an act directing the possession and appropriation of the property, or that it be offered for sale or settlement. Affirmed.

☞ Governor Cheney, of New Hampshire, was inaugurated on the 10th inst. In his message to the Legislature, he reports the State debt at $3,741,330 45, it having been reduced $85,259 57 during the year. The revenue has been $505,654 21, and the current expenses, including $286,089 80, interest on the State debt, have been $420,894 64. He thinks a tax levy of $400,000 will suffice for the coming year. There are sixty eight savings' banks in the State, with deposits aggregating $30,214,585 71, an increase of $1,385,108 88 since last year.

Finances of the United States.

The estimates of the Secretary of the Treasury placed the aggregate receipts expected for the fiscal year ending with the present month at $284,000 000 in round numbers. The receipts will exceed the estimates by at least five millions. Of this sum about $109,500 000 will be received from internal revenue and $157,000,000 will be derived from customs receipts. The remainder will come from miscellaneous sources. The internal revenue receipts will rise about $7,500,000 above the estimates, and the customs revenues will fall from $4,000,000 to $4,500,000 below the estimates. The aggregate expenditures for the year will not exceed $276,000 000, and they will probably be $1,000,000 or $2,000,000 less. These expenditures, deducted from the receipts, leave in round numbers a surplus of $13,000,000, against an excess last year over that of the previous year of $2,344,000, a net gain of over 11 millions. The Treasury, has, however, to provide for the sinking fund bonds, and the surplus of receipts for the year will lack from $16,000,000 to $17,000,000 of the amount necessary to redeem these bonds. The Treasury balance may be somewhat reduced, but under no probable circumstances below fifty millions of dollars, even taking in the payment of the July interest on the public debt.

The Bridges at Woodstock.

The Woodstock (N. B.) Sentinel announces that Messrs. E. R. Burpee and Henry Osburn were in that city during part of last week, looking into matters associated with the construction of the bridge over the St. John river and the connecting link between the western end of the bridge and the New Brunswick and Canada Railroad. The Sentinel understands that the prospects for an early commencement and completion of these works are good, and that before a very great while elapses the Meduxnakeag, as well as the St. John will be crossed by the rails, and the mills on the former stream be put in available connection with the railroad.

☞ The following bills among others, have received the signature of Gov. Tilden:

To define the powers and privileges of railroad corporations and to repeal sections 3 and 4 of chapter 278 of the Laws of 1868, entitled "An act in relation to the Erie, New York Central, Hudson River and Harlem Railroad companies."

To provide for the sale of stock and bonds of railroad companies by municipal corporations holding the same, and for disposition of the proceeds of such stock or bonds.

☞ The certificate of incorporation of the Virginia and Ohio Railroad company, with a capital stock of $1,000,000, has been filed with the Secretary of State of Ohio, by Peter Kinney and others; line from Symmes creek, Lawrence county to Portsmouth, in Scioto County.

☞ John Wooldredge, Nathaniel Hooper, S. Lothrop Thorndike, C. W. Freeland, of Boston; Ichabob Goodwin, of Portsmouth; John B. Brown and Charles E. Barrett, of Portland; have been elected directors of the Portland, Saco and Portsmouth Railroad Company.

☞ The Panama Star says that preparations have actually been made for connecting Panama with Peru and Chile by means of a cable laid along the Pacific coast.

Railroad Companies not Liable for Money Stolen in the Cars.

VALUABLE PROPERTY MUST NOT BE CARRIED IN TRUNKS UNKNOWN TO THE COMPANY.

The Supreme Court of Illinois has recently rendered two decisions of interest to all travellers. In the first case suit was brought to recover $1080, stolen while the owner was riding in a Pullman palace car. The lower court instructed the jury that the plaintiff could recover, the sum not being larger than he was justified in carrying for ordinary travelling purposes. The jury awarded him $277, and the Supreme Court reversed the decision, on the ground that the company did not incur an innkeeper's responsibility, and therefore could not be held. In the second case a commercial traveller had a common trunk of samples, worth $30,000, burned, and recovered for the full amount. The upper court held that the company had no notice of the contents of the trunk, that there was not anything to show the value, but that there was constructive fraud on the plaintiff's part to give such a trunk to the company, and that without wilful neglect on the part of the railroad it would not be liable. The judgment was, therefore, reversed.

☞ The six months' suspension in the Wyoming coal region ended on the 21st inst., work being resumed at the collieries of the Lehigh and Wilkesbarre Coal Company, at Sugar Notch, Wanamica, Hanover, Nanticoke, Plymouth, Hollenback and other places at a reduction of ten per cent on the old prices. Work was also resumed by the miners of the Riverside Coal Company and those of individual operators.

Iowa Railroad Land Grant.

DECISION OF THE U. S. SUPREME COURT.

In the case of The Cedar Rapids and Missouri Railroad Company and the Iowa Railroad Land Company, plaintiffs in error, vs. Milton Courtright—in error to the Supreme Court of the State of Iowa—Mr. Justice Field delivered the opinion of the Court, of which the following is an abstract:

On the 15th May, 1856, Congress passed an act entitled "An act making a grant of lands to the State of Iowa, in alternate sections, to aid in the construction of certain railroads in said State." That act granted to the State for the purpose of aiding in the construction of a railroad between certain specified places, alternate sections of land, designated by odd numbers, for six sections in width on each side of the road, to be selected within fifteen miles therefrom. And the act declared that the lands thus granted should be exclusively applied to the construction of the road and be subjected to the disposal of the Legislature for that purpose and no other, and only in a specified manner. The State of Iowa, by act of its Legislature, passed on the 14th of July, 1856, accepted the grant thus made, and provided for the execution of the trust. By that act the State granted to the Iowa Central Air Line Railroad Company, a corporation created by its Legislature for the construction of the railroad, "the lands, interests, rights, powers, and privileges" conferred by the act of Congress, upon conditions.

The company accepted the grant from the State, with its conditions, but although the company did a large amount of grading, it never completed any part of the road, and in March, 1860, the Legislature of Iowa resumed the lands, interests, rights, powers and privileges conferred upon the company, and repealed the claims of the act granting them. Held—

That the act of Congress authorized a sale of one hundred and twenty sections in advance of the construction of any part of the road, and that it was only as to the sale of the remaining sections that the provision requiring a previous completion of twenty miles applied;

That there was no restriction upon the State as to the place where the one hundred and twenty sections should be selected along the line of the road, except that they should be included within a continuous length of twenty miles on each side, and that they might be selected from lands adjoining the eastern end of the road or the western end, or along the central portion;

That the company mentioned in the act of the State, of July 14, 1856, took the title and interests of the State upon the terms, conditions, and restrictions expressed in the act of Congress, and that the further conditions as to the completion of the road imposed by the State were conditions subsequent; and

That the purchasers of the one hundred and twenty sections took a good title to the property, although no part of the road was constructed at the time. Affirmed.

Taxation of Railroads in Missouri.

The recent decision of the Missouri Supreme Court, that the balance of $5,322, taxes of 1872, which the Hannibal and St. Joseph Railroad refused to pay, on the ground that the mode of assessment provided in its charter was a contract right, is that the charter provision is not a contract or a franchise, and that the assessment may be made in any manner ordered by the Legislature. The St. Louis Republican says:

This decision, together with the previous one in the case of the Pacific Road, dissipates the claim of the railroads of this State to a chartered right of assessment and taxation, and establishes the fact that their property is subject, like all other property, to State, county, city and school taxes, under the general revenue law of the State. The decisions of the Supreme Court of the State and of the Federal courts in these tax cases have been mainly against the roads, and the issues would seem to be exhausted.

Interest and Dividends.

The interest maturing July 1, 1875, on bonds of the Hannibal and St. Joseph Railroad Company, also on $3,000,000 Missouri State 6 per cent. bonds, known as "the Hannibal and St. Joseph issue," will be paid on and after the 1st day of July, on presentation of the proper coupons at the Bank of North America.

Interest coupons of the Buffalo, New York and Erie Railroad Co., due June 1, will be paid upon presentation at the Treasury of the Erie Railway Co.

Long Dock coupons due June 1, will be paid on presentation of the same at the Treasurer's office, 187 West st.

The directors of the Illinois Central Railroad Company have declared a semi annual dividend of 4 per cent. payable Aug. 2. The transfer books will close on the 14th of July and reopen Aug. 5.

The Granite Railway Company has declared a dividend of $4 per share, payable July 1.

The Attleboro' Branch Railroad Company have declared a semi annual dividend of 3½ per cent. payable July 1.

All outstanding Six per cent. Bonds of the Summit Branch Railroad Company will be paid, with accrued interest, on presentation, at Office 82 Water street, Boston.

The Woodruff Sleeping and Parlor Coach Company have declared a quarterly dividend of 2½ per cent, payable at 846 Walnut st., Philadelphia on the 1st of July.

☞ Several additional miles of the Osaka, Japan, Railway were opened May 1st.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

DELAFIELD & BAXTER
CEMENT COMPANY,
MANUFACTURERS OF HIGH FALLS
ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT**, (equal to any) put up in new barrels made by themselves, and well papered, and average 300 lbs. Cement to each barrel.

J. B. JAMES, President.
W. G. JAMES, Treasurer.
41 Dey Street, New York.

LAWRENCEVILLE
CEMENT COMPANY.
ROSENDALE
HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York. This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

The Coal Trade.

The anthracite production for the week ending on the 12th instant, as stated by the Philadelphia *Ledger* was 338,770 tons, and for the year 5,540,830 tons, against 7,932,638 tons to corresponding date last year, a decrease of 2,391,808 tons. The bituminous tonnage for the week was 86,568 tons, and for the year 1,312,193 tons, making a total of all kinds for the week of 425,338 and for the year of 6,858,023 tons, against 9,189,257 tons to same time last year, a decrease of 2,336,234 tons. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 90,322 tons, and for the year 1,479,615 tons, of which 1,240,502 was coal and 249,123 coke. This embraces all the coal carried both east and west. At Port Richmond for the week ending the 19th instant there were receipts of 20,000 tons of coal, shipments of 15,000 tons, leaving 12,000 tons on hand. The *Ledger* adds:

Resumption of labor in the Wyoming, Lehigh and Schuylkill coal regions is now accepted as an assured fact. * * * Labor at the mines has been resumed, and in a fortnight it is supposed the preliminary work will have so far progressed as to warrant full coal production, which being continued one month, the Philadelphia and Reading Railroad will have earned a dividend. The Philadelphia and Reading Coal and Iron Company has already issued its circular of line and city prices for coal until otherwise ordered, as follows: Lump and steamer, $2 50; broken, $2 90; egg, $3; stove, $3 25; chestnut, $2 40; do., No. 2, $2 15, and pea, $1 25. These rates show a discrimination in favor of lump and steamer, generally used by the manufacturers, of 50 cents compared with egg and 75 cents compared with stove. This ought to give satisfaction to the manufacturing interests on the line and at Philadelphia, and will certainly tend to the revival of all manufacturing industries. The rates for June are 40 cents per ton below the June prices last year for lump and steamer, 15 cents less on egg, an advance of 10 cents on stove, and for chestnut and pea the same as last year. The average is $2 50 a ton, a reduction on last year's rates with a different distribution of prices for different kinds. * * * Twenty six of the Philadelphia and Reading Coal and Iron Company's mines resumed work on Saturday, and two more on Monday. The decrease in the production of coal in the Schuylkill region this year, as compared with that of last year, is a little less than 1,343,000 tons, and in the Lehigh region 1,592,338 tons. The supply of coal henceforth for the remainder of the year will be quite equat to the demand, and may nearly reach that of last year.

New River Narrow Gauge Railroad.

At a meeting held at Hinton, West Virginia, on the 15th inst., for the purpose of arranging a board of officers for the proposed New River Narrow Gauge Railroad, the following gentlemen were elected: A. D. Sargent, of Philadelphia, president; Thomas Graham, vice president; Gen. G. C. Wharton, Harvey Beckwith, Ebert Fowler, and Judge P. W. Strother, directors. The company will be known as the "New River Railroad Manufacturing and Mining Company." The road is to run from New River Bridge, on the Atlantic, Mississippi and Ohio Railroad, to Hinton, West Virginia, on the Chesapeake and Ohio Railroad, a distance of about sixty miles, the country to be traversed being rich in mineral deposits.

☞ The Directors of the proposed Springfield, Jackson and Pomeroy, Ohio, Railway have decided to commence locating the road immediately, beginning at Jackson.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

Right of Way.

THE TAKING OF PRIVATE PROPERTY, IN ORDER THAT A RAILROAD MAY BE CONSTRUCTED, IS A PUBLIC NECESSITY.—DECISION OF THE U. S. SUPREME COURT.

In the case of David A. Secombe, plaintiff in error, vs. the Milwaukee and St. Paul Railroad Company—in error to the Circuit Court for the District of Minnesota—Mr. Justice Davis delivered the opinion of the Court:

This is an action of ejectment to recover possession of a town lot in Minneapolis, occupied by the defendant in error as a part of its road bed. The case was tried by the court without the intervention of a jury, and the only material point for inquiry is whether, on the whole case, the decision of the court below, which was adverse to the plaintiff, was correct. It is true there was an objection to the ruling of the court admitting evidence, but it is unnecessary to notice it, because this evidence was the basis on which the court rested its judgment, and without it the defense is not sustained. The case was this: Hiram Osborn and Ovid Pinney were, in 1863, the owners of the premises in controversy, and in 1870, by deeds of quitclaim, conveyed all the right they had in the property to the plaintiff. Long before these conveyances the Minnesota Central Railroad Company, under whom the defendant claims, located and built a railroad across the premises, and occupied it for railroad purposes. The defendant insists that this occupation was lawful, for the reason that the company took the proper steps to condemn the land, and had the right to condemn it. Whether this is so, of necessity, depends on the laws of the State, and if these laws have been construed by the highest court of the State, in a case of a similar character, the Federal Courts are relieved of all difficulty. We do not feel called upon to enter into an examination of the several acts on this subject, both public and private which are quite numerous, in order to show that the Minnesota Central Company had a corporate existence, and was, therefore, capable of performing an act of condemnation. It is enough to say that the point is settled in favor of the company by the decision and reasoning of the Supreme Court of Minnesota in the case of the First Division of the St. Paul and Pacific Railroad vs. Parcher, 14 Minnesota, R., page 207.

The Minnesota Central Company was authorized by law to procure the condemnation of land for the use of its road, and from the findings of fact by the Circuit Court it sufficiently appears that the statutory provisions on the subject were observed. It is no longer an open question in this country that the mode of exercising the right of eminent domain in the absence of any provision in the organic law prescribing a contrary course is within the discretion of the Legislature. There is no limitation upon the power of the Legislature in this respect, if the purpose be a public one, and just compensation be paid or tendered to the owner for the property taken. This general rule has received the sanction of the Supreme Court of Minnesota in analogous cases to the one at bar. It hardly need be said that the taking of private property, in order that a railroad may be constructed, is a public necessity. It is urged that the property in controversy was occupied before the proceedings in condemnation were begun, but there is nothing in the findings of fact to show that this was so. Even if the plaintiff were in a situation to make the objection, it would not avail him, for prior occupation without authority of law would not preclude the company from taking subsequent measures authorized by law to condemn the land for their use. If the company occupied the land before condemnation without the consent of the owners, and without any law authorizing it, they are liable in trespass to the persons who owned the land at that time, but not to the present plaintiff.

It is urged, also, against the validity of the award of the Commissioners, that it was not made in reasonable time, or the amount of it ever paid or tendered to the parties in interest. Whether this be so or not does not concern the plaintiff. It is enough for him to know that a judgment was entered confirming the award, and the money paid into the court for the use of Pinney and Osborn, and is there now, unless they have seen fit to withdraw it. It is a fair presumption, as both of these persons had notice, actual or constructive, of the proceedings in condemnation, and took no steps to review them, that they were either satisfied with the award or concluded they could not make successful opposition to it. This suit is an effort to question the propriety of the condemnation and sale of the property in a collateral proceeding, not by the party even whose land was appropriated, but by a stranger to the original proceeding, who, whatever his motive in buying, got no other estate than the original owners could convey—a fee, subject to the easement of the railroad company. The judgment of condemnation in this case was rendered by a competent court, charged with a special statutory jurisdiction, and all the facts necessary to the exercise of this jurisdiction shown to exist. A judgment thus obtained is no more subject to impeachment in a collateral proceeding than the judgment of any other court of exclusive jurisdiction. (1 Redfield on Railways, 5th edition, p. 271,) If it were so railroad companies would have no assurance that the steps taken by them to procure the right of way would conclude any one, and they would be constantly subject to vexatious litigation.

The judgment of the Circuit Court is affirmed.

Interest on the Virginia State Debt.

The board established by law to determine what interest would be paid on the public debt had a meeting in Richmond on the 26d ult., and ordered that on and after the 1st of July, 1875, the semi-annual interest of 2 per cent for July, 1874, shall be paid on the 6 per cent stock and in like proportion on that bearing 5 per cent funded into new bonds, under the acts of March 30, 1871, and March 7, 1872. On stock not funded the same rate of interest will be paid on two-thirds of the face of the certificates, or, in other words, on the portion of the debt which this State has assumed, leaving the third belonging to West Virginia to be adjusted hereafter. "This," says the Richmond Inquirer, "is certainly a step in the right direc-

tion. Other and stronger steps will follow as the financial condition of the State grows stronger."

Rockford, Rock Island and St. Louis R. R.

Mr. W. H. Ferry, Receiver, has filed his monthly report for May in the U. S. Circuit Court, which shows that the receipts during that month were $58,911 79, and the expenses $54,571 66, leaving a balance of $4,340 13, which added to the balance on hand April 30, $32,495 93, gives a total balance on hand May 31 of $36,836 06. Mr. Ferry further reports that by the accumulation of the joint earnings with the Chicago, Rock Island and Pacific Railroad he has now to his credit with that company an amount sufficient to pay the track rental due it for July, Sept. and Oct. last. This he asks to be allowed to pay, and to credit it on his books. He also, in pursuance of the order of court deposited with the clerk $20,739 23 to satisfy the decree in favor of H. H. Porter for his balance and interest due on cars. Mr. Ferry concludes by asking the court to allow him to appropriate $1,000 for services for the month of May.

Chicago, Rock Island and Pacific Railroad.

The income of this company for the years ending March 31, 1874 and 1875, were as follows:

	1874.	1875.
From passengers	$1,669,570 62	$1,677,460 76
" freight	5,003,001 07	5,292,412 24
" mails	149,044 61	149,946 52
" express	107,098 22	98,950 00

	$3,698,666 85	$3,534,958 42
Legal expenses	40,646 24	86,750 21
Taxes	137,576 17	284,620 98
	$3,876,889 26	$3,856,329 61
Net income	$3,256,684 73	$3,543,283 73

From which deduct—

Rent of Peoria and Bureau Valley Railroad	$125,000	
Interest on bonds	630,000	
Dividends April and Oct., 1874, 4 per cent each	1,678,384	
		2,433,384 00
Leaving a balance of		$1,109,899 73
Add balance of income account April 1, 1874		5,433,069 93
Total, as in Balance Sheet		$6,542,969 66

Compared with the previous year, the gross income shows an increase of $266,039 85; with a decrease in expenditures of $20,559 65—making an increase in the net income of $286,599. The balance after payment of rent, interest and dividends, is $266,512 more than at the close of the previous year. The report says:

The lines of road operated by your company, for the fiscal year ending March 31st, 1875, remain as given in the last annual report:

Main Line	500¼ miles.
Branches	173¼ "
	674¼ miles.

This company continues to operate the Chicago and South Western Railway, connecting with the Chicago, Rock Island and Pacific Railroad at Washington; but the earnings and expenses of that line are not included in this report.

LANDS.

The Land Commissioner reports sales of 35,787.49 acres, for the sum of $287,031 72, showing an increase over the sales of the previous year of 11,249.92 acres, or 45 per cent. 34,681.69 acres sold at an average price of $8.25 per acre, while 1,105.80 acres of swamp lands, to which the company had but doubtful title, were quit claimed for $1,066.

The company were assessed for unsold lands, on the 1st of November, 1874, on 431,489 acres, situated in 19 counties in the State of Iowa; but more than three-fourths of the whole are located in Audubon, Shelby and Pottawatomie counties.

Two new stations on main line have been established during the past year, that will, to some extent, facilitate the sale of lands; but the building of a Branch road, from some convenient point on the main line to the northern section of Audubon and Shelby counties, would increase sales, and enhance the value of the more northern lands, to an extent that would more than repay the investment, besides adding, in no small degree, to the traffic of your road. After paying all expenses of the Land Department, including $51,812 85, taxes for 1874, there has been remitted to the Commissioners of the Sinking Fund, $120,000, and $121,440 68 added to bills receivable, the latter amounting, at date of this report, to $495,114 73.

SINKING FUND.

OFFICE COMMISSIONERS OF THE SINKING FUND,
CHICAGO, ROCK ISLAND & PACIFIC R. R. Co.
New York, April 1st, 1875.

The commissioners of the sinking fund respectfully report, that since their annual report for April, 1874, they have received from the following sources:

Balance on hand at date of last report	$31,466 74
Cash received from land commissioner	120,000 00
Interest on bonds and loans	29,831 00
	$181,297 74
And they have purchased 131,000 of the mortgage sinking funds of the C. R. I. & Pacific R.R. Co., at a cost of	$137,081 25
Cash in Corn Exchange Bank, and loan	44,216 49
	$181,297 74

The securities and cash now held by them are as follows:

$434 000 00 in mortgage bonds of the C., R. I. & Pacific R. R. Co.

$24,000 00 in mortgage bonds of the Peoria, Pekin & Jacksonville R. R. Co.

$4,216 49 Cash in Corn Exchange Bank.

$40,000 00 Loan on interest, secured by 500 shares of the Chicago, R. I. & Pacific R. R. stock.

All of the bonds of the C., R. I. & Pacific R. R. Co., held for this fund, are registered in the name of the commissioners, and so mutilated that they can never be issued again.

As the land commissioner anticipates larger sales of land and cash receipts for the ensuing year, and the value of the bonds of the Chicago, R. I & Pacific R. R. Co. having risen in the market to a price beyond which the company have reserved the right to call them in, a call has been made to retire $150,000 of said bonds, on 1st July next, for the benefit of this fund.

All of which is respectfully submitted.

HUGH RIDDLE,
FRANCIS H. TOWS.
Commissioners of Sinking Fund.

Comparing the passenger and freight movement and earnings of the last fiscal year, with that of the year previous, it will be observed that the number of passengers carried have increased over 14 per cent, and the quantity of freight moved, nearly 23 per cent. This increase is mainly local, and principally due to the increase of population, and larger acreage brought under cultivation in the territory tributary to the line in Iowa.

The comparison of receipts does not make as gratifying an exhibit—the passenger earnings having increased but 0.47 of one per cent, and the freight earnings 5¾ per cent.

The tendency to lower rates, referred to in previous reports, has continued during the past year, and bids fair to reach a point, if it has not already, that should be satisfactory to the most exacting granger.

The reduction of rates is mainly due to two causes; very low rates made on through freight going to and coming from California, which prevailed for the entire year, owing to competition with the Pacific Mail Steamship route, and the operation of the Iowa Railroad law for the last nine months.

The railroad companies operating west of Omaha having adjusted their differences with the steamship lines, and advanced rates to a remunerative basis, it is confidently believed the first named cause is removed.

The Iowa law, that went into effect on the 4th of July, 1874, classifies railroads according to their gross earnings—those roads earning $4,000 per mile, or over, forming Class A, with passenger rates limited to three cents per mile, and prescribed rates for freight, moved within the State, that averaged about 33 per cent less than the rates previously obtained by this company.

Your managers, after obtaining the advice of eminent counsel, concluded to make their tariffs conform to the law, and at the same time addressed a communication to the State Executive, stating that the law was regarded as unjust and oppressive to Railroads; but expressing a determination to give it a fair trial, reserving the right, however, to contest the validity of the law, in the courts, at any future time, should the company deem it expedient to do so.

A recent decision of the Federal Court, affirming the constitutionality of the law, would seem to confirm the wisdom of the policy adopted by this company; but whether the abundant crop and general prosperity of the State of Iowa, during the past year, renders the result of Railway operations therein exceptional, cannot now be determined.

Hoping that this period of prosperity may be long continued, I postpone the discussion of the possible effects upon the Railways of a year of agricultural disasters, combined with the inflexible provisions of the law.

Judging from present prospects of abundant crops, taken in connection with the quantity of old grain in store in the country, your managers anticipate, at least, as favorable results for the ensuing year as they have recorded for the past.

The expenditures on account of construction and equipment have been as follows:

Land and land damages	$4,491 89
New equipment	44,481 85
Grading, including masonry	94,819 92
Additional side tracks, 8.62 miles	60,203 59
Engine houses and machine shops	100,295 39
New passenger and freight depots	36,144 19
Addition to Geneseo stock feeding yards	4,038 36
New iron bridge with stone abutments (Blue Island)	15,613 29
Excess in cost of 4,789 tons of steel rails over same quantity of iron rails	124,514 00
New machinery in shops	5.411 55
Artesian well and new water tanks	3,812 68
Engineering expenses, etc.	4,748 85
Indianola Branch Railroad	1,037 13
Winterset "	9,342 94
South Chicago Branch Railroad	4,365 41
Fort Leavenworth Branch	1,131 36
	$514,447 40

The additions made and charged to new equipment account have been as follows: 2 locomotives, 2 first class passenger coaches, 2 baggage and express cars, 2 drovers' cars, 6 caboose cars.

Forty-eight wooden structures have been replaced with stone culverts, or abutments, requiring 10,846 cubic yards of masonry; and the cost, after deducting the estimated expense of renewing structures with timber, has been charged to grading account. The expense attending reduction of grade near Ainsworth, and west of Davenport, and the filling over and around new culverts and bridges, has been charged to same account.

Eight and 0.62 miles of additional side track have been laid, to accommodate the increasing freight traffic, at a cost of $6,984 17 per mile.

A new engine house, of 33 stalls, in course of construction at date of last annual report, at Rock Island, together with water tank, blacksmith shop, and storehouse, all of brick and stone, have been completed.

At Stuart, a machine shop, 150 by 100 feet, with a wing 32 by 29 feet, of brick and stone, has been built, to take the place of a temporary wooden building, together with the necessary storerooms for material, oil, coal, etc., etc.

A building, 100 by 36 feet, for the storage of stock and materials used and made at company's foundry in Chicago, has been erected.

New Hydrants, connecting with the Holly system of water works of the town of Lake, have been put in at Chicago shops, as further protection against fire. New passenger depots, of brick, with slated roofs, have been built at Joliet, Ottawa, and La Salle; and a new brick freight house, intended to accommodate the business of both La Salle and Peru.

Among buildings of lesser note that have been constructed, reconstructed, or enlarged, during the year, may be mentioned new depot and water tanks, at Commerce; new freight depot, at Avoca; freight depot rebuilt, Muscatine; enlargement of freight depot and office, at Des Moines; new grain house, at Green River; track scales, at Council Bluffs; addition to stock feeding yards, Geneseo etc., etc. New iron bridge over Stony Creek, near Blue Island; new six inch water pipe laid from artesian well, at Joliet, to depot grounds.

New machinery, required at Chicago, Rock Island and Stuart shops, has been furnished at a cost of $5,411 55.

Four thousand seven hundred and eighty nine tons of steel rail have been laid, and excess in cost over iron rails of same weight has been charged to construction.

The principal items of expenditures for repairs and renewal of track, have been as follows:

251,444 cross ties, costing		$76,237 82
4,789 gross tons Bessemer Steel Rails	$408,731 19	
Less am't charged construction	124,514 00	
		284,217 19
3,577 gross tons re-rolled iron rails		101 944 50
237,900 lbs. railroad spikes		8.688 25
470,836 lbs. fish bars and bolts		15,586 15
40,106 rails have been cut and repaired in company's shops, at a cost of		26,898 90

$50\frac{8}{10}$ miles of track have been relaid with steel rails.

38 miles of track have been relaid with re-rolled iron.

The company have at date of this report:

$16,791\frac{1450}{2240}$ tons of steel rail, and

$348\frac{497}{2240}$ tons of steel capped rail, laid in track.

Equal to $184\frac{8}{10}$ miles of steel track.

The gross earnings of the road during the year ending March 31, 1874, were $7,048,208 30; the operating expenses, $3,876,889 26; and the net earnings $3,171,314 04. During the fiscal year ending March 31, 1875, the earnings were $7,388,634 76; the expenses $3,856,329 61; and the net earnings, $3,532,305 15—showing an increase in earnings during the past over the previous year of $340,431 46, a decrease in expenses of $20,559 65, and an increase in net earnings of $360,991 11. The per centage of operating expenses in 1874-'75 was 47.84; including taxes and legal expenses, 52.19; against 55 in 1873-'74, 54.8 in 1872-'73, 50 in 1871-'72, 56.5 in 1870-'71, and 57.66 in 1869-'70.

The number of passengers transported during the year was 1,245,240, of which, 1,229,715 were first class, 7,111 second class, and 8,414 emigrant. Of the total number, 43,745 were through, and 1,201,495 way; 610,164 going east, and 635,076 west. Number of passengers carried one mile, 54,804,212; equivalent to carrying each passenger 44 miles. Average rate per passenger per mile, 3.061 cents; against 3.394 cents in 1873-'74, 3.596 cents in 1872-'73, 3.617 in 1871-'72 3.840 in 1870-'71, and 4.59 in 1869-'70. Average amount for each passenger, $1.35. The per centage of receipts during the past year has been: from passenger earnings, 22.70; freight, 71.63; express, mails, etc., 5.67. The gross earnings per mile of road operated were $10,954 24; expenses, $5,717 32; net earnings, $5,236 92. Earnings for each mile run by passenger train, $1.88.

The amount of freight transported during the year was 8,485,454,588 lbs.—an increase over the previous year of 636,687,929 lbs. Freight carried one mile, 287,913,578 tons—an increase over the previous year 38,390,177 tons. Average rate per ton per mile, 1.92 cents; against 2.07 cents in 1873-'4, 2.26 in 1872-'3, 2.49 in 1871-'72, 2.64 in 1870-'71, and 2.74 in 1869-'70. Earnings for each mile run by freight trains, $1.49\frac{1}{2}$.

The company owned at date of last report 215 locomotives; to which 2 have been added—making a total of 217. The company have also 12 sleeping coaches, 69 day coaches, 6 railway post office, 24 baggage, mail and express, 1 paymaster's, 2,408 box freight, 622 stock freight, 979 platform and coal, 85 caboose and drovers', 1 pile driving, 1 wrecking, and 40 gravel cars.

The number of miles run by passenger trains was 1,020,010; by freight trains, 3,540,287; by wood, construction and gravel trains, 303,568—total 4,863,860. Cost per mile run for repairs, oil, waste, fuel, and wages of engineers, firemen and wipers, 19.10.

Auditor.—F. D. SHERMAN.

Cashier.—W. G. PURDY.

Ass't Gen'l Superintendent.—A. KIMBALL.

Emlenton Narrow Gauge Railroad.

The newly chartered Emlenton Narrow Gauge Railroad has been organized by the election of the following named gentlemen as directors: James Bennett, J. C. Porterfield, R. W. Porterfield, M. Hulings, J. W. Rowland, H. E. Bradley, of Emlenton; Jacob Black, W. R. Shippen, of Shippenville; P. F. Kribbs, of Edenburg. James Bennett was elected President. The authorized capital stock is $150,000, in shares of $100 each. The route of the road will be from Emlenton, in Venango County, Penn., via Dogtown, Beaver, Edenburg and intermediate points, to Shippenville, in Clarion County. From thence the road can be extended to Clarion. The survey was commenced on the 21st of June. The road is to be completed in 100 days from the commencement of the work.

☞ The directors of the Atlantic and Pacific Railroad Company, recently elected, are: Andrew Peirce, Joseph Seligman, William H. Coffin, Andrew V. Stout, Clinton B. Fisk, Daniel R. Garrison, Thomas T. Buckley, James D. Fish, Cornelius J. Bergen, Henry F. Verbuven, James W. Elwell, George F. Stone, Eugene N. Robinson.

Erie Railway.

Two suits have been commenced against the Erie Railway Company, one is brought by J. C. Bancroft Davis, in which the Erie Railway Company, the Farmers' Loan and Trust Company, and James Brown are made defendants, to foreclose the fifth and supplemental mortgages; the other by the Farmers' Loan and Trust Company, as plaintiff, against the Erie Railway Company, and the Trustees of the fifth Erie mortgage, as defendants. In the first suit Davis sues as trustee of the fifth and supplemental mortgages, and charges that the old Erie Company carried four mortgages—the first, made in 1847, on which $2,488,000 is outstanding; the second, made in 1849, on which $2,852,000 is outstanding; the third, made in 1853, on which $4,852,000 is outstanding; the fourth, made in 1857, on which $2,927,000 is outstanding. Of the third and fourth of these mortgages the plaintiff Davis and James Brown were made trustees. The fifth mortgage, one of those to be foreclosed in this suit, is for $5,000,000, of which plaintiff and James Brown are also trustees, and on which $709,000 is yet outstanding Subsequent to this fifth mortgage, and in aid of it the other or supplemental mortgage embraced in this suit was executed and made to cover property to be acquired by the company in the future, but on which no bonds were issued. Though these mortgages were forelosed in 1869, it is now claimed by plaintiff that, by act of the Legislature they were revived and made a lien on the whole property of the present Erie Corporation. Default having been made in the payment of interest on both, plaintiff prays that the trustees thereof be awarded possession of the property of the Erie Railway Company, that a receiver be appointed, an account taken, a decree of foreclosure ordered, and such other or further relief granted in the premises as to the court may seem just. On account of his age, Mr. Brown, one of the trustees, declines to join in the suit, and is, therefore, made a defendant therein.

In the second suit, that brought by the Farmers' Loan and Trust Company, it is sought to foreclose the two consolidated mortgages dated respectively Sept. 1, 1870, and Feb. 4, 1874, of both of which plaintiff is Trustee. It is claimed on the part of plaintiff that $12,446,000 on bonds at seven per cent. is outstanding on the first four mortgages of the Erie Company, in the payment of the interest on which no default has yet been made; that on the fifth mortgage, one of those included in the preceding suit, there is outstanding $709 500, default in the payment of interest on which was made June 1; that the two consolidated mortgages on which this suit is brought cover the original road from Piermont to Dunkirk, built by the old Erie Company, forty two miles of which are in the State of Pennsylvania; the Jersey City branch, originally used under lease, but which is now a part of the main line to Dunkirk, extending 458.97 m. miles, the leases and leasehold interests of other lines making the entire line operated about 950.97 miles, including the Newburg branch, the Buffalo branch, New York and Pittsburg Railroad Company, the Rochester and Genesee Valley Railroad Company, and the Long Dock Company. The first of these mortgages in suit was made to secure $30,000,000, and each bond under it was dated Sept, 1, 1870, payable Sept. 1, 1920, and bearing gold interest at seven per cent. payable half yearly on March 1 and Sept. 1. Under such mortgage, bonds to the extent of $16,656,000 were issued, but on these the March interest has been paid. The second mortgage was made to secure the same amount as the first, of other and different bonds, to secure also $10,000,000 of bonds already issued, dated Jan. 1, 1873, payable Jan. 1, 1903, bearing seven per cent. interest, payable quarterly, and on which no default has yet been made. Of the $30,000,000, $15,000,000 in bonds have been issued, dated March 2, 1874, payable 1894, and bearing gold interest at seven per cent., payable in June and December of each year. Of this interest $553,190 40 was due on June 1, and default made in the payment thereof.

The complaint further recites the commencement of a suit in the name of the people of the State on the ground of Erie's insolvency, and the appointment of Mr. Jewett, its President, as Receiver, and alleges belief on the part of the officers of plaintiff in the insolvency of Erie as stated in the complaint in that suit. It further claims that the rights of the holders of bonds under these mortgages are superior to the rights of the people, and that they are entitled therefore to have the mortgages foreclosed and the road sold to protect them, and asks that a Receiver be appointed to protect their interests and for an accounting, and that Mr. Jewett, the present Receiver of the Erie Company, be appointed Receiver in this action, with proper modifications to protect the bondholders.

Mr. Dorman B. Eaton put in an answer on behalf of the bondholders under a mortgage of the Buffalo, Bradford and Pittsburg Road, in which he claims that the bonds of that road are substantially Erie bonds, having been largely exchanged therefor and guaranteed by the company, and asks the protection of the court for the bondholders under the mortgage of that road.

In response to the prayer for the appointment of Mr. Jewett as Receiver in these suits, Judge Donohue has made an order to that effect, the text of which is in full as follows:

I. That the authority of Hon. Hugh J. Jewett, now by him possessed to operate the road and lines of the defendant, the Erie Railway Company, and so forth, as Receiver of the same, be also possessed by him in this suit, and as Receiver under the two mortgages mentioned in the complaint in this suit so far as the same affects the mortgaged property rights, or franchises therein mentioned.

II. That for the special protection of those secured by said mortgages in their legal and equitable rights, said Jewett is hereby appointed Receiver of the roads, property, real and personal, leases, title deeds, books and contract rights, tolls, income, and franchise, mentioned in or covered by either of said mortgages or upon which either is a lien; and that as such Receiver he is hereby authorized (1) to demand, receive, and enforce possession of whatever he is hereby appointed Receiver. (2.) To run and operate the road and lines of the company. (3.) To preserve in possession and keep in good condition and repair said road and property and protect title, and that he pay interest as it becomes due on bonds secured by mortgage prior to said fifth mortgage. (4.) To employ and pay such persons as he may find reasonably necessary, and to dismiss the same. (5.) To make and enforce appropriate contracts for limited periods, which shall be adopted to promote the efficient and economical operation of the said roads. (6.) To adjust and pay taxes, assessments, charges, rents, and ticket and freight balance and other expenses. (7.) To take and institute as he may deem needful whatever suits or proceedings he may, by counsel, be reasonably advised to be necessary and proper in the appropriate discharge of his duty as Receiver, and defend and resist any suit or proceedings which he shall deem advisable. (8.) To do such acts and make such payments as may be necessary to preserve the corporate existence of the Erie Railway Company.

III. That said Receiver file a bond (for faithful discharge of his duties) in the sum of $500,000, with sureties approved by a Justice of this court.

IV. That as soon as practicable after entering upon the discharge of his duty, the Receiver file an inventory under oath, giving a correct and adequate description, as he may be able, of all property, rights, and franchises covered by said mortgages, or either of them.

The order then directs that the Receiver shall keep proper accounts, as directed in the order appointing him Receiver of the Erie Railway Company, and that James C. Spencer be appointed Referee to pass his accounts from time to time.

Mr. Jewett has already qualified as such Receiver, by filing a bond in the sum of $500,000.

European and North American Railway.

At a meeting of the creditors of the consolidated European and North American Railway in Bangor, Me., on the 25th ult., the treasurer presented a report of the financial condition of the Company, showing the funded debt to be $4,768,000, and all other indebtedness $1,461,749. The assets are two hundred and six miles of railway, in good condition, and equipments costing $668,216; real estate in Bangor and St. John, $215,897; a grant of about 600,000 acres of land from the State of Maine; other assets, $123,000. The Piscataquis branch is not included in this statement. The Superintendent and roadmaster reported the road and rolling stock in good condition. The Chairman of the Board of Railroad Commissioners, made a highly favorable report of a recent examination of the line—the bridges, track, etc., being in good condition.

On motion, the following committee as appointed to investigate the condition of affairs and report thereon: Thomas H. Egery, George Stetson of Bangor; Asa Faunce, of Belfast; A. P. Gould, of Thomaston; John I. Berry, of Rockland; Isaac Benson, of St. John; G. E. B. Jackson of Portland; John Wooldredge, of Boston.

The committee were authorized to fill vacancies and to report a plan for the action of the creditors. The best of feeling was manifested at the meeting and the exhibit of the company's affairs was regarded as much more favorable than was anticipated.

The general feeling seemed to be that of confidence in a satisfactory adjustment of the difficulties by which the ultimate discharge of all liabilities may be assumed.

There are unsold $250,000 of first mortgage bonds of the Western Extension and $1,000,000 of bonds of the Consolidated Company unsold and pledged for security of the floating debt. The company has also assumed purchase of the Piscataquis branch, about sixty miles, conditional on certain payments. The liabilities on account of the branch are $814,000. Bonds are issued and a note to the city of Bangor for $65,000 on twenty years. There are $200,000 of second mortgage Piscataquis bonds unsold.

The Treasurer stated that the floating debt had increased $850,000 since January 1, 1875, and that the receipts of the business for eighteen months had only lacked that much of paying all the expenses and interest on the whole debt. It is said the bills due the road would meet the dues to employes, etc., not now on the books. The gross earnings of the road and the Piscataquis branch for 1874 were $724,000. Of the floating debt $260,000 is held in England, and various amounts are held by banks and individuals in Bangor, Thomaston and vicinity, Belfast, Portland, Waterville and St. John. These loans are principally secured by collateral bonds and by the personal indorsement of prominent members of the company and others. The city of Bangor holds a first mortgage for $1,000,000 on the line between Bangor and Mattawamkeag. The second mortgage is on the whole line in Maine and the granted lands, and there is also a first mortgage on the line in New Brunswick. These mortgage bonds are all accounted for in the statement of the bonded debt. Another meeting of the creditors will be called as soon as the committee are ready to report.

The Oregon Central and Oregon and California Railroads.

A letter to the Sacramento Record Union, dated Salem, Oregon, June 7th, says:

It has long been evident that Holladay's railroads were not a great profit to him. He has been troubled to pay the interest, and the German bondholders, when their stock was only worth seventeen cents on the dollar, lowered the rate of interest from seven to two and a half per cent., and even then he was unable to meet the payments. To secure these payments it was understood that he pledged his steamer line between Portland and San Francisco, and we now hear that a transfer has been made of the East Side railroad to the German bondholders, who now have entire possession and control. Rumor has it that they negotiated in the trade for all his property, town sites, warehouses, etc., on the line of the road, and paid him $700,000 for his steamer line and that property. The East Side road referred to above, is completed to Roseburg, 200 miles, and is known as the Oregon and California Railroad; the West Side road is known as the Oregon Central Railroad. The stockholders of this latter road, who live in Oregon, with the aid of its Secretary, made a *coup d'etat* the other day, claimed entire possession, denied that Ben Holladay had any stock of amount, "jumped the claim" and elected their own Board of Directors. This leaves Holladay very little interest in Oregon affairs.

California Pacific Railroad.

The Marysville Appeal of June 17th says that the Central Pacific Railroad company have given orders to at once fix up the California Pacific Railroad from Marysville to Sutter station, and then adds:

To day the work will be begun, and on the 12th of July the stockholders are to have a meeting at the Secretary's office in San Francisco, where action will be taken as to the permanent rebuilding of that portion of the road between Knight's Landing and Sutter Station. From the information we have received, we predict that before another year has come and gone the Vallejo route, between this city and San Francisco, will be in full operation for both freight and passenger traffic. If our heavy men here have any interest in having this road rebuilt, now is a favorable opportunity to extend some encouragement towards getting right of way, in order to enable the company to make one central depot for all their business, which may not only be an advantage to them, but an ornament to our city. The rebuilding of this road would doubtless tend to largely increase the business of every merchant in this city. Two railroads and a regular line of steamers ought to greatly increase the importance of Marysville as a desirable business point for the present large emigration from the Atlantic and Western States.

Boston and New York Air-Line Railroad.

The new Boston and New York Air Line Railroad Company was organized at Middletown, Ct., on the 24th ult., $1,700,000 of the $3,000,000 of the whole loan being represented. Samuel S. Sands of New York was chosen President, H. B. Hammond of New York, General Manager, D. B. Hatch of New York, Secretary and Treasurer, and the three above mentioned, and R. Ellery Anderson, Chas. Dana and Ripley Ropes, Executive Committee. It was voted that the new $500,000 mortgage loan should be offered to the stockholders first, and when put on the market should not be sold at less than 95 per cent. The office of the road is to be at Middletown, Conn.

☞ At the annual meeting of the Camden, Gloucester and Mount Ephraim Railway Company, held at the office of the company, in Gloucester City, N. J., on the 29th ult., the following gentlemen were elected directors for the ensuing year: James P. Michellon, David S. Brown, Zapher C. Howell, Henry N. Paul, Wm. Sexton, George A. Heyl, Samuel Chew, Frederick P. Pfeiffer, James E. Hays, F. F. Michellon, Henry F. West, John R. Grubb, Edmund Hoffman. At a subsequent meeting of the Board the following were elected officers for the ensuing year: President, James P. Michellon; Secretary and Treasurer, F. P. Pfeiffer; Solicitor, James E. Hays.

☞ The Chicago, Milwaukee and St. Paul Railway Company have filed in the office of the Secretary of State of Wisconsin a mortgage deed to the Farmers' Loan and Trust company, of this city, conveying the entire property and franchises of the company, consisting of 1400 miles of railroad, fully equipped, a number of grain elevators, and four bridges across the Mississippi river, in trust to secure the payment of $35,000,000, of which $7,000,000 may, at the option of the railroad company, be 6 per cent gold bonds, the remainder to bear interest at 7 per cent United States currency.

☞ The Hudson River Bridge Company has been re organized with John F. Winslow, of Poughkeepsie, as President. The financial committee has been instructed to send to the principal bridge constructors for proposals for a bridge across the Hudson at that place, and also to open books of subscription in all the principal towns and cities along the proposed new route from the East to the coal fields. It is intended to raise $1,000,000 by subscription, when the work of building the bridge will be commenced.

☞ At a meeting of the directors of the Baltimore City Passenger Railway Company, held on the 23d ult., it was decided to declare a dividend of one dollar per share, payable July 10. This is equivalent to four per cent for the past six months. A dividend of $1 50 per share was paid in February last. It was determined to put the road in perfect order, which will require two hundred tons of new iron rails.

Jersey Shore and Pine Creek Railroad.

A dispatch from Williamsport, Penn., says the New Jersey Shore and Pine Creek Railroad Company are pressing their road to a speedy completion. The road between Williamsport and Jersey Shore will be in regular running order by the end of July. From the State line to Buffalo the road is now working, and when the connection is made from Jersey Shore to the State line there will be direct communication, via the Philadelphia and Reading railroad, with Buffalo and the lakes. The Philadelphia and Reading Company have leased the Catawissa railroad, and their route is expected to secure to Philadelphia the "bulk of the trade" from the West.

☞ It is said that in future all concessions of new lines in Russia will be dependent upon the following revised conditions:—1st. The share capital is to receive a guarantee of 3 per cent. only, dating from the opening of the line. 2nd. The share capital is to be paid up to the full nominal value of the shares, without any allowance for commission to the bankers who may bring out the scheme. 3rd. The option of repurchase by the Government is to be fixed at 10 instead of 20 years. 4th. The line is to become the property of the State after 49 years, in lieu of after 81 years, as at present.

☞ The Oil City (Penn.) Derrick of June 22, says that a charter for a narrow gauge railroad from Clarion to Emlenton has been granted, and $75,000 already subscribed, and then adds: "We had hoped that Oil City would be the terminus of this road, and believe that it will be a serious loss to our place. Since Oil City cannot have it, however, we will congratulate Emlenton and its enterprising citizens on receiving so important an addition to the future prosperity of that village."

☞ An application was filed in the United States Circuit Court before Judge Shipman on the 29th ult., asking such modification of the order of sale in the foreclosure suit against the Northern Pacific Railroad Company as will give the claims of first mortgage bondholders precedence over all others. It is understood that there will be no opposition to the motion, and that it will be substantially granted in a form providing that only a few prior liens, such as taxes, &c., shall take precedence.

☞ At the annual meeting of the stockholders of the Michigan Central Railroad Company, held in Detroit on the 28th ult., the following gentlemen were unanimously elected Directors: James F. Joy, Detroit; Moses Taylor, John Jacob Astor, George F. Talman and Samuel Sloan, New York; Nathaniel Thayer, John W. Brooks, H. H. Hunnewell and Sidney Bartlett, Boston—being the present Board, with the exception of Mr. Sloan in place of Erastus Corning of Albany.

☞ The Postmaster General has issued an order directing that the fee for registering a letter mailed at any post office within the United States, addressed to any post office in the United States, or to a foreign country, be fixed, on and after July 1, 1875, at the uniform rate of 10 cents, in addition to the regular letter postage, to be fully prepaid by postage stamps affixed to such letter, and cancelled at the mailing office.

American Railroad Journal.

Saturday, July 3, 1875.

Financial and Commercial Affairs.

With more favorable advices in the financial and commercial lines from England, and generally very encouraging domestic crop reports, the feeling in money circles here is much more confident, and the prospects of a large and profitable fall trade are now considered very good. Money in the local market has been comparatively easy on call at 1¼@8 per cent; and in the discount line, accommodation has been quite promptly afforded within the range of 8¼@6 per cent per annum on the very choicest to strictly good grades of mercantile paper. There has been no special urgency in the demand from any responsible source for pecuniary aid. Lenders have been generally liberal in their offerings of Money at current quotations to the more prominent Street houses. The City Banks have added about 1¼ millions to their loan and discount averages. They gained, during the week, largely in the legal tender line, and handsomely also in that of deposits. Their specie hoard, however, was materially reduced, as was also that of the U. S. Sub Treasury, which office reported an increase in its currency balances. The Secretary of the Treasury has ordered the sale of $5,000,000 of Gold, in the coming month of July—one million on each Thursday of the month—beginning with Thursday July 1. The payment of the July interest on the Public Debt, without rebate, was begun on Monday, June 28, under instructions from Washington. The reports from London are of further additions to the bullion reserve of the Bank of England. The July disbursements here on interes and

dividend accounts will make a very large aggregate, and will greatly increase the floating supply of investment seeking funds. The City Banks last week further augmented their reserve of legal tender notes $2,591,300, and their deposit item $1,699,900, while reducing their specie average $2,806,800. They report an increase of $1,490,300 in the loans and discounts, and a falling off of $125,500 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $52,484,748 against $51,297,803, the preceding week; and a coin hoard of $40,930,291 against $46,635,351 on the previous return. The City bank exchanges in currency during the week, were $424,699,407, or a daily average of $70,783,234. The customs revenue of the port, during the week, was $1,450,000. The City banks reported their average of gold last week at $8,847,000, and their greenback average at $71,491,500. Their deposits stood at $253,768,000. The loan item was $276,707,800. The circulation was $19,016,500.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $21,396,500.

The aggregate of the outstanding U. S. currency, of all denominations, June 1, was $421,257,541. The outstanding amount of legal tender notes is $375,771,580. The National bank circulation is now $349,402,839, including $2,499,100 of national gold bank notes.

The U. S. Treasury balances on Wednesday were as follows: Currency, $4,149,066; special deposit of legal tenders for redemption of certificates of deposit, $57,495,000; coin, (including $18,657,900 in coin certificates,) $69,970,060.

The week's import entries of Foreign Merchandise at New York, were $6,934,666, and included of dry goods $1,248,414.

The income of the Government from internal revenues in the fiscal year, commencing with July 1, 1874, to June 28, 1875, was 109½ millions, pointing to a weekly average which would make the aggregate for the whole of the fiscal year now closed, about 111 millions.

The specie exports from San Francisco, Jan. 1, to June 10, were $20,710,060, against $11,451,512 same time last year.

The Comptroller of Currency on Monday advised the Secretary of the Treasury of the issue of $1,615,525 of National Bank currency since May 27, upon which 80 per cent. of legal tender notes will be retired as provided by law. The whole amount of additional bank circulation issued to date since the passage of the act of January 14, 1875, is $7,785,525. The outstanding legal tenders during July will be $375,771,580.

Gold has been maintained with firmness as to price, though less activity has been noted in the dealings, especially on speculative account. The export drain has been moderate, and the customs call, limited. The extremes of the week have been 116⅞@117⅛, closing on Wednesday at 117 as against 117⅛ on Wednesday of the preceding week. The specie outflow last week was only $1,901,918 against $6,236,979 the previous week. The imports of specie at this port since Jan. 1, have been $6,886,680, against $2,487,424 same time last year. The customs demand for Gold last week averaged $241,667. Foreign Exchange has been less active, with Bankers' sixty day bills on London closing rather weak on Wednesday, and a shade easier at $4 86⅛@$4 87½; sight bills on London at $4 89⅛@$4 90⅛ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,218,653. The week's imports of Dry Goods and general merchandise were to the specie value of $6,934,666 against $6,647,571 same week last year.

Government Securities have been in good demand on investment account, at generally firmer prices. State and Railway bonds have been in moderate request, with values ruling steadier. And in the line of Railway and Miscellaneous share property, an active business has been reported, and the market has been quoted stronger, and buoyant toward the close.

U. S sixes of 1881 closed on Wednesday of this week at 126¼@126⅛; U. S. Five-Twenties of 1862, at 118⅜@118½; U. S. Five-Twenties of 1864 at 118¾@119; U. S. Five-Twenties of 1865 122¼@122½; U. S. Five-Twenties of 1865 consolidated, 123⅞@124; U. S. Five-Twenties of 1867, 125¼@125⅛; U. S. Five-Twenties of 1868, 125@125⅛; U. S. Ten-forties at 119⅛@119⅜; U. S. Fives of 1881,(Funding Loan) 118⅝@118⅞; Six per cent. currency Sixes from 122½@122¾.

General business has been more animated, chiefly in the line of domestic produce. Bread stuffs have been in more request, in good part for export, closing more firmly and buoyantly. Provisions have been unsettled as to price, on free dealings in Hog products, especially in Lard, and Pork. Groceries have been irregular, with an active movement reported in Coffee, and a limited business in Sugars, Molasses, and Teas. Hides, Skins, Fruit Petroleum, and Naval Stores have been more sought after at about previous quotations. Leather, Wool, Tobacco, Hops, Seeds, Hardware and Dry Goods have been comparatively quiet. The inquiry for Metals has been more active, especially for Iron and Steel Rails, and for Pig Lead, with rather more firmness noted as to values. Eglinton Pig Iron quoted at $30@$31; Glengarnock, $31@$33; Coltness, $30@$32; No. 1 American Pig at $26@$28; No. 2 do. at $24@$26; Forge, $21@$25; English Rails at $48@$50, gold; American Rails at works, $48@$50; Old Rails, $26@$27. Wrought Scrap, $28@$32. Ocean freights have been more active, and at the close, stronger for Grain and Petroleum.

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

Baltimore and Hampden Railway.

At a meeting of the stockholders of the Baltimore and Hampden Passenger Railway Company, held in Baltimore on the 26th ult., the following gentlemen were elected directors: David Carroll, R. J. Capron, Henry Mankin, Albert Carroll, H. W. Rogers, L. L. Conrad, and John W. S. Brady. Subsequently Albert Carroll was elected president, Wm. M. Boone treasurer, and H. W. Rogers secretary, Messrs. Capron, Conrad, Mankin, and Rogers were appointed an executive committee, who, with the president, were empowered to place the road under contract and have it completed within the shortest possible time.

☞ The Chicago, Saginaw and Canada Railroad company have commenced laying iron on their track west of St. Louis, Mich. By the terms of the contract, 12 miles are to be laid by July 12, which will complete the road to Elmhall.

☞ The earnings of the Philadelphia and Erie Railroad in May, 1875, were $216,125 22, the expenses $201,412 48, and the net earnings $64,712 74.

Peoria and Rock Island Railroad.

According to the report of J. R. Hilliard, Receiver, for the months of April and May, filed in the U. S. Circuit Court, it appears that the cash on hand April 1 was $12,201 60, and the receipts for the month of April $21,265 17, making a total of $33,466 77. The disbursements during the same month were $22,117 58 leaving a balance of cash on hand April 30, of $11,349 19. The receipts during the month of May were $31,389 34, which added to above balance, makes a total of $42,738 53. The expenditures for the month of May were $33,577 51, leaving a balance of cash on hand May 31, 1875, of $9,161 02.

☞ The following gentlemen have been elected directors of the Worcester, Md., Railroad Company: J. R. Franklin, E. K. Wilson, G. W. Covington, Thomas D. Purnell, G. C. Townsend, and Wm. Showell, of Worcester county; Edward R. Bell, N. L. McCready, Henderson Moore and A. H. Bourne, of New York; and Charles Stockley, of Georgetown, Del. L. G. W. Bishop was re-elected president, Thomas D. Purnell secretary and treasurer, and Mr. Covington attorney.

☞ At the annual meeting of the stockholders of the Shore Line Railway Co., in New Haven on the 29th ult., the following named gentlemen were elected: Hon. S. B. Chittenden, President; Samuel Hemingway, Vice President; Wilbur F. Day, Secretary, Treasurer, and Transfer Agent. A dividend, payable on and after July 8, was declared.

☞ The mortgagee's sale of the Vermont Central Railroad, which was advertised to take place at Montpelier, Vt., on the 22d ult., was adjourned till Aug. 31. This action was based upon the fact that the United States has not acted upon certain legal questions in the matter brought before it.

☞ D. McCargo, formally assumed the duties of Superintendent of the Allegheny Valley Railroad on the 23d ult. The offices of the Oil Creek and Allegheny River Railroad, of which he is Receiver, have been removed to Pittsburg.

☞ The contract for construction of water works for Staunton, Va, for the sum of $90,000, was awarded to F. H. Hambleton, consulting engineer, of Baltimore.

☞ The gauge of the Intercolonial Railway from Halifax to St. John, and Halifax to Truro, has been changed to correspond with its connecting lines—4ft. 8½ in.

☞ The Market Street (Philadelphia) cars are now running direct to the Centennial buildings, Fairmount Park, over the newly opened branch of that line.

☞ A narrow gauge railway from Bellaire, Ohio, through St. Clairsville and Cadiz to Lake Erie is proposed.

☞ Charles N. Lee has been appointed General Superintendent of the Hannibal and St. Joseph Railroad.

☞ A new railway from Eau Claire to Chippewa Falls, Wis., is about to be opened.

☞ The railway between Vera Cruz and Jalapa was opened for traffic on the 15th ult.

☞ The track of the Southern Pacific Railroad is laid twelve miles beyond Spadra.

Contractor's Lien.

DECISION OF THE UNITED STATES SUPREME COURT.

In the case of Sidney Dillon, appellant, vs. George M. Barnard *et al.*—appeal from the Circuit Court for the district of Massachusetts—Mr. Justice Field delivered the opinion of the Court:

The Boston, Hartford and Erie Railroad Company, a corporation existing under the laws of Massachusetts, Rhode Island, Connecticut, and New York, and authorized to construct and maintain a railway between certain designated points in those States, on the 19th of March, 1866, by its indenture of mortgage of that date, conveyed to Berdell and others all its railways, rights, privileges, and franchises, and all its property then owned or thereafter to be acquired, to be held by them and their successors in trust, upon the terms and for the purposes set forth in the indenture. This mortgage was authorized and ratified by the laws of the several States mentioned. A copy of the instrument is annexed to the bill. The object of its execution was to secure certain bonds of the company in sums of $1,000 each, to the amount of $20,000,000, to be thereafter issued and disposed of to raise the funds required to provide for and retire all the then existing mortgage debts and prior liens upon the line of its road and to complete and equip the road, and to lay down a third rail thereon. The road was then only partially constructed, and in its existing state was of less value than the amount of the bonds proposed to be issued. The company, however, expected that, upon its completion, the roads would be of great value and afford ample security for the bonds. To induce parties to purchase the bonds under these circumstances, it was essential to give them satisfactory assurances that the moneys received should be honestly applied to the purposes declared. The indenture, therefore, which was drawn with great skill and care, contained several covenants on the part of the company intended to inspire confidence in such application, and create safeguards against the misuse of the moneys. Among others were these: First, that of the bonds issued there should be retained in the hands of the Trustees such portion as would be equal to the whole amount of the bonds and mortgage notes outstanding, from time to time, as a lien upon any of the property or franchises conveyed, to be delivered to the company only on the cancellation of a corresponding amount of such outstanding bonds or mortgage notes; and, second, that the expenditure of all sums of money realized from the sale of the bonds should be made with the approval of at least one of the Trustees, and that his assent in writing should be necessary to all contracts made by the company before the same should be a charge upon any of the sums received from such sales.

In October, 1867, the plaintiff entered into a contract with the corporation for the construction of a portion of its railroad at certain specified rates of compensation, the work to be commenced on the 1st of December, 1867, and completed on the 1st of June, 1869, payments to be made monthly of ninety per cent of the work done, as estimated by the engineer of the company, the remaining ten per cent to be retained until the final completion of the work. This contract was approved and assented to in writing by two of the trustees under the mortgage. A copy of the contract is annexed to the bill. Under this contract the plaintiff performed a large amount of work, all of which was accepted by the engineer of the company in charge, but for only a portion was the plaintiff paid. There is now due to him for this work over $1,000,000, with interest from the 1st of January, 1870.

A large amount of money was received by the company from the sales of the bonds issued, more than sufficient to pay the amount due the plaintiff, but instead of being thus appropriated, it was expended in acquiring new property, to be held under the mortgage, and in improving and increasing the value of the property then and since in the possession of the Trustees. Subsequently, on the petition of a creditor, the company was adjudged bankrupt by the District Court of the United States for the District of Massachusetts, and in March, 1871, its property and effects, except so far as held by the Trustees under the mortgage indenture, passed to assignees appointed in the proceedings in bankruptcy.

In August, 1871, new Trustees under the mortgage, as successors of the original Trustees, took possession of the mortgaged premises, and now hold the same for foreclosure. The corporation was insolvent at the time the debt to the plaintiff became due, and had no funds or property from which that debt could be satisfied, except such as was then claimed under the mortgage, and is now held by the Trustees or Assignees. The plaintiff, therefore, brought the present suit against the new Trustees under the mortgage, and the Assignees in bankruptcy, to charge the property held by them with the amount of his demand remaining unpaid for work done under his contract with the company.

In support of his pretension he insists that under the indenture his contract, when it obtained the assent of two of the Trustees, became a charge upon the moneys received by the corporation from the sale of the bonds; that the Trustees under the mortgage and the corporation thereupon became Trustees for his benefit of the proceeds thus received, and were bound to apply them to pay his debt; that by their failure to have the proceeds thus applied, and by expending them in acquiring new property and improving that already possessed, the charge upon the proceeds became attached to the property in the hands of the Trustees thus added to and improved; and that this charge is entitled to preference over the lien of the bondholders. Upon these facts the court hold, in substance, as follows:

A demurrer to a bill in equity does not admit the correctness of averments as to the meaning of an instrument set forth in or annexed to the bill. To create, for future services of a contractor, a lien upon particular funds of his employer, there must be not only the express promise of the employer to apply them in payment of such services, upon which the contractor relies, but there must be some act of appropriation on the part of the employer relinquishing control of the funds, and conferring upon the contractor the right to have them thus applied when the services are rendered. In an indenture of mortgage, executed by a railroad corporation to Trustees to secure bonds issued to raise moneys to pay off its existing indebtedness and to complete and equip its road the corporation covenanted with the Trustees, among other things, that the expenditure of all sums of money realized from the sale of the bonds should be made with the approval of at least one of the Trustees, and that his assent in writing should be necessary to all contracts made to the company before the same should be a charge upon any of the sums received from such sales. Held that a contractor agreeing with the corporation to construct a portion of the road, and obtaining the assent of two of doing the work, did not acquire any lien for the Trustees to his contract, and subsequently the payment of his work, under this covenant of the indenture, upon the funds received by the corporation from the bonds.

Cannon vs. Curiass.

An experiment made in Herr Krupp's artillery grounds at Dulmen, in Prussia, seems to threaten the future of curiassed vessels. Hitherto, it is well known, the solidity of the cuirass has pretty well kept pace with the calibre of the ordnance destined to do the work of destruction. By a felicitous idea, however, the force of the cannon has now been quadrupled. The invention, if so it may be called, consists in directing four guns towards the same spot, and firing them simultaneously by electric ignition. To test this new method a target was constructed by Herr Krupp, consisting of two ten inch plates, a wooden layer 200 milimetres thick, two six inch plates, and another layer of wood 200 millimetres thick, the whole lined by an iron layer one and one half inch thick. At a distance of 200 metres from this target were placed four twenty six centimetre cannon, the calibre of which may be imagined from the fact that each requires forty two kilos, of prismatic powder. The first simultaneous discharge of the four guns, which were loaded with long cubic grenades, tore away large pieces of the iron plates, and so shook the target as essentially to diminish its resisting power. Other discharges seem to have had an even more destructive effect. As the power of the German breech loading gun is greatest at 400 metres, at which distance the naval engagements of the future are likely to open, the Dulmen experiment is supposed by some to have decided the long pending controversy of cannon versus cuirass.

The Coal Trade.

The anthracite production for the week ending on the 19th ult, as reported by the Philadelphia *Ledger* was 341,825 tons, and for the year 5,989,446 tons, against 8,768,991 tons to corresponding date last year, a decrease of 2,779,545 tons. The bituminous tonnage for the week was 93,339 tons, and for the year 1,427,309 tons, making a total of all kinds for the week of 435,-164 and for the year of 7,416,766 tons, against 10,140,113 tons to same time last year, a decrease of 2,723,358 tons. Prices of coal are nearly steady and not unreasonably high. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 170,739 tons, and for the year 1,587,554 tons, of which 1,331,119 was coal and 266,245 coke. This embraces all the coal carried both east and west. At Port Richmond for the week ending the 26th ult. there were receipts of 40,000 tons of coal, shipments of 30,000 tons, leaving 20,000 tons on hand. The *Ledger* adds:

The Philadelphia Coal and Iron Company have issued the following circular of the prices of coal delivered on board of vessels at Port Richmond, Philadelphia, for the month of July: Lump, $4 50; steamboat, $4 60; broken white ash, $4 70; red ash, $4 90; Lorberry, $5 60; and Lykens' Valley, $6 25. Egg—Red and white ash, $4 85@4 95; Shamokin, $5; Lorberry, $5 60, and Lykens' Valley, $6 25. Stove—Red and white ash, $5 30@5 35; Shamokin, $5 30; Lorberry, $5 60, and Lykens' Valley, $6 25. Chestnut—Red and white ash and Shamokin, $4 30; Lorberry, $4 60, and Lykens' Valley, $5 45. All the collieries that are in a condition to work will be in operation in the course of the week. The following shows the loss and gain from the different regions since the strike commenced: The Schuylkill region loses, as compared with last year to the same time, 1,404,826 tons, and the Lehigh region 1,507,-048 tons. The Wyoming and Lackawanna regions increase by the same comparison 888,580 tons, the Shamokin 67,670 tons, the Lykens, Valley 20,281 tons, and the bituminous coming seaward 56,187 tons, making a net decrease of 1,879,236 tons.

Cincinnati Industrial Exposition.

We have received copies of the Report of the Board of Commissioners of the Fifth Cincinnati Industrial Exposition, for 1874, and Rules and Premium List for 1875. The former volume contains about 350 pages, furnishing a record of entries of articles at the Exposition last year, awards of premiums, reports of tests of machinery, &c., affording to machinists and manufacturers much interesting information. The Premium List for 1875 covers 87 classes of articles, arranged into 16 departments, introducing many new and important features. These exhibitions are in no way identified with individual enterprise, but are carried on under the auspices of the Board of Trade, the Chamber of Commerce and the Ohio Mechanics' Institute, being managed by representatives of these organizations, for the advancement of the interests of Manufacturers, Products and the Arts. The Boards of Commissioners have been composed of zealous and public spirited citizens, and through their labors these exhibitions have enjoyed the highest degree of success from their commencement, and stand foremost in the country. The coming Exposition will open to the public on Wednesday, September 8, and close on Saturday, October 9. Articles for exhibition will be received from August 2 to September 7. Applications for space should be made as early as possible. Premium Lists and any information desired will be furnished on application to Frank Millward, Secretary.

Testing Iron and Steel.

The new law relative to the tests of iron and steel went into operation on the 1st inst. For the purpose of carrying out the practical tests machines of great power are being manufactured by which the tensile strength of the iron and steel used in steamboats may be ascertained. All steamboat inspectors will be able to have the use of these machines, as one is to be supplied to each Inspector in each district. The manufacturer is obliged by the new law to send samples for testing to the General Inspector, by whom the test will be superintended. The mark of the manufacturer will be recorded by the local inspector and the test will show whether or not the mark of the manufacturer is correct. A report of all the tests will have to be made at the close of the year at the annual meeting of the Board of Inspectors of Steamboats. Under the new act a manufacturer is allowed to mark his goods according to the test he himself applies, but the exact strength of the iron or steel will be known after the Government test has been applied, and, in reference to boiler iron, the tests are to be particularly observed before being applied for that purpose.

☞ The Western North Carolina railroad was sold at Raleigh on the 23d ult., and bought in by Judge Merrimon at eight hundred and twenty five thousand dollars for his clients, who had a large debt against the company. Gov. Brogden and his commission took the road for the State at Judge Merrimon's bid.

☞ The Sinking Fund Commissioners of the State of Ohio have forwarded to New York $288,-883 11, to pay the July interest on the funded debt of the State.

HUDSON RIVER CEMENT WORKS,

Manufactory at Kingston, N. Y.

(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

H. M. Brigham, KINGSTON, N. Y. **J. H. Butts, Ag't, 95 LIBERTY ST., N. Y.**

DELAFIELD & BAXTER CEMENT COMPANY,

MANUFACTURERS OF HIGH FALLS ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

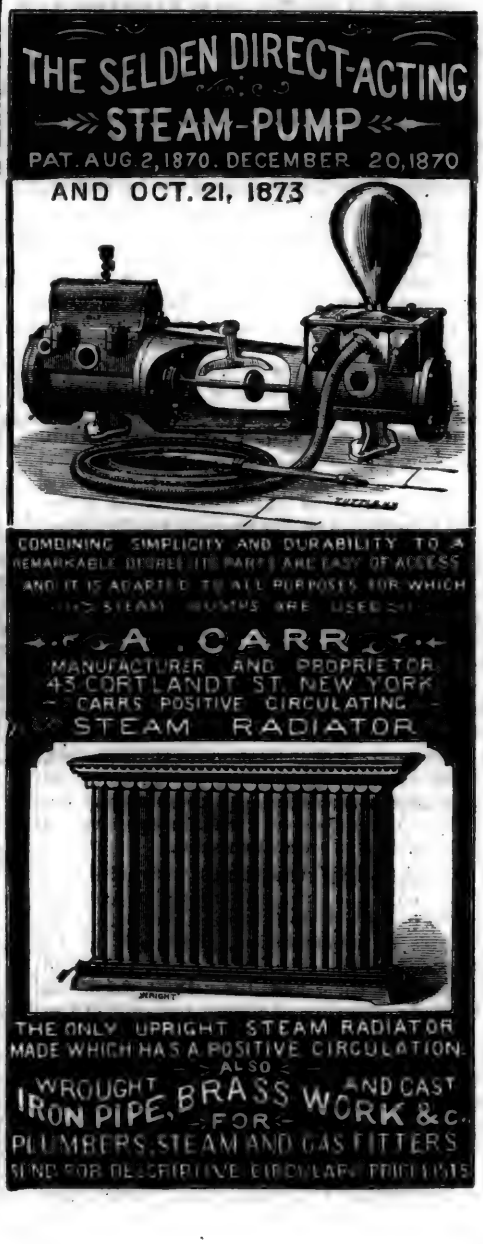
THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT**, (equal to any) put up in new barrels made by themselves, and well papered, and average 300 lbs. Cement to each barrel.

J. B. JAMES, President.
W. G. JAMES, Treasurer.
41 Dey Street, New York.

LAWRENCEVILLE CEMENT COMPANY.

ROSENDALE HYDRAULIC CEMENT.



This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York.

This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

Interest and Dividends.

Coupons on the Second Mortgage Bonds of the Pacific Railroad (of Missouri) due July 1, 1875, will be paid at the National Bank of Commerce.

The regular quarterly dividend of one and one quarter per cent on the capital stock of the Pacific Railroad (of Missouri) will be paid on the 20th inst. at the office of the Atlantic and Pacific Railroad company, No. 3 Broad st.

Messrs. M. K. Jesup, Paton & Co., No. 52 William St., New York, will pay the coupons due July 1, 1875, on the following bonds:

Chicago and Alton Railroad First Mortgage.

St. Louis, Jacksonville and Chicago Railroad Second Mortgage.

Joliet and Chicago Railroad First Mortgage.

Dubuque Southwestern Railroad Preferred First Mortgage.

Dubuque and Sioux City Railroad First Mortgage.

Charlotte, Columbia and Augusta Railroad First Mortgage.

Columbia and Augusta Railroad First Mortgage.

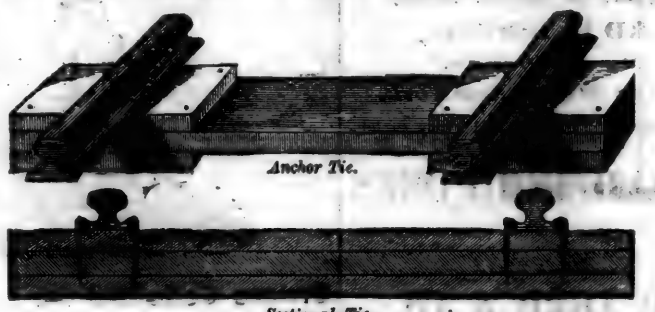
Charlotte and South Carolina Railroad First Mortgage.

Atlantic and Gulf Railroad Consolidated Mortgage.

Coupons on the South Pacific Railroad company's First Mortgage Bonds, due July 1, 1875, will be paid at the office of the Atlantic and Pacific Railroad Company, No. 3 Broad st.

Coupons on the Land Debenture Bonds of the Atlantic and Pacific Railroad Company, due July 1, 1875, will be paid at the office of the company, No. 3 Broad st.

Interest Coupons of the Jefferson Railroad Company and of the Newburgh and New York Railway Company and the semi annual dividend on the outstanding capital stock of the Rochester and Genesee Valley Railroad Company, due July 1, 1875, will be paid on and after that date at the office of the Treasurer of the Erie Railway Company.



The coupons of the Carolina Central Railway Company due July 1, 1875, will be paid in gold at the office of the Treasurer, No. 4 Broad street.

The Schuylkill Navigation company have declared a dividend of sixty cents per share on the Preferred Stock, and thirty cents per share on the Common Stock of the Company, payable in scrip to the stockholders as registered, July 1, 1875, clear of taxes, on the 19th day of July, 1875. Said scrip will be convertible into the six per cent. Mortgage bonds of the Company of the years 1872-1897, on and after September 4, 1875, in sums of $100 and upwards. Scrip of ten dollars and under will be paid in cash on the 19th day of July, 1875.

Holders of coupon No. 10, due January 1, 1874, on the First mortgage bonds of the Missouri River, Fort Scott and Gulf Railroad are notified that upon the surrender of same at the Treasurer's office, 26 Sears' Building, Boston, on and after July 1st, they will receive one half the face thereof in cash and the other half in six months promissory notes of this company, due January 1st, 1876, payment of which is secured by the unpaid balance of the coupons so surrendered, held in trust for that purpose by the Trustees.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

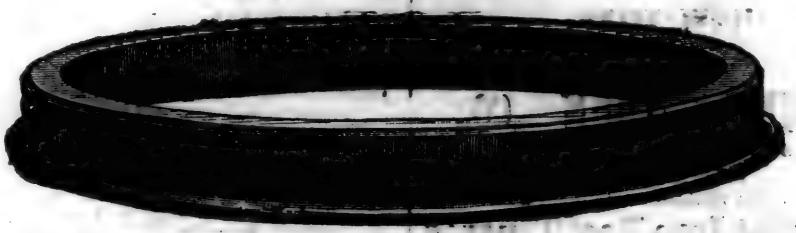
Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.



Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

New York, Saturday, July 10, 1875.

Lake Shore & Michigan Southern Railway.

At a meeting of the Executive Committee of the Lake Shore and Michigan Southern Railway Company, held on the 1st inst., the following statement from the Auditor of the company was presented:

Gross earnings	$5,041,000
Operating expenses and taxes	3,565,000
Net earnings	$1,476,000
Interest on bonded debt, leases of branch roads, and dividend payable Aug. 1, 1875, on guaranteed stock	1,425,000
Balance	$51,000

The loss in earnings compared with the first half of 1874, is as follows:

On freight	$1,368,717
On passengers	181,403
On mails, express and miscellaneous	160,820
Total	$1,710,500

The loss on freight is made up as follows:

Diminution in volume (58 per cent)	$793,858
Less prices on business done (42 per cent)	574,861
Total	$1,368,717

The average rate per ton per mile on freight has been—in 1875, 1.022 cents; in 1874, 1.187 cents.

The cost of steel rails in excess of the value of the iron for which they were substituted, during the six months, is included in operating expenses. The company has secured all the steel rails that will be required during the rest of the year, under a contract to pay for them in old iron rails which are now on hand, so that no expenditure of money will be necessary for this important item.

The following resolution was adopted:

Resolved, That no dividend be declared from the business for the six months ending with June 30 1875.

Atlantic and Gt. Western Railroad.

Sir John Swinburne, who till lately acted as one of the trustees of the Atlantic and Great Western leased lines rental trusts, has issued a very extended report on the position of these trusts and a narrative of his proceedings when in America last winter. It would be impossible to convey any adequate idea of the contents of the report in a reasonable amount of space, but one or two prominent facts may be stated. The position of the trusts is in most respects as unsatisfactory as could well be. Interests cross and conflict with each other, and powers are divided, mixed up, or overridden in a way that renders the whole subject hopelessly bewildering to an outsider; but one purpose is always clear, that money should be made by promoters, and one effect is always visible—wreck and ruin. There have been diversions of money to purposes for which it was never raised, fraudulent leases have been made, such as that renting the Pithole line, 11 miles long, to the Atlantic and Great Western for $60,000 per annum and the Pennsylvania petroleum line for $300,000, the one being valueless and the other unmade, and assignments of surplus earnings have been freely decreed where no surplus earnings could possibly be made. This Pithole line was sold lately to the president for $500 at the instance of a creditor for $900. It cost the Atlantic and Great Western line £15,000, and has about £8,000 worth of rails on it. Jobbery has reigned everywhere, one instance being given where a line of less than 32 miles in length had 138 persons engaged in working it, including a chief engineer with a salary of $5,000 per annum. Some of the trusts, however, represent really good property, such as that covering the Mahoning Valley, the Shenango and Allegheny, or the Cleveland and Columbus lines, and it has been the strenuous endeavor of Sir John Swinburne to protect the interests of the trust bondholders in these properties, and to prevent their being swallowed up in the general wreck of Atlantic and Great Western affairs. He resisted the system by which the same people ruled the whole series of interests, and under which the same firm of lawyers acted at once for plaintiff and defendant, bondholders, creditors and receivers. By his exertions he seems to have partially succeeded in rescuing the Columbus line, getting an independent board appointed and a distinct receiver. He has also destroyed the lawyer's monopoly in the various properties, and so far lessened a great and miserable scandal such as we in this country can hardly conceive. Whether Sir John has succeeded in permanently sifting what is worth anything among the trust properties out of the mud or not is, however, exceedingly doubtful, so endlessly have interests been intermixed, lease lines above lease, obligation behind obligation, until nobody can say where his property really can be found. On the whole, the chances, we should say, are that Sir John Swinburne's labors will be in vain, and that the trust bondholders will be left in the lurch. There are as many legal points to be settled as would suffice to eat up the value of their bonds many times over before they get possession of the roads which seem justly to belong to them. —*London Times.*

Chippewa Falls and Western Railroad.

A grand reception was given on the 29th ult. by the citizens of Chippewa Falls, on the occasion of the formal opening of the Chippewa Falls and Western Railroad. This road extends from the city of Chippewa Falls to Eau Claire, a distance of twelve miles, in a southwesterly direction, and connects at the latter place with the West Wisconsin railroad. The latter company has operated the road since last December, but is only a tenant at will. The road cost, to construct it, $15,000 per mile; it is well and solidly built and laid with sixty five pound steel rails. The company is composed of the wealthy citizens of Chippewa Falls, and they intend to retain possession of it. Hon. Thad C. Pound is President. No rolling stock has yet been purchased by the company, and it is not the intention to do so at present. Four trains daily leave and return to the Falls. The traffic is considerable, there being a large number of passengers continually traveling over the road. The exports are lumber, flour, wheat, and other grains. The imports are merchandise of all kinds. The road is said to be paying well, and will prove a profitable investment to the owners. It is the

intention of the owners to extend the road to La Crosse, a distance of 80 miles, and it is probable that it will be completed before many years.

Cincinnati, Hamilton and Dayton Railroad.

The earnings of this road for the year ending March 31, 1875, were as follows:

From passengers	$200,216 17
" freight	581,080 44
" mails and express	28,061 80
" rents from other companies	100,000 00
" rents from real estate	5,118 96
" mileage of cars	47,708 80
" interest	38,774 58
	$1,128,951 81

Expenses viz:

Transportation	$606,585 09	
Taxes	55,878 05	
Interest on bonds	158,568 20	
Profit and loss	4,020 58	
		825,051 87
Net earnings		$302,402 94
To which add net earnings of—		
Dayton and Michigan Railroad		26,881 75
Cincinnati, Richmond and Chicago Railroad		25,623 00
		$354,407 69
Less loss in operating Cincinnati, Hamilton and Indianapolis R. R.		157,214 94
Total net earnings		$197,192 75
In addition there has been received from sale of third mortgage bonds of the company		100,000 00
From real estate sold Southern R. R.		87,500 00
From sale of bonds, wood lands and bills receivable		18,582 86
Total		$848,275 61

Which is accounted for as follows, viz:

For amount expended on C., H. & I. R. R. for renewals of track, bridges, construction and deferred payments on real estate	$114,502 38
For D. & M. R. R. sinking fund, construction, real estate and internal revenue taxes	40,014 52
For interest guarantee of Cincinnati, Richmond and Ft. Wayne R. R. Co's bonds	15,861 10
For six new passenger cars, depots at stock yards and Maplewood and internal revenue taxes	40,016 61
For reduction of bills payable	9,008 75
For increase of fuel and materials for repairs	56,435 32
For decrease of current liabilities	62,770 87
Total, as above	$348,275 61

The gross earnings compared with the previous year, show a decrease of 3.47 per cent or $07,794 10, viz: on C., H. & D. R. R. $43,043 46, D. & M. $42,048 41, C., H. & I. $34,025 01, less increase on C., R. & C. $20,023 37. Of this decrease $79,501 61 occurred in the month of January, February and March viz: on C., H. & D. $22,070 88, D. & M. $50 369 74, C., H. & I. $11,012 97 less increase on C., R. & C. $3,961 18. A large proportion of this decrease particularly on the C., H. & D. and D. & M. Roads is attributable to the falling off in transportation of ice; the severe cold weather of the past winter producing this article near at hand.

The expenses show a decrease of $162,884 61, or 6.22 per cent, viz: C., H. & D. $07,712 03, D. & M. $25,131 47, C., H. & I. $50,159 50 less C., R. & C. increase $10,119 88, making a net increase of earnings of $85,090 51, viz: on C., H. & D. $54,089 48, C., H. & I. $17,138 98, C., R. & C. $10,808 99, less decrease on D. & M. $16,916 94. The gross net earnings of the C., R. & C. R. R. on the year's business were $41,880 48, but an adjustment of interest between the two companies to date, transfers $16 207 48 to the C., H. & D. R. R. Co. This will explain the large amount of interest, as shown in statement of that road in the secretary's report.

The aggregate freight receipts show a falling off of $112,280 84 or 6⅔ per cent, while the tonnage increased 1.4 per cent.

The passenger receipts show an increase of $8,561 85 or 0.98 per cent and the train mileage an increase of 7 per cent.

The receipts from passengers on the C. H. & D. R. R. show decrease for the year. This is accounted for in part, by the sale of round trip tickets to and from all stations, on which a reduction of five cents on each dollar and fractional part thereof is made. This class of reduced tickets meets the wishes of the public, and will no doubt increase the revenue of the road.

The receipts from commutation tickets have increased, and the accommodations furnished this class of travel are ample and satisfactory. In this connection the following facts, hastily gathered, and in some cases incomplete, in regard to the growth of the suburban towns and villages during the past year, may be of interest. At South Cumminsville about thirty houses have been erected, and ten or fifteen more contracted for, and at Cumminsville, about twenty. At Hartwell, (Steele and Bell's addition) out of 250 lots, 200 have been sold, three houses erected and two more contracted for. At Maplewood (Mill's subdivision), out of 260 lots, 160 have been sold, seven houses erected and four more contracted for. At Wyoming, ten good residences have been built and a number of valuable additions made, and twelve houses are now under contract. A new station called Park Place has been established north of Lookland Wyoming, and at least six good houses will be erected there this season. It is understood the proprietors of this place propose to erect at their own expense a handsome depot and other improvements for the accommodation of those who locate there.

Under the management of our attentive and competent superintendent the trains have been run with great care and freedom from any serious accident. Out of the 1,295,189 passengers carried on our several lines during the year, not one has been injured. During the year 6 152 tons of new and re-rolled iron rails, and 501 tons of steel rails and 97,008 cross ties have been laid in the several tracks, also four miles and 2,579 feet of side track have been added.

As indicated in the last annual report, a considerable expenditure has been made on the C., H. & I. R. R. in addition to the working expenses, for renewals of iron and bridges and for construction, the principal items of which are for Longwood and Connellsville cuts, the object being to reduce the grade and widen the embankments of the road. It is desirable to continue this work to completion as soon as possible.

The extra expenditures on this road are gradually diminishing, there being a decrease from last year of $312,532 06; but considerable further expenditure will be required, to work this road economically, and, perhaps the most important item is the erection of a suitable engine house at Indianapolis; it should be of brick, and can be added to, as occasion demands. There would be less danger of loss by fire and greater economy in repairs.

A contract has recently been entered into with the Indianapolis, Bloomington and Western Railway Co., which company controls upwards of 350 miles of road west from Indianapolis, forming a close connection with this road for both through and local business, which must in time materially increase its income, and makes it important to put the road in first class condition.

There has been paid the past year on account of interest guaranteed on the Cincinnati, Richmond and Fort Wayne Bonds, as per contract of June 1, 1871, $15,861 10, making the amount to this date $54,617 77. The business of that road has been gradually increasing, which is evidenced by the increase of business over the line to and from Richmond, and the decrease in our advances, the payment for the last six months being $5,485 84. We have reason therefore to hope and the managers of the road express the belief, that it will ere long maintain itself, and begin to reimburse our advances as well as further increase our business in that direction. This is the only guarantee our company has, aside from its own lines of road, all of which with the exception of the C. H. and I. R. R., are self sustaining and a source of profit to this company.

An examination of the books of the company, has recently been made by a Government Official, resulting in a claim of $22,046 18, for unpaid taxes on net earnings accruing from June 30, 1867 to Dec. 31, 1871, which was reduced to $19,890 86; of this amount $5,618 18 for five months ending Dec. 31, 1870, has been suspended from collection until a decision is had in a similar case now pending before the United States Supreme Court making the amount assessed against the D. and M. R. R. Co., $8,480 40, and against the C. H. and D. R. R. Co., $6,903 82.

The floating debt of the company shows but a small reduction from last year, which is accounted for by the large sums appropriated for other purposes as before stated, and the large amount due from the Erie R. R. Co., hereafter referred to. Unless something now unforseen occurs to prevent, this account should be largely reduced the coming year out of the current earnings, as all other obligations of the company, including pay rolls, have been paid to maturity.

An agreement was entered into on the first of March between the Fort Wayne Muncie and Cincinnati Railroad Co., the Fort Wayne, Jackson and Saginaw Railroad Co., forming a line via Connersville, and the Cincinnati, Richmond and Fort Wayne Railroad Co., the Grand Rapids and Indiana Railroad Co., forming a line via Richmond, for a division of territory and an equal division of business between Cincinnati and Fort Wayne, which has had the effect to prevent a ruinous competition and is working with satisfaction to all.

A contract was also entered into on the first of August last between the Indianapolis, Cincinnati and Lafayette, the Cincinnati, Lafayette and Chicago, and the Illinois Central Railroads, forming a line via Indianapolis and Kankakee, and our road forming a line via Richmond, in connection with the Pittsburg, Cincinnati and St. Louis Railway to Chicago for the pooling of earnings, the effect of which has been to do away with competition to a considerable extent, while at the same time fair rates have been given to shippers and as far as can be seen has in general been satisfactory to the companies forming the lines as well as to the public.

A similar contract was entered into on the first of September with the Indianapolis, Cincinnati and Lafayette Railroad Company, for Indianapolis business, and while the working of it has been about the same to the public, it has not been satisfactory to either of the parties, and if continued beyond the time fixed for a notice of its discontinuance, will have to be modified, which it is understood both parties are willing should be done.

Our arrangements with all other roads are in general harmonious and satisfactory with one exception, and that the most important. The managers of the Erie have expressed a desire for a modification of the existing contract and the matter is now under consideration. The large amount due from that company as stated in the Secretary's report has recently been adjusted by their notes at 30, 60 and 90 days with interest, which when realized upon will go far towards the reduction of our indebtedness.

Your directors are not prepared to fix a time for the resumption of dividends, but are free to say that the prospects in that direction have greatly improved by the large reduction in expenses effected during the past year. A continuance of this policy with a general revival of the business of the country, and an improvement in the

rates of transportation, to which the board look forward with hope, will expedite and ensure that result.

The income from operations of the Dayton and Michigan Railroad during the year was $1,056,909 37; and the operating expenses were $661,910 87, taxes $41,979 83, interest on bonds $189,518 17, dividend on preferred stock $102,248, and dividend on common stock $34,875 75—making a total of $1,080,527 62, and leaving for net earnings the sum of $26,381 75. From which deduct for internal revenue taxes assessed, $8,468 40—leaving a balance of $17,913 35.

The income from operations of the Cincinnati Richmond and Chicago Railroad was $234,099 69; and the operating expenses $144,890 75, taxes $4,213 83, interest on bonds $48,120, and general interest $16,252 11—total $208,486 69, leaving the sum of $25,623 to credit of Cincinnati, Richmond and Chicago Railroad.

The income from operations of the Cincinnati, Hamilton and Indianapolis Railroad was $398,751 86; and the operating expenses $360,867 07, taxes $10,104 84, interest on bonds $129,220, and general interest $56,274 89—a total of $555,966 80, showing a deficit of $157,214 94, to which add expenditures for renewals of track, bridges, construction, and deferred payments on real estate, during the year, $114,562 38—making a total of $271,777 32; which added to amount expended up to the close of the previous year, $866,942 68, gives a total expenditure on account of purchase, etc., of Cincinnati, Hamilton and Indianapolis Railroad, of $1,138,720.

The gross income from operations of all the roads was $2,818,115 73; the operating expenses $1,773,753 78, taxes $112,171 55, interest on bonds $520,416 87, dividends D. & M. R. R., as above, $137,123 35, general interest $72,527, and profit and loss $4,930 53—total $2,620,922 98—leaving a balance of $197,192 75.

The net earnings of the Cincinnati, Hamilton and Dayton Railroad for the year were $302,402 94; from which deduct: for six new passenger cars $29,500, for internal revenue taxes assessed $5,903 82, for grading Walker Mill road $1,857 47—a total of $37,261 29, leaving a balance of $265,141 65; which added to amount received from D. and M. R. R., as above, $17,913 35, makes the amount to credit surplus earnings C. H. and D. R. R., for the year $283,055, and the total amount of surplus earnings at the close of the year $1,244,337 80.

The income per mile of road was $18,805 91; expenses of operating per mile of road, $10,109 75; total expenses per mile of road, $13 765 86. Mileage of freight trains, 308,879. Mileage of freight cars, 3,632,044. Number of tons carried, 617,860; amount received per ton, 86 cents. Number of tons carried one mile, 22,401,955; amount received per mile, 2.4 cents. Earnings of freight trains per mile, $1 73.

Number of passengers carried, 697,354; amount received for each passenger, 41.6 cents. Number of passengers carried one mile, 13,418,308; amount received per mile, 2.16 cents. Earnings per mile passenger trains, 88.25 cents. Mileage of passenger cars, 1,119,060. Mileage of passenger trains, 355,900. Number of passenger cars hauled, 30,342; number of passengers per car, 23; earnings per car, $9 56.

General Superintendent.—LEWIS WILLIAMS.

Michigan Copper Region.

A correspondent of the Baltimore Sun, writing from Allouez, Keweenaw County, Mich., under date June 19th, says:

I have been examining some of the copper mines, which are truly wonderful. Here they can work ore as low as one and a quarter per cent, and make it pay. Owing to the peculiarity of the deposit, after breaking the rock from it, they have the metal nearly pure—say eighty-five per cent. The Calumet and Hecla are working ores of about four and half per cent. They stamp out eight hundred tons per day, which yields about forty tons of what is called mineral, (eighty-five per cent.) This is sent to the Detroit and Lake Superior Copper Smelting Company's Works, which smelt for all the works of the region, the mines being generally from four to sixteen miles around it. They are situated on Portage lake, from whence they can ship the copper east either by railroad or water. It is shipped by water as a general thing, as the transportation is so much cheaper. The Calumet and Hecla accumulated from the end of November last year to the 1st of May this, waiting the opening of navigation, $2,500,000 worth of copper.

They work some 1,500 miners, and about 500 others at the stamp mills—2,000 in all. Their monthly pay roll is from $80 000 to $100,000. This is independent of their supplies. There are 80,000 shares of stock, worth now $153 per share in the market—$12 240,000.

The town of Calumet has about 5,000 inhabitants. The majority of these belong to the Calumet and Hecla; the balance to the Osceola and Red Jacket mines.

After an examination of the C. and H. stamp mills our party started for Hancock, a town on Portage lake, opposite Houghton, for an examination of the mines, taking first in order the Quincy, (this is also quite a rich mine,) then the Pewabic, Franklin and Concord. From the latter we started for this, taking the cars of the Mineral Pacific Railroad at 4 P. M., reaching Calumet in an hour. The distance is 12½ miles. Here all intend a full examination, and shall go through the work and under the ground, and do the same at the Calumet and Hecla. We have seen the rock and got particulars. Now we want to see where it comes from and how they get it out.

Dayton and Michigan Railroad.

The income of this company for the year ending March 31, 1875, was as follows:

From passengers		$338,164 31
" freight		650.809 73
" mails and express		48,058 65
" miscellaneous		3,086 72
" Toledo elevator		12,667 25
" rents from real estate		4,672 71
		$1,056,909 87

Philadelphia and Reading Railroad.

We gave in our issue of Jan. 23, an abstract of the "Transportation and Income Account" of this company for the fiscal year ending November 30, 1874, together with the Report of the Managers. Below will be found several important tables referring to the years 1873 and 1874, including the "General Account." We also append a statement of the Cost, Earnings, Dividends, etc., etc., since the completion of the road in 1842-'43:

	1873.	1874.	1873.	1874.	1873.	1874.
	Miles of Track.		M. of Sidings.		—Total.—	
Philadelphia & Reading R. R.	196.8	196.8	149.9	150.1	346.7	346.9

Philadelphia and Chester Br.	20.4	20.4	1.3	1.3	21.7	21.7
Total roads leased	428.2	431.4	195.1	196.5	623.3	627.9
Reading and Columbia R. R.	39.5	39.5	14.7	15.3	54.2	54.8
Lebanon Branch Reading and Columbia Railroad	3.4	3.4	...	...	3.4	3.4
Total roads controlled	42.9	42.9	14.7	15.3	57.6	58.2
Total miles of iron	949.4	956.4	490.7	495.4	1,440.1	1,451.8
Total previous year	912.9	949.4	472.4	490.7	1,385.3	1,440.1
Increase	36.5	7.0	18.3	4.7	54.8	11.7

At the commencement of the fiscal year 1873-'74 the company had 400 locomotives, and at its close 405—an increase of 5. The number of cars at the close of each fiscal year was as follows:

	1873.	1874.	1873.	1874.
	No. of Cars.		Equiv. 4 wheel.	
Coal cars	15,192	15,073	22,957	22,838
Freight cars—16 wheel platform gun cars	1	1	4	4
" 8 wheel house cars	1,103	1,108	2,206	2,216
" " cattle cars	114	114	228	228
" " gondola	2,047	2,047	4,094	4,094
" " lime	221	221	442	442
" 4 wheel house	40	28	40	28
" " gondola	26	26	26	26
" " sand and ore	21	21	21	21
" " lime	253	253	253	253
Total freight cars	3,825	3,819	7,310	7,312
Passenger cars—8 wheel	220½	220	441	440
Baggage " "	48	44	88	88
Mail and express cars—8 wheel	15	15	30	30
Total passenger cars	279½	279	559	558

In addition to the above there are used in the management of the road:

In the *Transportation Department:*	1873.	1874.	1873.	1874.
8 wheel house cars, wreck trains	10	10	20	20
" gondola cars, with cranes	16	16	32	32
" crate cars, for sawed wood	2	2	4	4
4 wheel house cars wreck trains	5	5	5	5
" open cars for cord wood	58	58	58	58
" " depot fuel, etc.	11	11	11	11
	102	102	130	130
4 wheel cabin cars for signal men	104	116	104	116
" sweeping cars	1	1	1	1
And in the *Roadway Department*	527	550	627	651
8 wheel passenger car	1	..	2	..

American Railroad Journal.

Saturday, July 10, 1875.

Financial and Commercial Affairs.

Cable advices reported further failures in England, in the financial and commercial, but were indicative of nothing like serious disturbance in the foreign markets, and consequently had but little influence on the course of business in the local market. The very warm weather and the absence of many of the leading operators from the city, (who availed themselves of the national anniversary, to secure a few days of retirement and rest) have been against active movements. The July interest and dividend disbursements—which have been very liberal in the aggregate—have served to augment largely the supply of funds seeking secure and profitable employment; while the demand for Money from all sources has been comparatively moderate on call at 2@3½ per cent; and in the discount line, within the range of 3½@6 per cent per annum on the very choicest to strictly good grades of mercantile paper. The City Banks have largely increased their net reserve, while the U. S. Sub Treasury also enlarged its currency balance. The City Banks last week further augmented their reserve of legal tender notes $2,340,600; their deposit item $10,128,700, and their specie average $4,077,600. They report an increase of $2,689,400, in the loans and discounts, and a falling off of $34,000 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $54,681,995 against $52,484,748, the preceding week; and a coin hoard of $88,005,164 against $40,930,201 on the previous return. The City bank exchanges in currency during the week,

were $478,902,881, or a daily average of $78,150,397. The customs revenue of the port, during the week, was $1,668,000. The City banks reported their average of gold last week at $13,824,600, and their greenback average at $73,832,100. Their deposits stood at $245,896 700. The loan item was $279,397,200. The circulation was $18,982,500.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $26,182,525.

The aggregate of the outstanding U. S. currency, of all denominations, July 1, was $417,971,111 69. The outstanding amount of legal tender notes is $375,841,687. The National bank circulation is now $349,402,839, including $2,499,100 of national gold bank notes.

The last Public Debt Statement for July 1, indicated a further liquidation in June of $1,431,249, and for the whole fiscal year, of $14,399,515.

The week's import entries of Foreign Merchandise at New York, were $6,368,188, and included of dry goods $1,251,100.

The income of the Government from internal revenues in the fiscal year, which ended with June 30, 1875, was $109,788,059, against $102,361,577 the preceding fiscal year.

Gold has been moderately active, but easier in price. The speculative dealings have been on a less confident basis. The export movement has been on a more liberal scale. The customs drain has been moderate. The extremes of the week have been 116⅜@117¼, closing on Wednesday at 116½ as against 117 on Wednesday of the preceding week. The specie outflow last week was $3,238,986 against $1,901,918 the previous week. The imports of specie at this port since Jan. 1, have been $7,370,769, against $2,581,000 same time last year. The customs demand for Gold last week averaged $278,000. Foreign Exchange has been moderately sought after, with Bankers' sixty day bills on London closing rather weak on Wednesday, and a shade easier at $4 86½@$4 87½; sight bills on London at $4 89½@$4 90½ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $6,190,155. The week's imports of Dry Goods and general merchandise were to the specie value of $6,368,188 against $5,107 430 same week last year.

Government Securities have been in moderate supply in the open market, while a very good demand has been noted on investment account, prices ruling strong and buoyant. State and Railway bonds have been in fair request, at steadier rates. And in the line of Railway and Miscellaneous share property, a fair business has been transacted, with values closing generally stronger, and quite buoyant.

U. S sixes of 1881 closed on Wednesday of this week at 122⅞@123⅛; U. S. Five-Twenties of 1862, at 118¼@118½; U. S. Five-Twenties of 1864 at 118¾@119; U. S. Five-Twenties of 1865 122¼@122½; U. S. Five-Twenties of 1865 consolidated, 120½@120¾; U. S. Five-Twenties of 1867, 122½@122¼; U. S. Five-Twenties of 1868, 121⅝@122; U. S. Ten-forties at 119⅛@119⅜; U. S. Fives of 1881,(Funding Loan) 118⅜@118⅞; Six per cent. currency Sixes from 122½@122¾.

General business has been less active, checked in good part, by the usual observance of the national anniversary as a close holiday. The movements in Breadstuffs, Provisions and Cotton have been on a restricted scale, and values closed generally weaker. Petroleum, Fish, Groceries and Naval Stores, moderately dealt in, as a rule, though Coffee was exceptionally active and buoyant in price. Hardware, Tobacco, Wool, Dry Goods and Boots and Shoes, in light request. Metals have been held with more firmness, though not active. English advices report Pig Iron higher. Eglinton Pig Iron quoted here at $30@$31; Glengarnock, $33; Coltness, $32; No. 1 American Pig at $26@$28; No. 2 do. at $24@$26; Forge, $21@$25; English Rails at $48@$50, gold; American Rails at works, $48@$50; Old Rails, $26@$27. Wrought Scrap, $30@$32. Ocean freights have been fairly active, and quoted firmer for Grain and Petroleum.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Interest and Dividends.

The coupons on the funded bonds of the West Wisconsin Railway Company due July 1 will be paid in gold on presentation at the office of the New York Guaranty and Indemnity Company, No. 52 Broadway.

The Philadelphia and Reading Railroad Company has declared a quarterly dividend of Two and One half per cent. on the preferred and common stock, clear of all taxes, payable in cash on and after the 30th inst. at the office of the company, No. 227 South Fourth street, Philadelphia.

The Central Railroad company of New Jersey will pay a quarterly dividend of two and a half per cent on and after the 20th inst. The transfer books which are now closed will be re opened on the 22d inst.

Holders of the First Mortgage bonds of the New Jersey Midland Railroad company who have not received the plan for the re-organization of the company, are requested to send in their names without delay to C. A. Wortendyke, Chairman Committee of re-organization, No. 96 Liberty street, N. Y., when the necessary papers will immediately be mailed to their address.

Interest on the Louisiana new Consolidated bonds, due July 1st, is now being paid in New Orleans and in New York.

The interest on the South Carolina consolidated debt, due July 1, will be paid in Charleston, Columbia, and New York.

Hatch & Foote,

BANKERS,

No. 12 Wall Street, N. Y.

BUY AND SELL GOVERNMENTS AND GOLD AT MARKET RATES.

EXECUTE ORDERS AT STOCK EXCHANGE. INTEREST ALLOWED ON DEPOSITS.

☞ Under an arrangement with the creditors, the Grant Locomotive Works resumed operations on the 6th inst., employing two or three hundred men for two or three months to complete ten of the Russian locomotives, and to undertake thereafter any new work that may offer. The works will still be under the management of D. B. Grant.

☞ The Mansfield and Framingham Railroad has been consolidated with the Boston, Clinton and Fitchburg Railroad.

☞ In the Rhode Island Supreme Court, on the 30th ult., upon a petition of the trustees under the Berdell mortgage of the Boston, Hartford and Erie Railroad Company, for a decree authorizing them to convey the property held by them, under guar. mortgage to the New York and New England Railroad Company, the decree was entered after being amended by inserting a clause providing that nothing in the decree contained shall, at any time, be construed to affect or impair, in any way or manner, the rights of any person or corporation claiming to hold stock, whether common or preferred, in the Hartford, Providence and Fishkill Railroad Company, or of any person or corporation not a party to this suit.

☞ Mr. John Newall has assumed the duties of General Manager of the Lake Shore and Michigan Southern Railway, vice Mr. Amasa Stone resigned. Mr. Newall was President of the Cleveland and Toledo in 1865 and 1866, on the consolidation of which with the L. S. and M. S., he became President of the Illinois Central. He subsequently became the Manager of the Illinois and St. Louis Bridge. He brings to his new duties long experience and eminent liabilities.

☞ It is stated that Mr. Jewett, the Receiver of the Erie Railway, has already been able to clear off about $2,000,000 of pressing claims; and, under the extended orders of the court, it is hoped that he will soon be able to resume the payment of interest on the original mortgages.

☞ The Waynesburg and Washington Railroad Co. have awarded the contract of grading and bridging the entire road to John Donoghue & Bro., of Altoona, Pa., at $1,000 per mile, the work to be completed ready for the ties within four months.

☞ In payment of the principal of the First Mortgage ten per cent bonds of the Sacramento Valley Railroad Company, amounting to $400,000, which matured on the 1st inst., it is proposed to give notes payable in eleven, twelve and thirteen months in currency, with 5 per cent. interest, also in currency. The interest on the bonds has always been paid in gold.

☞ Eighteen sections, of eight men each, are employed on the Grand River Valley Railroad, between Jackson and Grand Rapids, Michigan, laying new ties the whole length of the line, and new steel rails in place of the old rails that are considerably worn.

☞ J. H. Barrett has been appointed superintendent of the Pittsburg Division, and James R. Shaler superintendent of the Columbus Division, of the Pittsburg, Cincinnati and St. Louis Railway. The office of the former is at Pittsburg, Pa., and of the latter at Dennison, Ohio.

☞ The first section (30 miles) of the Levis and Kennebec Railways was opened for traffic on the 26th ult. When completed it will shorten the distance from Quebec to Portland by about sixty miles.

☞ Track laying on the Stockton and Ione Narow Gauge Railroad was resumed on the 23d ult. The road will be completed to Linden on or about July 15th.

☞ The Montpelier and Barre (Vt.) Railroad was formally opened on the 5th inst.

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

PHILADELPHIA AND READING RAILROAD CO.,
OFFICE No. 227 SOUTH FOURTH ST.,
PHILADELPHIA, June 30, 1875.

DIVIDEND NOTICE.

THE TRANSFER BOOKS OF THIS COMPANY will be closed on Tuesday, July 6, and reopened on Monday, July 19. A quarterly dividend of two and a half per cent. has been declared on the preferred and common stock, clear of all taxes, payable in cash, on and after the 30th of July next, to the holders thereof, as they shall stand registered on the books of the company at the close of business on the 6th of July.

All dividends payable at this office, where blank powers of attorney can be obtained.

S. BRADFORD, Treasurer.

CENTRAL RAILROAD COMPANY OF NEW JERSEY,
119 LIBERTY STREET,
NEW YORK, June 24, 1875.

A QUARTERLY DIVIDEND OF TWO AND A HALF PER CENT. is declared, payable on and after TUESDAY, July 20th.

The transfer books will be closed from WEDNESDAY, the 30th inst., till THURSDAY, the 22d prox.

SAMUEL KNOX, Treasurer.

OFFICE OF COMMITTEE OF REORGANIZATION,
NEW JERSEY MIDLAND RAILWAY,
No. 96 LIBERTY ST., NEW YORK July 1, 1875.

THE FIRST MORTGAGE BOND-HOLDERS OF the New-Jersey Midland Railway Company who have not received plan for the re-organization of said Company, will please send in their names without delay to this office. On receiving the same, the necessary papers will immediately be mailed to their address.

C. A. WORTENDYKE,
Chairman Committee of Reorganization.

WEST WISCONSIN RAILWAY CO.,
No. 84 Broadway, NEW YORK, July 1, 1875.

THE COUPONS ON THE FUNDED BONDS OF the West Wisconsin Railway Co. due July 1, will be paid in gold at the office of the New York Guaranty and Indemnity Co., No. 52 Broadway, on and after that date.

R. P. FLOWER, Treasurer.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD CO.,
NEW YORK, June 22, 1875.

A DIVIDEND OF FOUR PER CENT HAS been declared by this Company, payable on the second day of August next, to the holders of full paid shares registered at the close of the fourteenth day of July next, after which, and until the fifth day of August, the transfer books will be closed.

L. V. F. RANDOLPH, Treasurer.

OFFICE OF THE ERIE RAILWAY COMPANY,
NEW YORK, June, 11, 1875.

THE ANNUAL MEETING OF THE STOCKHOLDERS of the Erie Railway Company, for the election of Directors, and for the transaction of such other business as may come before the meeting, will be held at the office of the company, No. 187 West St., on TUESDAY, the 13th day of July next. The polls will be open at 10 o'clock A. M., and remain open until 2 o'clock P. M. of that day.

The transfer books of both common and preferred stock will be closed after business hours on Saturday, the 12th inst., and remain closed until Wednesday, the 14th of July next.

The transfer office will be reopened on Wednesday, July 14, 1875, and thereafter be continued at the general offices of the company, No. 212 Duane St., New York.

By order of the board: A. R. MACDONOUGH,
Secretary.

California Pacific Railroad.

The Marysville Appeal of 23d ult., has the following in reference to this road:

We understand through a prominent railroad official that the company thoroughly realize the necessity of their rebuilding that portion of the road between this city and Knight's Landing, not only for the business of the place, but in order to transport their passengers coming from Oregon and the northern part of the State by a shorter and much less expensive route to San Francisco, and they will certainly do so at an early date. The present great hindrance to any immediate movement of this kind is on account of the arrangement with the German bondholders still remaining unsettled. A compromise will probably be made at the annual meeting of the company, which takes place on the 14th of July in San Francisco, when the company will decide as to the propriety of again opening our railroad to the sea.

Statement of the Public Debt of the United States July 1, 1875.

DEBT BEARING COIN INTEREST.

BONDS ISSUED TO THE PACIFIC RAILROAD COMPANIES. INTEREST PAYABLE IN LAWFUL MONEY.

	Amount Outstanding.	Accrued Interest not paid.
Central Pacific bonds, 1862-64	$25,885,120 00	$776,553 60
Kansas Pacific bonds, 1862-64	6,303,000 00	189,090 00
Union Pacific bonds, 1862-64.	27,236,512 00	817,095 36
Central Branch Union Pacific bonds, 1862-64	1,600,000 00	48,000 00
Western Pacific bonds, 1862-4	1,970,580 00	59,116 80
Sioux City and Pacific bonds, 1862-64	1,628,320 00	48,849 60
Totals	$64,623,512 00	$1,938,705 36

Interest paid by United States, $26,264,102 34; interest repaid by transportation of mails, &c., $6,134,311 29; balance of interest paid by United States, $20,129,791 05.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, June 30, 1875.

B. H. BRISTOW,
Secretary of the Treasury.

Cincinnati, Richmond and Chicago R. R.

The receipts of this company for the year ending March 31, 1875, were as follows:

From passengers		$72,307 62
" freight		152,168 39
" mails and express		9,398 32
" miscellaneous		225 36
		$234,099 69
Expenses:		
Transportation	$144 890 75	
Taxes	4,213 83	
Interest on bonds	43,120 00	
General interest	16,252 11	
		208,476 69
Net earnings for the year		$25,623 00

—which has been applied to the reduction of balance due Cincinnati, Hamilton and Dayton Railroad Company, which at date of last report amounted to $42,121 19, and now stands at $16,498 19.

President.—FREDERICK H. SHORT.

Vice President.—GEO. F. STEDMAN.

Directors.—F. H. Short, Rufus King, Oliver Perin, Geo. T. Stedman, D. H. Huntington, Henry Lewis, Joseph H. Rogers, E. W. McGuire, Samuel Fosdick.

Gen'l Superintendent.—LEWIS WILLIAMS.

Secretary and Treasurer.—C B. MARSH.

☞ The Pittsburg Chronicle says that the Valley Railroad will hereafter be known as the River division of the Allegheny Railroad. Mr. Thomas M. King, formerly Assistant Superintendent of the Allegheny Valley Railroad, has been appointed Superintendent of this division. Mr. King is popularly known as a railroad man, and his appointment to the position of Superintendent is an acknowledgement of his ability as a competent railroad official.

☞ The town bonds in aid of the Burlington and Lamoille Valley (Vt.) Railroad amounting in the aggregate to the sum of $285,000, have been successfully negotiated at rates far above what average railroad bonds command nowadays.

☞ The Baltimore and Ohio Railroad company is said to have perfected arrangements for building a branch road through the Shenandoah valley, to run along the easterly base of the Allegheny mountains.

The Coal Trade.

The anthracite production for the week ending on the 26 h ultimo, is stated by the Philadelphia *Ledger* at 380,021 tons, and for the year 6,368,967 tons, against 8,808,291 tons to corresponding date last year, a decrease of 2,440,324 tons. The bituminous tonnage for the week was 89,429 tons, and for the year 1,516,737 tons, making a total of all kinds for the week of 469,-450, and for the year of 7,885,704 tons, against 10,249,822 tons to same time last year, a decrease of 2,364,128 tons. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 117,507 tons, and for the year 1,-706,061 tons, of which 1,430,502 was coal and 284,369 coke. This embraces all the coal carried both east and west. At Port Richmond for the week ending the 3d instant there were receipts of 60,000 tons of coal, shipments of 55,000 tons, leaving 30,000 tons on hand. The *Ledger* adds:

The preparations for mining coal are steadily progressing all through the anthracite regions, and at several places in the Schuylkill region active operations have commenced. Indeed, at some of the mines of the Reading Coal and Iron Company during the past week the daily production of coal for several days was greater than in any similar number of days last year. This may be taken as an earnest of the vigorous manner in which the trade will be pushed in that region for the remainder of the present year, if the market will freely take the coal. The Reading Railroad Company has given notice that tolls over its road will be advanced after the 5th instant 25 cents per ton. It is estimated that the coal tonnage over the road for the current month will reach 900,000 tons, and that the increased tolls and increased shipping expenses over those of the month of June last will, on that amount of business, increase the revenues of the company by about $360,000. This will prove a very satisfactory addition to the dividend fund, and renders easy and certain the payment from earnings at the end of the month of the quarterly dividend of 2½ per cent, or $1¼ per share. The capital of the company is composed of 685,491 shares, and a dividend of $1¼ per share amounts to $856,864. The tolls in July last year were about the same as those fixed for the present month. The men in the Lehigh coal region are generally turning into work, and in a very short time all the mines which it is intended to work will be in operation. The several companies have announced their prices of coal for the month, and it well understood that these will be advanced monthly as the season advances and the market warrants, the intention being to pursue the same policy in this regard as last year and the year before. There is, therefore, no advantage to result from holding off orders for coal for domestic uses. The lowest price of the season is now, and each succeeding month will see it advanced. It is the purpose of the companies to lengthen the coal season, making the prices lowest in the first months of business, as an inducement to purchasers to send in their orders. The last two years' trade, and the result of the strike just now closed, seems to have established this policy as one to govern the coal trade for the future. There will be no lack in the supply of fuel if in the power of the operators to produce it, but there will be a small monthly advance to stimulate consumers to be early instead of late buyers, when the pressure might be great and prices necessarily high. Those who are engaged in the coal trade, producers as well as carriers, are open in the expression that they cannot do business at a loss, and will positively protect themselves by withholding their coal from market when the price is such as will not equal the cost and expense of putting it there. The loss by the long suspension and the waste of half the season will in this, as in all similar cases, have to be borne by the consumers, who are innocent of all wrong. The capital employed in the coal business is very large and the profits in the past somewhat precarious. It is but natural, therefore, that those in control should seek to protect themselves, and in doing that they also protect the labor that they employ. It is idle, however, to discuss the right or the wrong of the policy proclaimed. It is the programme of the associated coal companies, and they have the power and will carry it out as the best policy that can be adopted in order to keep the trade as regular as possible throughout the season.

☞ The Boston and Albany Railroad Company, by its directors, declines to assume the ownership and complete the construction of the Lee and Hudson Railroad, as requested by the latter corporation. The directors of the Lee and Hudson met on the 28th ult. at Lee and re-elected S. S. Rogers, P. C. Baird of Lee and H. J. Dunham of Stockbridge to their respective offices of President, Treasurer and Secretary. The claims of the contractors have been settled.

☞ The Illinois Supreme Court declares the presumption of law to be, in the absence of proof to the contrary, that a name signed on the back of a note was signed before delivery to the payee, and therefore binds the signer to the liability of a guarantor, instead of the lesser burden of an indorser.

☞ The iron steamship Brashear, intended to ply between New York and Brashear City, La., was launched on the 2d inst. from the yard of the Harlan & Hollingsworth Co., at Wilmington, Del. The Brashear is a vessel of 2250 tons burthen, and is rated in all respects first-class.

☞ The capital stock of the Central Railroad Company of San Francisco has been increased from $500,000 to $1,000,000.

HUDSON RIVER CEMENT WORKS,

Manufactory at Kingston, N. Y.

(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

L. M. Brigham, KINGSTON, N. Y. — J. H. Butts, Ag't, 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER CEMENT COMPANY,

MANUFACTURERS OF HIGH FALLS ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or o her purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered on application at our office, **115 Broadway, New York.**

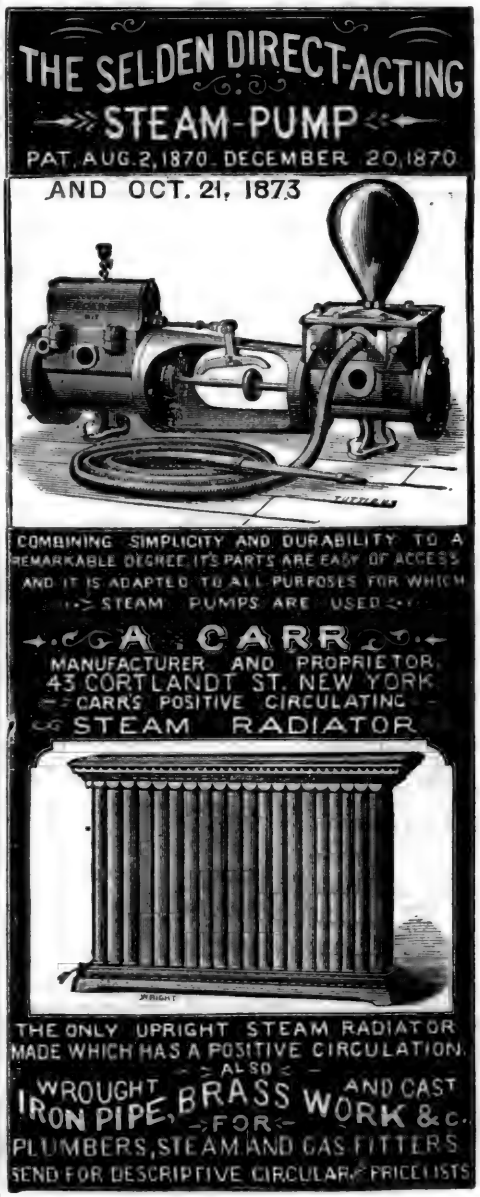
THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT,** (equal to any) put up in new barrels made by themselves, and well papered, and average **300 lbs.** Cement to each barrel.

J. B. JAMES, President.
W. G. JAMES, Treasurer.
41 Dey Street, New York.

LAWRENCEVILLE CEMENT COMPANY.

ROSENDALE HYDRAULIC CEMENT.



This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York.

This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of C ment.

All orders will receive prompt attention.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

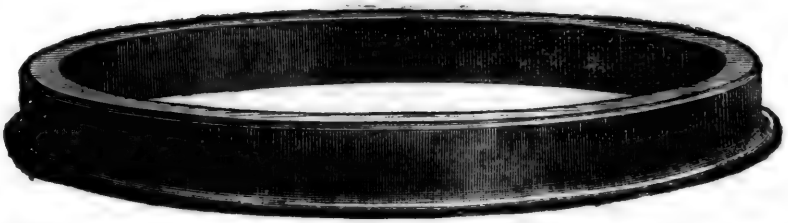
Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.



Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

American Railroad Journal.

New York, Saturday, July 17, 1875.

Union Pacific Railroad.

The gross earnings of the Union Pacific Railroad for the month of May, 1875, were $1,278,225 11, the operating expenses $458,243 07, and the net earnings $814,982 04, For the month of May, 1874, the gross earnings were $910,065 18, the operating expenses $458,322 62, and the net earnings $451,742 51—showing an increase in gross earnings of $368,159 98, a decrease in operating expenses of $79 55, and an increase in net earnings of $368,239 53. Average increase of earnings for the month of May, 1875, over 1874, 39.90 per cent. Percentage of expenses for May, 1875, 36; for May, 1874, 50.36—decrease, 14.36.

For the first five months of 1875, ending May 31, the gross earnings were $4,488,239 82, the operating expenses $1,878,091 41, and the net earnings $2,605,148 41. For the corresponding period in 1874, the gross earnings were $3,660,751 29, the operating expenses $2,013,684 20, and the net earnings $1,647,067 09—showing an increase in gross earnings of $822,488 53, a decrease in operating expenses of $135,592 79, and an increase in net earnings of $958,081 32. The average increase of gross earnings for the first five months of 1875, over 1874, was 22.47 per cent, and of net earnings 26.17 per cent. The average increase of gross earnings per day was $5,447. Percentage of expenses in 1875, 41.89; in 1874, 55.39—decrease, 13.50.

The month of June, it is stated, will show net earnings of $650,000, which added to net earnings for the five months as above, $2,605,148 41, will make the total net earnings for the half year ending June 30, 1875, $3,255,148 41, which is equal to the interest due on the mortgage debt for all the year, leaving the whole net earnings for the next six months applicable for dividends to the stockholders.

The net earnings for the last six months of 1874 were $3,283,467 11. It is safe to say that for 1875 they will be at least $1,000,000, more, or $4,283,000, which is equal to about 12 per cent. dividend on the stock.

Erie Railway Co.

At the annual meeting of the stockholders of the Erie Railway Company, held at the office of the company, No. 187 West Street, New York, on the 13th inst., the following gentlemen were elected directors for the ensuing year:

Name.	Place of Business.
Herman R. Baltzer	50 Exchange place.
Samuel L. M. Barlow	35 William street.
Thomas Dickson	71 Broadway.
R. Suydam Grant	33 Wall street.
Solomon S. Guthrie	Buffalo, N. Y.
Giles W. Hotchkiss	Binghamton, N. Y.
Hugh J. Jewett	Erie Railway office.
John Taylor Johnston	119 Liberty street.
Louis H. Meyer	21 Nassau street.
Edwin D. Morgan	54 Exchange place.
Asa Packer	L. V. R. R., Phila., Pa.
Cortlandt Parker	Newark, N. J.
Homer Ramsdell	Newburg, N. Y.
Marshall O. Roberts	177 West street.
Lucius Robinson	Elmira, N. Y.
Samuel Sloan	26 Exchange place.
Henry G. Stebbins	36 Union square.

Of these Messrs. Dickson, Guthrie, Hotchkiss, Parker and Sloan were elected in the places of Thomas A. Scott, William Butler Duncan, Frederick Schuchardt, John A. C. Gray and to fill the vacancy, now long standing, created by the resignation of John King, Jr., of the Baltimore and Ohio Railroad. The whole number of votes cast was 262,485, of which the Jewett ticket obtained 261,735 and the opposition ticket 750.

The new Directors will meet on Tuesday next for the election of officers.

Organization of the New Rapid Transit Commissioners.

A meeting of the Commissioners appointed by Mayor Wyckham to carry out the provisions of the Husted Rapid Transit Bill, viz: Joseph Seligman, Lewis B. Brown, Cornelius H. Delamater, Charles J. Canda and Jordan L. Mott—was held at the Mayor's office in this city on the 6th inst.

On motion of Mr. Jordan L. Mott, Mr. Joseph Seligman was elected chairman. Mr. Seligman assumed the chair and presented a certified copy of the law under which the Commission was appointed and organized. The Mayor's private secretary was, on motion of Mr. Mott, appointed temporary secretary.

The Secretary produced a certificate of the filing of a copy of the names of the Commissioners with the Secretary of State at Albany. A certificate from County Clerk Walsh was also presented, showing that a copy similar to the one left with the Secretary of State had been deposited with him. With the last copy duplicates were shown of the security bonds of each Commissioner, holding him in $25,000 to the faithful performance of his duties.

Messrs. James and Jesse Seligman are on Joseph Seligman's bonds; Howard Potter and W. H. Lee sign for L. B. Brown; D. H. Baldwin and John Baird for C. H. Delamater; S. B. White and Oliver Bryan for J. L. Mott, and W. B. Ogden and John H. Abell for Mr. Canda.

On motion of Mr. Mott a committee of two was appointed to draw up advertisements for plans, proposals &c. The Chairman appointed Messrs. Mott and Canda as a committee.

On motion Mr. Canda was appointed a committee of one to find a suitable office for the Commission.

☞ Messrs. JAMES G. KING'S SONS have removed from 31 Nassau street to their old offices, 51 and 53 William street, corner of Pine.

Scioto Valley Railway.

Everything is reported to be moving quietly but effectively on the line. The right of way has been secured nearly the entire distance from Lockbourne to Chillicothe. The engineer corps on the division from Chillicothe to Portsmouth have the line run through on the east side of the river and are now trying the line on the west side. Nearly all the cross ties are under contract. The people of Pickaway and Ross counties are alive to the work, and are rendering the company every assistance required. Propositions are now being received for the grading and bridging, and the work along the entire line will be put under operation this month.

There seems to be no difficulty in deciding the route on which the road will be located except in this city and from here to Lockbourne. The west line is now being carefully investigated, and the route will be decided the coming week. It is the desire of the company to run the line on the east side, but the opposition seems so strong that they may deem it expedient to locate on the west side, crossing the river near Lockbourne.

It was thought desirable to run the east line, even at a greater cost, thereby opening up a connection with the Hocking Valley Railroad near Edward's station, but the matter is now under full advisement and will be decided the coming week and the work commenced. We trust every assistance will be rendered in opening this valuable avenue to the city this fall.—*Col., O., Juor.*

Cleveland, Mt. Vernon and Delaware R. R.

The earnings of the Main Line and Massillon Branch for the years ending December 31, 1873 and 1874, were as follows:

	1873.	1874.
From freight	$231,349 77	$265,397 64
" passengers	106,614 12	149,095 73
" express	10,180 00	12,520 00
" mails	6,849 76	17,561 40
" miscellaneous	331 00	1,224 95
	$355,324 65	$445,799 72
Expenses, viz:		
Conducting transp.	$48,472 69	$57,984 78
Motive power	56,041 46	76,969 86
Maintenance of way	69,180 52	103,611 78
Maintenance of cars	21,456 39	25,406 78
General expenses	32,007 00	45,872 76
	$222,158 06	$309,845 91
Net earnings	$133,166 59	$135,953 81

Against which there are the following charges, viz:

One year's interest, in gold, on the company's bonds	$161,00 9	
One year's interest on so-called Cass and Marvin bonds.	595	
One year's rent of Massillon Branch	20,000	
		181,595 00
Leaving a deficiency of		$45,651 19

—or, if 12½ per cent average premium on gold interest be added ($20,125), shows an approximate deficiency for the year, in currency, of $65,876 19.

The earnings as between the Main Line and Massillon Branch have been as follows, viz:

	1873.	1874.
Main Line	$324,484 02	$419,799 04
Massillon Branch	30,890 63	26,000 68
Total, as above	$355,324 65	$445,799 72

The total length of the line operated in 1874 was 157 miles, against an average of 127 miles in 1873.

The property represented by the item "cost of road, equipment, etc.," in the annexed statement of assets, consists of Main Line, from Hudson to Columbus, Ohio, 145 miles. Dresden Branch, incomplete, from Kilbuck station, six miles south of Millersburg, to Dresden, Ohio, on the Pittsburg, Cincinnati and St. Louis Railway, where it will connect with the Cincinnati and Muskingum Valley Railway, 34 miles. The company has also a lease of the Massillon and Cleveland Railroad, from Cleveland to Massillon Junction, Ohio, on the Pittsburg, Ft. Wayne and Chicago Railway, at a rental of 40 per cent of the gross earnings, (minimum amount to be paid annually, $20,000) 12 miles—making the total length of road operated 157 miles; on which there is the following equipment, viz; 22 locomotives, (6 of which are hired,) 14 passenger coaches, 13 baggage and express, 65 box, 5 stock, 525 coal, and 8 caboose cars. Two locomotives and two passenger cars are out of service; these it is the intention of the company to rebuild as the means of the company will permit.

Becoming aware of the inability of the company to meet the payment of the coupons due July 1, 1874, and those immediately following them, owing to the depressed condition of business, and the necessity for further expenditure on capital account to the extent of $100,000 in order to put the road and its appurtenances in a condition that would enable it to be worked with economy, develop the business tributary to it, and thus protect future interest payments, the directors, in January, 1874, sought relief from the Pennsylvania Railroad Company. This was granted to the extent of that company purchasing the coupons then maturing on the mortgage bonds, and receiving payment in the preferred stock for a large debt due it for equipment. It was also proposed to the bondholders that they should fund the full amount of the coupons due July 1, 1874, and one-half of those maturing Jan. 1 and July 1, 1875, 1876 and 1877, and receive payment of the remaining half in cash as those coupons matured. The coupons so to be funded to be deposited with Fredrik Willem Oewel, and Wertheim & Gompertz, of Amsterdam, in trust, who were to issue therefor certificates payable Jan. 1, 1885, bearing 7 per cent interest in gold; the first payment of interest to commence Jan. 1, 1876. The surplus earnings of the road, after meeting the interest requirements to be expended for construction and equipment purposes.

This proposition being accepted by the bond holders, the Pennsylvania Railroad Company signified their willingness to fund the whole amount due them, viz: $88,026 72 of coupons due Jan. 1, 1874, and $581,381 95 cash advanced—together, $669,408 67, into a mortgage income bond, payable 30 years from Jan. 1, 1875, bearing a rate of interest, payable annually, equivalent to the net earnings of the road, not exceeding 7 per cent as shall remain after paying all the charges secured by prior liens, and including the expenditure of $100,000, above referred to, for construction purposes. The company being thus practically relieved of its financial embarrassments, and having no current debts that it has not more than sufficient assets to pay, may be considered as resting for the present on a solid financial foundation.

There were carried during the year 1874, on the Main Line 237,368 tons of freight, and on the Massillon Branch 37,357 tons. Of passengers there were carried on the Main Line 260,768, and on the Branch 13,920.

The financial condition of the company December 31, 1874, was as follows:

Cost of Main Line, equipment, etc.	$4,619,510 87
Expended on Dresden Branch	220,725 31
Due by agents and conductors	11,337 14
Due by other companies	9,466 90
Bills receivable	6,539 92
Deposited with Pennsylvania Railroad Company for redemption of Cass and Marvin bonds	8,984 06
U. S. Postoffice Department	15,395 35
Deposited with Winslow, Lanier & Co., N. Y., for payment of coupons.	45,296 45
Miscellaneous	6,482 17
Cash in hands of Treasurer	42,111 62
Total	$4,985,849 79
Common stock	$1,299,584 94
Preferred stock	451,450 00
First mortgage bonds	1,350,000 00
First mortgage bonds, Columbus Extension	950,000 00
Cass and Marvin bonds	8,000 00
Due Pennsylvania R. R. Co., to be funded	669,208 67
Due other companies	10,720 58
Coupons matured to be funded (gold)	120,750 00
Coupons matured to be paid in cash (gold)	40,250 00
Coupons matured to be paid in cash (currency)	280 00
Construction accounts payable	24,569 79
Due for current expenses in December and prior	42,028 46
Balance to credit of income account	18,906 85
Total, as above	$4,985,849 79

The office of the company is at Mt. Vernon, Ohio. The officers are:

President.—Thos. D. Messler.

Directors.—Thomas D. Messler, Wm. Thaw, Geo. B. Roberts, J. R. Swan, Samuel Israel, Charles Cooper, Wm. M. Orr, Isaac Harpster, M. White.

Superintendent.—G. A. Jones.

Treasurer.—J. D. Thompson.

Auditor.—E. Mize.

Secretary.—Joseph S. Davis.

The Delaware Railroad and the Peach and Berry Crops.

As is well known the Delaware Railroad and its branches pass through the great Peach and Berry producing sections of the country. The number of quarts of the latter sent to the Philadelphia and New York markets over the Delaware Railroad amounted during the season of 1875 to 7,000,000, realizing to the producers at 10 cents per quart, the net profit this season, $700,000. In the transportation of these nearly 100 cars per day were required, averaging about 8,000 quarts each. In reference to the Peach crop, a correspondent of the Philadelphia Ledger says:

The prospect of an enormous crop of peaches this season is troubling the railroad companies somewhat in getting sufficient cars ready by the time the fruit ripens. Heretofore between six and seven hundred were sufficient for the largest crop, but this season at least one thousand will be necessary for the Philadelphia, Wilmington and Baltimore Railroad Company, and about three hundred more will be furnished by the roads running west and east. The railroad companies say that they cannot reduce their freight on peaches to the amount desired by the growers, for the reason that each car, when prepared for the business, costs about $400 extra, and nearly a month's use of them is lost while the alterations are being made. Most of the cars have regular passenger car trucks under them, so that they can be run at a high rate

of speed, without materially damaging the fruit. They also have to be well-ventilated by openings in the end, sides and laticed doors. Several miles of sideling tracks have been made this season along the Delaware road to accommodate the numerous trains that will have to be run, and, with all these preparations, it is a matter of doubt whether all the fruit can be transported as fast as it will be gathered.

The following estimate of the Peach crop for 1875, as compared with the number of bushels carried during the heaviest crops of peaches in past years, is from the pen of Mr. Mills, the superintendent of the Delaware Railroad:

	Estimate for 1875.	Shipments during the heaviest seasons.
Kirkwood	125,000	91,381
Mt. Pleasant	389,000	304,715
Armstrong	320 000	126,254
Middletown	600,000	442,614
Ginns	140,000	46,855
Townsend	160,000	37,600
Blackbird	74,000	730
Greenspring	80,000	44,775
Clayton	450,000	153,100
Brenford	100,000	70,143
Moorton	252.000	33,192
Dover	400,000	81.305
Wyoming	357,500	105,516
Woodside	60,000	11,729
Canterbury	74,800	29 267
Felton	160,000	48,434
Harrington	200,000	59,112
Farmington	68,800	28,146
Greenwood	70,000	45,837
Bridgeville	300,000	148,675
Cass	10,000	.....
Seaford	34,400	96,470
Broad Creek	12 500	.....
Laurel	50,000	148,163
Delmar	30,000	36,515
	4,513,000	2,211,506

The following estimates are made for roads connecting with the Delaware Road:

Kent County R. R.	498,000	50,000
Queen Ann's	500.000	53,368
Dorchester and Delaware	200,000	73,198
Maryland and Delaware	490.000	120,372
Eastern Shore	240,000	153,397
	1,928,000	450,330
Grand total	6,441,000	2,661,836

Showing an increase of 3,779,164 over the best seasons since the commencement of this trade.

The Last St. Croix Land Grant Decision.

The St. Paul Pioneer-Press says that the decision of the United States Circuit Court giving a portion of the St. Croix land grant to the Madison and Portage Railroad Company will stop the building of the North Wisconsin Road for the present, and perhaps permanently. The decision gives 150,000 acres of the grant to the Madison and Portage Company, which of course takes so much from the Northern Company, and so weakens it that it is claimed that it will not be able to go forward with the building of its line to Lake Superior. If this be true it is greatly to be regretted, as the road from the St. Croix to Superior is indispensable to the settlement and development of the Northwestern portion of the state. It is claimed that by the terms of the decision other companies, offshoots of the original La Crosse company, will be entitled to share in the grant. The West Wisconsin Railroad Company is a claimant for a portion of the lands.

We do not think that this decision is the end of the case—the case will be appealed to the Supreme Court of the United States, and we are inclined to think that the decision will be overruled, as the Supreme Court recently rendered a decision declaring the title to these lands to be vested in the state of Wisconsin, in the absence of any act of Congress resuming title to them. The state assuming that it had title in the lands, they having been forfeited by the companies to which they were originally granted, bestowed them upon the North Wisconsin company, and that company has accepted the grant, and given heavy bonds to complete the road in aid of which the grant was made. This being the case we do not see on what grounds the decision of the Circuit Court above mentioned can be sustained. For the Supreme Court to sustain this decision would be to contravene its own decision, for if the old companies have title in the lands, the state certainly has not. Unless, therefore, there are some points not yet made public, the decision, we think, will not stand. It may, however, retard the completion of the new road, which will be much to be regretted.—*Mil. Wis.*

Spartanburg and Asheville Railroad.

A correspondent of the Charleston News and Courier communicates the following information to that paper under date Spartanburg, June 30:

A meeting of the directors was held this evening; present Hon. C. G. Memminger, president; Messrs. Geo. W. Williams, Gabriel Cannon, T. B. Jeter, D. R. Duncan, of South Carolina; Dr. James S. Kennedy, V. Ripley, G. W. Fletcher, R. W. Allen, of North Carolina, and A. C. Kaufman, secretary.

After the preliminary business of the meeting had been dispensed with, President Memminger alluded in a very happy manner to the patriotic course pursued by the citizens of Union and Spartanburg Counties in voting a liberal subscription to this road whose value to both Carolinas, he said, must be apparent to every thinking and unprejudiced mind. The next question was, "what will the mountain counties of North Carolina do to help us?"

To this interrogatory, Dr. J. S. Kennedy, of Asheville, replied in a stirring strain. He stated that there had been some informality connected with the subscription made by Buncombe County last year. In order to remove every doubt as to the validity of the bonds it was decided to submit the matter again to a vote, the day fixed being the 5th of next August. "Some people," he proceeded, "had been wise enough to predict that the vote would not carry. My word for it, it will not only carry, but we will roll up an immense majority, and furthermore, we promise, when the grading has progressed somewhat farther, that Buncombe and Henderson will unite, and together subscribe $150,000 more—for this road must be built. As to the placing of the bonds, the majority of them will be taken in the counties subscribing at full figures, the coupons being receivable for taxes, and the securities themselves in every respect a prime investment. The people at home will have confidence in them, and in this way impart confidence to capitalists."

Col. V. Ripley, "the live man of Henderson," next spoke in an earnest and impressive manner. Charleston was the point he wanted to reach, that he might trade there, and if the good people of that honored city would show their faith in this enterprise by their works, as Henderson had done and was doing, all would yet be well.

A resolution to let the mountain section to contract was offered and unanimously adopted, Mr. Geo. W. Williams endorsing the resolution in a forcible and effective speech.

☞ Much progress has been made in the laying of the thirteen miles of steel rail second track of the Philadelphia, Wilmington and Baltimore Railroad Company south of Havre de Grace, and it is now expected that the improvement will be open to travel by the last of the month. The grading is all done, and the laying of the rails is progressing. The tracks are also being laid in various sections across the Gunpowder and Bush rivers.

Production of Coal in Gt. Britain.

The quantity of coal produced in Great Britain and Ireland during the year ending December 31, 1874, was 126,590,108 tons, against 128,680,181 tons in 1873—a decrease of 2,090,023 tons. The coal was produced in the different districts in 1874 as follows:

Northumberland, Cumberland and North Durham	18,602 272
South Durham	17,911.246
Westmoreland	1,297
North and East Lancashire	8,068.974
Ireland	189.218
West Lancashire	7,446,725
North Wales	2,429,037
Yorkshire	14,827,813
Derbyshire	7,152,944
Leicestershire	1,101,402
Nottinghamshire	3,125,176
Warwickshire	852,754
N. Staffordshire, Cheshire, and Shropshire	6,289,229
South Staffordshire and Worcestershire	8,500,000
Monmouth, Gloucester, Somerset and Devonshire	6,815,787
South Wales	11 452,358
East Scotland	6.606,385
Total 1874	126,590,108
Total, 1873	128,680.181

In addition to the above, 2,067,791 tons of fireclay, 11,693,186 tons of iron stone, and 362,747 tons of shale (principally oil shale) were produced from the mines of Great Britain and Ireland.

The number of persons employed in and about the various mines, aggregated 538,829; of this number, 428,611 were underground, and 110,218 above ground; 31,876 were engaged in mining fireclay, shale and iron stone, leaving 506,953 engaged in mining coal.

The number of fatal accidents, or number of persons killed at these coal colleries were 978, giving one death for 128,415 tons of coal mined in 1874, and one to every 518 persons employed. The quantity of coal mined for each person employed was 250 tons each, which shows that the mines were not worked at full time during the year, as the number of persons employed were greater in 1874, than in 1873, with a less production of coal. The number of persons employed in 1873 was 471,840, and the number of lives lost was 994, giving a production of 133,677 tons for each life lost—and the number of persons employed to each life lost was 479.

☞ An observatory fifty feet high is now being erected at Highland Light by the Western Union Telegraph Company. The building, which will cost $4,000, will be completed this month. Two telegraph operators will be kept on duty at this station in the daytime to report the arrivals of vessels. They will be furnished with powerful glasses, which will enable them to recognize steamers at a distance of twenty miles in ordinary weather, an increase of from four to six miles over the distance at which they can be recognized now. The lower part of the building will be fitted up as a residence for the operators, and the whole, when completed, will be the most complete and lofty station of the kind on the coast.

☞ A decision was rendered in the Supreme Court of Ohio on the 29th ult., sustaining what is known as the Worthington law, which says the city of Cincinnati shall contract no debts unless it has money in the Treasury to pay them.

California Mining Dividends.

The mining dividends paid by San Francisco gold and silver mining companies during the first half of the present year have been as follows:—

Consolidated Virginia Mining Company	$4,968,000
Belcher Silver Mining Company	312,000
Redington Quicksilver Company	226,000
Crown Point Silver Mining Company	200,000
Eureka Consolidated Silver Mining Company	200,000
Black Diamond Mining Company	100,000
Black Bear Quartz Mining Company	81,000
Great Western Quicksilver Company	50,000
Jefferson Silver Mining Company	50,000
Manhattan Silver Mining Company	50,000
Northern Belle Silver Mill Mining Company	50,000
Lyon Mill and Mining Company	30,000
Leopard Silver Mining Company	25,000
Rye Patch Consolidated Mining Company	22,500
Empire Gold Mining Company	20,000
Oneida Gold Mining Company	15,000
Excelsior Mill and Mining Company	12,000
Empire Mining Company	5,000
Genesee Valley Mining Company	5,000
Total	$6,421,500

English Railroad Law.

A case illustrating English railroad law is reported at some length in the London *Railway News*, having been finished in the Court of Queen's Bench, at Westminster, June 21, after a week's trial. The suit arose from the accident at Wigan Station Aug. 2, 1878, and was brought by the friends of Sir John Anson, who was killed in the accident, against the London and Northwestern Railway Company. The facts of the case were briefly these:

A train run during the Summer months for the accommodation of northward pleasure travel, called the "Scotch tourist train," consisting on the evening in question of twenty five cars, drawn by two engines, was running somewhat behind its time, and approached the Wigan Station, where it never stopped, at the rate of thirty eight miles an hour. A little south of the station were a set of "facing points" for switching local trains from the main to a side or branch track, and here the accident occurred. The forward part of the train passed the points in safety, but the trucks of the seventeenth car left the main line and turned upon the rails of the branch, dragging with it the succeeding cars. The speed was so great that before the couplings broke several cars were dragged over the platform between the two lines and nearly demolished, while the eighteenth car, in which were Sir John Anson, his two daughters, and two servants was turned bottom upward and completely broken up by the "telescoping" of the cars behind it. Sir John and the servant were killed and the daughters badly injured. The whole number killed was thirteen, and over forty were injured. The plaintiffs alleged negligence of the company in the mismanagement of the points, and sought to establish that the signalman shifted them before the train had passed. Testimony was given by passengers and others on the spot, and by expert engineers who had examined the scene of the accident, and officers of the company, who testified to the appearance of the line, carriages, and points after the accident, mentioning in particular a small bright mark which was on the thin end of one of the points, and which, they said, could not have been made unless the points had been moved while the train was passing over them. The construction of the points, in their opinion, rendered this quite possible to be done, some of them having tried the experiment of moving the points while a carriage was being pushed over them. The defense strove to show that the points were not shifted and that the cars left the track for some unaccountable and unavoidable reason. In their behalf the signalman swore that he did not touch the levers after giving the "all right" signal for the tourist train. The Staleybridge train was following closely upon the tourist train, and it was the signalman's duty immediately after the passage of the tourist train to shift the points to switch the Staleybridge train upon the branch. But the condition of the signal lights after the accident did not indicate that he had made this change, thus corroborating his testimony. In summing up the case the Lord Chief Justice said that the question for the jury's consideration was whether Sir John Anson lost his life by the negligence of the company through their servants, and explained the responsibility of railway companies, and the distinction in law between carriers of passengers and carriers of goods. Carriers of goods are responsible at all hazards, except under special and peculiar circumstances, for safe delivery. Carriers of passengers are not insurers of their safety; they are only responsible when any injury that may happen to the passenger happens through their default by omission to take reasonable care. It is difficult, said he, to lay down any general rule as to what shall constitute reasonable and proper care; that almost always depends upon the circumstances of the case, and is a matter of fact for the consideration of the jury and not a matter of law. It would be incumbent on the company, the carriers sought to be made liable, to show (a prima facie case having been made out) that it was not through their fault that the accident happened. You may have another set of cases in which the mischief that has resulted may be attributable either to want of care, or to a pure accident. In such a case, in my opinion, it would be for the party complaining to show that there was actual negligence on the part of the company before he could recover against them. The present case is one which I should have thought would have ranged itself under the last category, if evidence has been brought before us to show that such an accident as that which happened on this occasion might have occurred from simple accident, without any precise cause being discoverable, and this kind of evidence has been totally omitted, and we are left in the dark as to whether a train can get off a line of rails from pure accident—that is to say, without some obstruction, or some default or negligence on the part of some one to occasion its departure from the line. The plaintiffs take the ground that the accident must have happened from some specific cause—a cause which, if it existed, is undoubtedly one which amounts necessarily to negligence on the part of the company's servants. If the points were shifted while the train was passing over them, no one can doubt that it was by negligence, and if you are satisfied that this was the case, you must find for the plaintiffs. No defect or obstruction of the line is shown, and the plaintiff's allegation is supported in a considerable degree by the facts. The Staleybridge train and the tourist train were both late. This, the plaintiffs say, might render the signalman anxious to get his signals and points set as quickly as possible after the passing of the tourist train, and in his hurry he changed the points too soon. He feels the necessity for doing what he has to do within a short space of time; he acts precipitately and brings about the accident. If the defendants could put their finger on any other circumstance which might have caused the accident it might be different; but they did not, and no other cause was suggested. They say: "We will bring facts to contradict scientific evidence; no theory is worth anything as against facts." And they call the signalman, who says most positively that he did not shift the points, and the man at the canal bridge, who corroborates him by saying that the signals which he saw showed this statement to be correct. But it is impossible to shut one's eyes to the fact that the Wigan pointsman is speaking with the greatest interest, for, although he is not now in the company's service, still, when you come to consider the horrible position of a man who, by a hasty act, has hurled so many fellow creatures to destruction, it would be very probable that he would endeavor to deceive himself and to school himself into the belief that he had not done the thing which was the cause of so terrible a catastrophe. If you can place reliance on him and believe that the facts are as he has stated, then the defendants are in the right; and he is corroborated by the canal bridge signalman as to the appearance of the lights. But then it may be when he found what he had done the natural desire arose to screen himself from the consequences of so dreadful a mistake, and he immediately shifted the signals and points back again to the position in which they ought to be during the passage of a train. There was a sufficient lapse of time for this to have been carried out. All these questions are purely for your consideration, but before you find a verdict for the plaintiffs you must be satisfied that the company have been guilty of negligence which led to the accident. If you believe the testimony of the defendants' witnesses as opposed to that of the plaintiffs', then you will find a verdict for the defendants. You will not be troubled with any question as to the damages, for it has been agreed to settle the amount of them in another manner, should it be necessary to do so. The jury retired, and after a short time returned with a verdict for the plaintiffs.

Economy in the Use of Coal.

A great saving in Coal has doubtless been effected by the different forms of heating and cooking stoves invented within the last thirty years; but a still greater saving has been affected by the improvement of blast furnaces, in which improvement metallurgists have taken the lead. A paper read before the Royal School of Mines, Berlin, says that by the Bessemer process not more than ten pounds of coal is requisite for the production of a hundred weight of steel, while by the old process, still used for the finer qualities, 250 pounds are needed. Siemens obtains an economy of one third of the fuel by making the heat, which would escape from the chimney in an ordinary furnace, warm the fuel and air necessary to combustion. The gases which formerly escaped from the tops of blast furnaces are made by another process to run the blast engines, hoisting engines, pumps and hot blast stoves of such establishments.

Bischof, a German engineer and metallurgical author, was the first to produce gas artificially for smelting purposes, and this was certainly one of the greatest advances ever made in the art. By first turning it into gas, fuel can be much more perfectly consumed than in the solid form, and hence can be made to give, as in the Siemens furnace, in which only gas is used, a much higher temperature than is practically attained by the combustion of coal in the ordinary way; but perhaps the greatest advantage of gas is that substances in general, scarcely regarded as fuel at all, can be employed for the production of gas with the most brilliant results, a matter of the greatest importance, especially in a region destitute of true coal, like California. Lunden, a noted and thoroughly educated Swedish metallurgist, has produced gas from wet sawdust, entirely without preparation, of such power that wrought iron may be melted with it, and the great difficulty is to find any material infusible enough to answer as a lining in the furnaces where it is consumed.

☞ Andrew C. Gray has been elected President, and Henry V. Leslie Secretary and Treasurer of the Chesapeake and Delaware Canal Co. The treasurer's report showed the financial condition of the company to be good, while business is prosperous.

The Coal Trade.

The production for the week ending 3d inst., is stated by the Philadelphia *Ledger* at 478,433 tons, and for the year 6,847,481 tons, against 9,153,959 tons to corresponding date last year, a decrease of 2,305,678 tons. The bituminous tonnage for the week was 87,769 tons, and for the year 1,607,507 tons, making a total of all kinds for the week of 566,202, and for the year of 8,454,988 tons, against 10,666,033 tons to same time last year, a decrease of 2,212,045 tons. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 112,897 tons, and for the year 1,818,958 tons, of which 1,527,260 was coal and 300,508 coke. This embraces all the coal carried both east and west. At Port Richmond for the week ending the 10th instant there were receipts of 60,000 tons of coal, shipments of 50,000 tons, leaving 40,000 tons on hand. The *Ledger* adds:

Trade in the anthracite coal regions has been pretty generally resumed, and the tonnage has already swollen into large proportions, but will show larger in our next report. The orders for coal come in freely for all sizes except those of lump and steamer. The demand for these sizes is slack, because of the great prostration of business in the manufacturing districts and the limited consumption by our steam marine. Unless there shall be some revival in the pursuits named the coal production will be materially shortened from what it would otherwise be. But the mines cannot produce all coal of small sizes without telling directly on the weekly production. The retail trade at this point is to a fair extent, though it will probably increase from week to week as domestic consumers commence putting in their next winter's fuel. The fact should be kept steadily in mind by coal consumers that the price of coal is lower now in July than it will be in the coming month of August, and will be lower for that month than it will be in September. The longer orders for coal are delayed the higher will be the price to the end of the season. From Boston we learn that the demand there for anthracite coal is steady and prices are unchanged. Cumberland coal meets with a fair market at steady prices. Gas coals there are arriving freely and contracts are readily and promptly supplied. Nova Scotia and English coals are dull. The average of the prices of coal for June and July, as furnished by the drawings of the Schuylkill Coal Exchange, was $2 59 3-5 per ton, the rate of wages based on which will be three per cent above the basis of 1875.

The New York, Boston and Montreal Railway Suit.

In the suit in equity of the Banque Franco Egyptienne and others vs. John Crosby Brown, the New York, Boston and Montreal Railway, the Farmers' Loan and Trust Company and others, Judge Blatchford has entered the following order:

That Herman R. Baltzer and William G. Taaks, of the city of New York, composing the firm of Baltzer & Taaks, be appointed special receivers of the $754,000 of first mortgage bonds of the New York and Boston Railroad Company and of the $85,000 of first mortgage bonds of the Dutchess and Columbia Railroad Company, and be directed to retain the possession of the bonds and represent, protect and maintain their validity for the benefit of the parties who may finally be adjuged to be entitled to them or concerned therein (and without prejudice to any claims or rights of any or either of the parties to this suit as against the other or others, or as against any other person or persons, and without prejudice to any defence which may exist against the bonds or any of them) in the respective foreclosure suits brought by the defendants, Frederick Adams and the Farmers' Loan and Trust Company respectively, and now pending in the Supreme Court of the State of New York; and otherwise, by all proper means, to maintain and defend and enforce the same bonds and the interest thereby represented in the said foreclosure suits or otherwise, and to prove the amount due upon the same and to collect and realize the amount or value thereof.

That until the further order of the Court no security be required of the receiver. That the further hearing of the motion made on the part of the complainants, by and under the order to show cause, so far as it relates to all matters other than the $754,000 of first mortgage bonds of the New York and Boston Railroad Company, and the $85,000 of first mortgage bonds of the Dutchess and Columbia Railroad Company, be adjourned to the first Saturday of October next, without prejudice to the rights of the complainants to bring on the hearing thereof, on notice, at an earlier day, on proof of any emergency in the premises calling for such earlier hearing.

Illinois Central Railroad.

The statement of this Company for the month of June 1875, is as follows:

LAND DEPARTMENT.

Acres Construction Lands Sold	600.04 for	$4,373 68
Acres Interest Fund Lands Sold	..... for	.....
Acres Free Lands Sold	80.00 for	400 00
Total sales during the m'th of June 1875	680.04 for	$4,773 68
To which add Town Lot Sales	..... for	190 00
Total of all	.... for	$4,963 68
Cash collected in June 1875		$29,614 18

ESTIMATED EARNINGS—TRAFFIC DEPARTMENT.

	In Illinois, 707 Miles.	In Iowa, 402 Miles.	Total, 1,109 Miles.
Freight	$277,019 00	$104,855 00	$381,874 00
Passengers	95,987 11	37,707 10	133,694 21
Miscellane'us	78,800 00	5,560 00	84,360 00
Tot'l June'75.	$451,806 11	$148,122 10	$599,928 21
Total actual earn'gs, June, 1874	$567,921 64	$124,494 89	$692,416 53

New Jersey Midland Railway.

At a meeting of the stockholders and directors of this company held some time ago, a committee was appointed to report upon a plan for the reorganization of the road. On the 1st of June last this committee made its report, which was accepted by the majority of the stockholders. The following are principal phases of the proposed plan: A new company shall be organized under chapter 429 of the laws of New Jersey, to be called the Midland Railway Company of New Jersey, which shall be become the purchaser of the New Jersey Midland Railway Company. The new company, in order to meet pressing expenses, is then to execute a first mortgage on all its property to secure the amount of $800,000, payable in currency in twenty years from Aug. 1, 1875, with coupons for interest at seven per cent, payable on Feb. and Aug. 1, the corporation to reserve the right to redeem the bonds on any 1st day of February or August, on sixty days' previous notice, at 105. The bonds also to be converted at par into gold bonds, at the option of the holder. The new company is also to issue gold bonds, secured by mortgage on all the property of the road, not to exceed $4,500,000, payable in gold thirty years from Aug. 1, 1875. Of these bonds, $800,000 are to be reserved to be exchanged for first mortgage bonds, and the remainder to be issued to the present first mortgage bondholders, so far as is necessary, for their bonds and past due coupons to Aug. 1, inclusive; the new company to issue its common stock in exchange for the common stock of the old company, share for share, to an amount not to exceed $1,400,000; such common stock to be entitled to all net earnings of the road after the payment of interest and dividends on prior securities.

The Missouri Kansas and Texas Railway Suit.

In the suit of Martin Haas et al. against the Missouri, Kansas and Texas Railroad Company Judge Barrett, in Supreme Court, Chambers, on the 7th inst., confirmed the report of the Referee in favor of plaintiff for $4,748 03. The basis of the suit, as appears by the papers in the case, is that Haas and others were owners of nine bonds of the Tebo and Neosho Railroad Company, which they claim were at a premium of $125, or about thirteen per cent. The Tebo and Neosho Railroad Company leased this road to the Missouri, Kansas and Texas Railroad Company, which issued to the Union Trust Company bonds to take up the old Tebo and Neosho Company's bonds. Plaintiffs sent in their bonds to be exchanged, and the Trust Company refused to exchange them, on the ground that these bonds were stolen from their President, Issaac H. Frothingham. The case was referred to Ex-Judge Murray Hoffman, who found, as matter of fact, that these bonds were signed by the president and secretary of the railroad company, but that the seal of the railroad company was counterfeited and that the counter seal of President Frothingham was forged. Nevertheless, as the plaintiffs purchased the bonds in good faith, without knowing of these defects, he decides, as matter of law, that the bonds are good and that the Union Trust Company must exchange them, and that the Missouri, Kansas and Texas Railroad Company, as the bonds have fallen from 92 to 49, must pay $430 per share cash for the depreciation. Judgment entered in $4,748 03, and the Trust Company ordered to exchange the bonds.

☞ The directors of the New York and Canada Railroad Company, recently elected, are: Isaac V. Baker, Wm. W. Cook, Legrand B. Cannon, Rodman G. Moulton, Hy. A. Smythe, Harwood C. Olyphant, Thomas Dickson, John Hammond, A. A. Low, Christopher J. Norton, James C. Hartt, Andrew Williams and Col. F. Young. The officers are: I. V. Baker, president; James C. Hartt, treasurer and secretary.

☞ The new rolling mill in South Chester, Penn., will be ready for operations in a short time. The mill is 187 by 192 feet, and contains six puddling furnaces. The machinery will be run by two Corliss engines, and four smaller engines. The capacity of the mill is 50 tons per day, and will employ about 150 hands.

☞ The St. Stephen (N. B.) Journal learns from a correspondent, that a staff of engineers have commenced the survey of the Grand Southern Railway. They started at St. George and are proceeding westward. On arriving at St. Stephen they are to return to St. George, and go on with the survey eastward to St. John.

American Railroad Journal.

Saturday, July 17, 1875.

Financial and Commercial Affairs.

Advices from the continent have been less favorable to ease in the Money line; but accounts from England have been more satisfactory, and in the local market the movements in loans and discounts have shown a moderate degree of activity, but without disturbance in the protracted low range of rates for accommodation to responsible borrowers, who have had their wants promptly provided for on the basis of 1½@3, generally at 2@2½ on call, and 3@6 per cent per annum, in the discount line. The City Banks have been gainers in specie and deposit, while reporting reduced averages in the legal tender and circulation items. They further increased their loan and discount average. The U. S. Sub Treasury diminished both its currency and specie balances, during the week; the former moderately, and the latter to the extent of nearly two millions, mostly in the line of coin interest disbursements. The City Banks last week lost of their reserve of legal tender notes $3,170,000; while adding to their deposit item $4,508,500, and their specie average $3,112,700. They report an increase of $1,469,600, in the loans and discounts, and a falling off of $127,700 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $53,850,112, against $54,631,995 the preceding week; and a coin hoard of $36,016,566 against $38,005,164 on the previous return. The City bank exchanges in currency during the week, were $378,125,184, or a daily average of $75,625,037. The customs revenue of

the port, during the week, was $1,885,000. The City banks reported their average of gold last week at $16,937,300, and their greenback average at $70,661,200. Their deposits stood at $250,405,200. The loan item was $280,866,800. The circulation was $18,854,800.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $24,997,200.

The aggregate of the outstanding U. S. currency, of all denominations, July 1, was $417,971,111 69. The outstanding amount of legal tender notes is $375,771,580. The National bank circulation is now $349,735,164, including $2,539,000 of national gold bank notes.

On Tuesday, the cash balances of the Treasury Department at Washington were of Currency, $3,167,209; special deposit of legal tenders for the redemption of certificates of deposit, $59,980,000. Coin, $68,478,574 00. Coin certificates, $23,778,900.

The week's import entries of Foreign Merchandise at New York, were $4,342,501, and included of dry goods $956,813.

The income of the Government from internal revenues in the fiscal year, since July 1. 1875, has been about four millions.

Gold has been quoted decidedly lower, under enlarged and more urgent offerings; while the demand, especially on speculative account, has been comparatively moderate. The extremes of the week have been 114⅝@116⅛, closing on Wednesday at 114⅝ as against 116⅛ on Wednesday of the preceding week. The specie outflow last week was $2,959,605 against $3,238,986 the previous week. The imports of specie at this port since Jan. 1, have been $7,371,104, against $2,585,000 same time last year. The customs demand for Gold last week averaged $377,000. Foreign Exchange has been in fair request, with Bankers' sixty day bills on London closing on Wednesday, and a shade easier, at $4 86⅛@$4 87⅛; sight bills on London at $4 89⅛@$4 90⅛ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,013,248. The week's imports of Dry Goods and general merchandise were to the specie value of $4,342,501 against $7,814,988 same week last year.

The specie exports from San Francisco, Jan. 1, to July 1, were $26,309,203, against $13,053,062 same time last year.

Government Securities have been fairly active the demand having been almost wholly on investment account, with prices ruling quite firm, considering the decline in Gold. State and Railway bonds have been in moderate request, at about previous rates. And in the line of Railway and Miscellaneous share property, there has been a restricted business reported, with values closing generally weaker and somewhat irregular.

A much livlier movement has been reported in the Breadstuff line, since our last, in good part for export, with Flour and Spring Wheat quoted much stronger in price. Corn and Oats closed cheaper. Provisions have been in fair request, as likewise Cotton, Tobacco, Wool, Hops, Provisions, Tallow, and Whiskey, but at variable rates. Hardware, Dry Goods, Building Materials, and Boots and Shoes, have been comparatively quiet. Metals have been less confidently sought after. Scotch Pig Iron has been held firmly, at quoted rates; but most other articles have been weak and irregular. Eglinton Pig Iron quoted here at $29 50@$31; Glengarnock, $32; Coltness, $31@$32; No. 1 American Pig at $26@$27; No. 2 do. at $24@$26; Forge, $21@$24; English Rails at $48@$50, gold; American Rails at works, $48@$50; Old Rails, $26@$27. Wrought Scrap, $30@$32. Ocean freights have been more active, and again quoted firmer for Grain and Petroleum, accommodation for which has been most sought after.

U. S sixes of 1881 closed on Wednesday of this week at 122⅜@122⅝; U. S. Five-Twenties of 1862, at 118¼@118½; U. S. Five-Twenties of 1864 at 118¼@118½; U. S. Five-Twenties of 1865 120¾@121; U. S. Five-Twenties of 1865 consolidated, 119¾@120; U. S. Five-Twenties of 1867, 121@121¼; U. S. Five-Twenties of 1868, 120¾@121; U. S. Ten-forties at 118⅝@118⅞; U. S. Fives of 1881,(Funding Loan) 118@118¼; Six per cent. currency Sixes from 122¾@123.

Erie Railway Company.

A bill in equity was filed in the County Clerk's office at Milford, Penn., on the 7th inst. by the Farmers' Loan and Trust Company against the Erie Railway Company upon the consolidated mortgages for $30,000,000. The next day the subpœna was served, and the Court of Common Pleas of Pike county appointed President Jewett Receiver. The proceedings were ancillary to like proceedings in the State of New York upon the same mortgages. Bonds in $50,000, with Hon. S. L. M. Barlow and W. W. McFarland as sureties, were filed. Hon. S. E. Dimmick, Attorney General of Pennsylvania, appeared as solicitor for the Loan and Trust Company, and Hon. W. H. Jessup, of Montrose, Penn., for the Erie Railway.

☞ In the old suit of the Erie Railway Company against Cornelius Vanderbilt, involving about $4,500,000, which was dismissed by Judge Barnard when on the bench of the Supreme Court, a decision was rendered on appeal on the 8th inst. by the Supreme Court, General Term, reversing Judge Barnard's judgment, and ordering a new trial. Judge Donohue delivered the opinion of the court.

☞ The general offices of the Burlington and Missouri River Railroad in Nebraska have been removed from Plattsmouth to Omaha.

☞ Thos. D. Messler has been appointed President of the Indianapolis and St. Louis Railroad Company vice E. W. Woodward, resigned.

North Pacific Railroad.

The North Pacific Narrow Gauge Railroad is fifty-five miles in length, extending from Saucelito to Tomales, and it is the intention of the company to extend it this fall. The San Quentin branch of seven miles connects with it at San Anselmo station. The road, after leaving Saucelito, for about twelve miles passes through a fine dairy country, and then through the redwoods until within a few miles of Tomales, when it passes through a good potato country. The road runs daily passenger and freight trains, and excursion trains Sundays. Of the stock of the road there are seven Baldwin engines and one Mason Farley engine.

Eureka and Palisade Railroad.

A letter dated Palisade, Nevada, July 1, says that the Eureka and Palisade Railroad is to be completed this summer, and then adds:

An order has been issued this morning by the President, Edgar Mills, to send out any number of men to engage as graders, tracklayers, etc. An opportunity is now offered for a few hundred men to obtain employment at remunerative wages, although it is extremely doubtful whether any of the countless pilgrims who pass here daily can be induced to accept the employment. The citizens of Eureka have reason to congratulate themselves that the road is now in such energetic hands, and that they are so soon to reap the advantages of rapid transit and low freights.

☞ The Western Union Telegraph Company, having withdrawn the gold loan recently offered to the public, and substituted therefor a four million dollar seven per cent currency loan, for which they have received subscriptions to the full amount, are now prepared to pay the principal of their bonds maturing November 1, 1875, with accrued interest, upon presentation of the same at their office.

☞ Two passenger cars for the Boston, Revere Beach and Lynn Railroad arrived in Lynn on the 7th inst., via the Eastern Railroad. The cars are of the modern style, with monitor roofs and Miller platforms and buffers. They are named "Revere" and "City of Boston," and will seat fifty persons each.

☞ The Monticello and Port Jervis Railway was sold on the 8th inst. at Monticello under foreclosure of a mortgage. It was purchased by the Trustees of the first mortgage bondholders, Messrs. Day, Depuyster & Knox, for $165,000. No change in the management of the road will be made at present.

☞ The officers of the North Brookfield, Mass., Railroad Company, recently elected, are: President, A. H. Batcheller; Vice Presidents, Alden Batcheller, Bonum Nye; Secretary, T. C. Bates; Treasurer, Charles Adams.

☞ The Atlantic and Lake Erie Railroad bed has been finished from Rushville, Ohio, to Bremen, and a full force is still engaged between Rushville and Pleasantville.

☞ The Huron Harbor Railway Company has been incorporated with a capital stock of $150,000. The road is to run from Huron, Erie Co., Ohio, to Lake Erie.

☞ The Western Railway Construction company, with a capital stock of $400,000, in shares of $100 each, has been incorporated in Ohio by John C. Presscott and others.

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

WESTERN UNION TELEGRAPH CO., TREASURER'S OFFICE NEW YORK, July 2, 1875.

THIS COMPANY IS NOW PREPARED TO PAY the principal and accrued interest of its bonds, maturing November 1, 1875, upon delivery of the bonds at this office.

R. H. ROCHESTER, Treasurer.

PHILADELPHIA AND READING RAILROAD CO., OFFICE No. 227 SOUTH FOURTH ST., PHILADELPHIA, June 30, 1875.

DIVIDEND NOTICE.

THE TRANSFER BOOKS OF THIS COMPANY will be closed on Tuesday, July 6, and reopened on Monday, July 19. A quarterly dividend of two and a half per cent. has been declared on the preferred and common stock, clear of all taxes, payable in cash, on and after the 30th of July next, to the holders thereof, as they shall stand registered on the books of the company at the close of business on the 6th of July.

All dividends payable at this office, where blank powers of attorney can be obtained.

S. BRADFORD, Treasurer.

CENTRAL RAILROAD COMPANY OF NEW JERSEY, 119 LIBERTY STREET, NEW YORK, June 24, 1875.

A QUARTERLY DIVIDEND OF TWO AND A HALF PER CENT. is declared, payable on and after TUESDAY, July 20th.

The transfer books will be closed from WEDNESDAY, the 30th inst., till THURSDAY, the 22d prox.

SAMUEL KNOX, Treasurer.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD CO., NEW YORK, June 22, 1875.

A DIVIDEND OF FOUR PER CENT HAS been declared by this Company, payable on the second day of August next, to the holders of full paid shares registered at the close of the fourteenth day of July next, after which, and until the fifth day of August, the transfer books will be closed.

L. V. F. RANDOLPH, Treasurer.

Philadelphia as a Manufacturing City.

Philadelphia is now practically the largest manufacturing city in the world, being only excelled by London, which has a population of five millions. For this manufacturing prosperity Philadelphia is largely indebted to the spirit and enterprise which rendered that city the paradise of labor, so to speak. In no other city in the United States are the working men better cared for, and in none can they own their own homestead with as much ease and certainty. And so labor has been attracted to it from all parts of the world, and the prosperity of the city rests on the most solid of all foundations. In this view it is most natural and proper that it should be the scene of the approaching centennial celebration.—U. S. *Economist.*

☞ The telegraph line between Tampico and San Luis Potosi, Mexico, has been completed.
